# VTP421 Apply Poison Baits for Vertebrate Pest Control in Rural and Environmental Landscapes

#### **DESCRIPTION**

This course is designed to meet the needs of Northern Territory (NT) residents to apply for a 1080 Pest Animal Management Authorsiation (PAMA) and will include training on wet bait injection (previously a separate training course).

For full details of the requirements for applying for the PAMA, visit: <a href="https://nt.gov.au/industry/agriculture/farm-management/controlling-pest-animals-wild-dogs-with-1080-poison">https://nt.gov.au/industry/agriculture/farm-management/controlling-pest-animals-wild-dogs-with-1080-poison</a>

# **ELIGIBILITY/ENTRY REQUIREMENTS**

To ensure you have the right skills and support to succeed in your course, a Language, Literacy, and Numeracy (LL&N) evaluation helps identify any areas where you may need additional support to help you achieve your goals.

To gain entry into VTP421 Apply Poison Baits for Vertebrate Pest Control in Rural and Environmental Landscapes, candidates require:

- Current level 3 chemical user accreditation (i.e. AusChem, SMARTtrain)
- Literacy and numeracy skills suitable for completing forms and calculating dose rates.

### **DELIVERY DETAILS**

| Location (s)                     | Duration | Study mode                |
