

CPC40110 Certificate IV in Building and Construction (Building)

DESCRIPTION

This course is designed to enable potential builders to improve their business skills and technical knowledge, so that they can successfully manage a business. This course covers building theory and practice related to low rise buildings and associated light steel structures. Graduates will have developed specialist skills and knowledge in area such as plan interpretation, quantities take-off, estimating, scheduling, construction technology, Occupational Health and Safety, site supervision, surveying, cost control, and business management.

The completion of this CPC 40110 Certificate IV Building and Construction (Building) forms part of the requirements to obtain a Builders Licence, details can be found on the Builders Practitioners Board website (<http://bpb.nt.gov.au/>)

Infection control, including COVID-19 measures and the associated restrictions, have been implemented to ensure the safety and well-being of students, lecturing staff and the wider community.

ELIGIBILITY/ENTRY REQUIREMENTS

To gain entry into, CPC40110 Certificate IV in Building and Construction (Building) candidates require:

- Successful completion of English and Maths to a year 12 standard
- Mature aged students, with industry skills and knowledge
- Confident computer literacy
- Candidates are expected to have or obtain an NT White card

NT Government subsidy is available to NT Registered Trainees

Students need to complete an online literacy and numeracy assessment to show that they have an appropriate level of LLN skills to participate successfully in the course and to identify any additional support needs.
