School of Trades (Trades Central)

Test and Tag

DESCRIPTION

This skill set is designed for people wishing to undertake the testing, tagging and reporting of portable/hand held low voltage electrical equipment using a portable appliance tester (PAT). These competencies are in addition to competencies already gained in the relevant field to which the electrical work is incidental or a primary and regular function of the work. Learners will be developing skills in working safely on portable/hand held electrical equipment, using the portable appliance tester, testing electrical equipment as per Australian Standard AS/NZS 3760.

LENGTH OF COURSE

This program is delivered over a period of 2 and a half days.

ACCRREDITATION

This skill set is taken from the UEE11 Training Package and is recognised nationwide.

ELIGIBILITY/ENTRY REQUIREMENTS

To gain entry into the Test and Tag course candidates require:

- A current First Aid Certificate that covers CPR components or can demonstrate CPR whilst attending the course.

SUPPORT SERVICES

CDU provides assistance for Language, Literacy and Numeracy, Disability, Library, Professional Counselling in a wide range of personal, career, study issues and Indigenous academic support.

FEES

Course fees are Fee for Service, totalling $400.00.

Fees can be paid online, BPay, credit card via telephone, payment in person, cheque and money order payment by mail.

Instalment payments can be made where financial difficulty is encountered and an Instalment Agreement Plan has been arranged – there are some restrictions and/or conditions. Fees must be more than $100 to enter into an instalment agreement. [http://www.cdu.edu.au/cdu-vet/student-guide/paymentbyinstalment](http://www.cdu.edu.au/cdu-vet/student-guide/paymentbyinstalment)

REFUNDS

HOW YOU WILL LEARN?

This program is delivered over 2 and a half days with classroom and workshop engagement.

ASSESSMENT

Assessments are completed both during classroom sessions and after the completion of the unit. Students have a set date when assessments must be completed by.

RECOGNITION OF PRIOR LEARNING

Recognition of Prior Learning (RPL) takes into account the knowledge and skills you have already gained through your previous education and work. This may be through formal or informal training, paid or unpaid work experience, and can earn you credit if relevant to this course. Fees do apply for RPL assessment.

For details on fees and information on how to apply for RPL, please refer to:

PREVIOUS STUDIES RECOGNITION

Do you already have a qualification, statements of attainment or academic statements for units completed at another registered training organisation? ‘National recognition’ is all about recognising these previous studies.

Where units of competency have the same national code but were awarded by another Registered Training Organisation (RTO), CDU will recognise these to assist you in completing this qualification. Simply present your original documentation – i.e. qualification, statements of attainment or academic statements – to the Course Coordinator who will verify the authenticity of these and arrange for a copy to be placed on file for later reference. There is no cost for recognition of these units.

Previous study or experience may be recognised either through a Credit Transfer (CT) or Recognition of Prior Learning (RPL) pathway. Where credit for a unit of competence has been attained previously from a RTO and that unit of competency is recognised in the current Training Package or Accredited Course documentation, a CT will be granted. Where a student has no such recognised competency, but believes their previous experience no matter how gained, demonstrates competence in the unit (or course), a process of RPL will be used to determine whether the previous experience and knowledge achieves competence in the current unit or course.

For details of credit transfer, please discuss this with the VET Lecturer.

EXIT POINTS

You may exit or withdraw from this qualification at any time and receive a Statement of Attainment for all units of competency you have successfully completed.

RESOURCES

Students are issued with resources for the units.
STUDY AND CAREER PATHWAYS

The units of competency in this skill set will contribute to the completion of relevant CII, CIII and CIV qualifications from the UEE11 Electrotechnology Training Package.

Possible job titles relevant to these units if additional units are undertaken include:
Electronic Technician
Electrical Technician

PROGRAM CONTENT

This training program covers 2 units of competency taken from the Training Package. There is 1 core unit and 1 elective unit.

CORE UNITS

- UEEENEE101A Apply Occupational Health and Safety regulations, codes and practices in the workplace.

ELECTIVE UNIT

- UEEENEEP026A Conduct in-service safety testing of electrical cord connected equipment and cord assemblies.

STUDENT RIGHTS AND RESPONSIBILITIES

Everyone at Charles Darwin University has the right to be treated with respect and everyone has an obligation to treat others with respect. The principles of natural justice and procedural fairness are an integral part of the way the University conducts its interactions. For further information please refer to the link below:
