

# VTP249 Licence to operate a boom-type elevating work platform (boom length 11 metres or more)

## DESCRIPTION

This course specifies the skills and knowledge required to safely operate a boom-type elevating work platform (EWP) where the length of the boom is 11 metres or more, in accordance with all relevant legislative requirements. Competence in this unit, does not in itself result in a High-Risk Work Licence (HRWL) to operate this plant.

Boom-type elevating work platform means a telescoping device, hinged device, or articulated device, or any combination of these, used to support a platform on which personnel, equipment and materials may be elevated.

A person performing this work is required to hold a boom-type elevating work platform licence (HRWL), which can be applied for at NT Worksafe after successful completion of this course.

This course requires a person operating a boom-type elevating work platform to plan the work, conduct routine checks, set up elevating work platform, operate elevating work platform, and shut down and secure elevating work platform.

## ELIGIBILITY/ENTRY REQUIREMENTS

Legal requirements

- 18 years of age
- Hard hat
- High visibility clothing
- Steel capped work boots

Appropriate level of language, literacy and numeracy skills and knowledge to undertake a course at this level.
