

# VTP466 Low Voltage Rescue

## DESCRIPTION

This course provides participants with the skills to manage common first aid situations that can arise in an electrical services industry environment, including rescue from low voltage panels.

The application of the skills and knowledge described in this unit may require a licence/registration to practice in the workplace.

## ELIGIBILITY/ENTRY REQUIREMENTS

To gain entry into VTP466 Low Voltage Rescue, candidates require:

- To be employed as electricians and others employed in the electrical services industry.
- Must have completed Pre-requisite units for UETDRMP007:
  - HLTAID009 Provide cardiopulmonary resuscitation, **and**,
  - UEECD0007 Apply work health and safety regulations, codes and practices in the workplace
    - **or**
  - UETDREL006 Work safely in the vicinity of live electrical apparatus as a non-electrical worker

To ensure you have the right skills and support to succeed in your course, a Language, Literacy and Numeracy (LL&N) evaluation helps identify any areas where you may need additional support to help you achieve your goals.

## DELIVERY DETAILS

| Location(s)   | Duration* | Study mode  |
|---|-----------|---|
| Casuarina campus<br>Alice Springs campus<br>Nhulunbuy | 1 day     | Face-to-face<br>Practical tasks and assessment are conducted in a simulated electrotechnology workshop. |

\* Duration will vary depending upon how long a student takes to reach the required competency level.

## 2023 FEES

The 2023 indicative fee for this course is \$160.00.

Please note: A limited number of NT Government subsidy places are available for eligible NT domestic students, so contact us now to secure your place for 2023.

Fees are subject to change annually. Indicative government-subsidised and full course fees are shown on this document. For further clarification and information on fees, payment options, instalment plans, and refunds, contact CDU on 1800 061 963 or refer to [VET Fees and Payments](#).

## ASSESSMENT

Assessments vary with each unit. You will be provided with an assessment guide.

## RECOGNITION OF PRIOR LEARNING (RPL)

RPL is a process that determines whether the skills, knowledge and experience you've gained through your previous study, work or life experience can count towards a vocational training qualification at CDU. For more information, [VET RPL](#).

## RESOURCES

Students are issued with resources for this course.

## STUDY AND CAREER PATHWAYS

Further training pathways from this course include but are not limited to other qualifications from the Construction, Plumbing and Services Training Package.

Possible occupations relevant to this qualification include:

- Employment in the electrical services industry.

## PROGRAM CONTENT

This training program covers two (2) units of competency taken from the UEE Electrotechnology Training Package, which is recognised nationwide.

## CORE UNITS

|             |  |
|-------------|--|
| HLTAID009   | Provide cardiopulmonary resuscitation        |
| UETDRMP007* | Perform rescue from a live low voltage panel |

### \* Pre-requisite unit requirements:

- HLTAID009 Provide cardiopulmonary resuscitation, **and**,
- UEECD0007 Apply work health and safety regulations, codes and practices in the workplace  
**or**
- UETDREL006 Work safely in the vicinity of live electrical apparatus as a non-electrical worker

## SUPPORT SERVICES

The University supplies support for students in many areas, including Accommodation, Careers and Employability, Counselling, Disability Services, Student Advocacy, Indigenous Tutorial Support Services, International Student Support Services, Library Services, and VET Learner Support Services.

More information is available at [Student Support](#).
