

CPC30220 Certificate III in Carpentry

DESCRIPTION

This is a trade qualification for carpenters in residential and commercial workplaces. It includes setting out, manufacturing, constructing, assembling, installing, and repairing products made using timber and non-timber materials.

State and territory jurisdictions may have different licensing, legislative, regulatory, or certification requirements. Relevant state and territory regulatory authorities should be consulted to confirm those requirements.

Completing the general construction induction training program, specified in Safe Work Australia model Code of Practice: Construction Work, is required by anyone carrying out construction work. Achievement of CPCWHS1001 - Prepare to work safely in the construction industry or its equivalent meets this requirement.

This qualification is suitable for the Australian apprenticeship pathway.

ELIGIBILITY/ENTRY REQUIREMENTS

To ensure you have the right skills and support to succeed in your course, a Language, Literacy, and Numeracy (LL&N) evaluation helps identify any areas where you may need additional support to help you achieve your goals.

To gain entry into CPC30220 Certificate III in Carpentry as an Apprentice, candidates require:

- To be an Apprentice who has entered a Training Contract with their employer and Australian Apprenticeship Support Network NT.

Students can undertake this course as self-funded mainstream non-Apprentices, candidates will need to discuss the program with the delivery team.
