

VTP396 Refrigerant Handling Licence – Automotive Air Conditioning

DESCRIPTION

This course reflects the role of individuals who perform various tasks relating to servicing and repairing air conditioning components and systems of cars and heavy vehicles in an automotive service and repair business.

ELIGIBILITY/ENTRY REQUIREMENTS

To gain entry into VTP396 Refrigerant Handling Licence – Automotive Air Conditioning, candidates require a relevant trade qualification:

- AUR30320 Certificate III in Automotive Electrical Technology or its equivalent
- AUR30620 Certificate III in Light Vehicle Mechanical Technology or its equivalent
- AUR31120 Certificate III in Heavy Commercial Vehicle Mechanical Technology or its equivalent
- AUR31220 Certificate III in Mobile Plant Technology or its equivalent

Licensing and/or legal requirements - Trainee Classroom Licence:

Trainee License available from www.arctick.org. CL000 - Refrigeration and air conditioning trainee licence (Classroom) To handle refrigerant in a classroom setting only. The licensee cannot handle refrigerant outside the classroom setting. This licence is valid for a period of training which can be up to 1 year.

To ensure you have the right skills and support to succeed in your course, a Language, Literacy, and Numeracy (LL&N) evaluation helps identify any areas where you may need additional support to help you achieve your goals.

DELIVERY DETAILS

Location(s)	Duration*	Study mode
Casuarina Alice Springs Other/Remote	3 days*	Training takes place at CDU in classrooms and a simulated automotive workshop. Students complete the theoretical knowledge learning online before the practical schedule begins. Practical training activities are conducted in a simulated workshop, utilizing vehicles and training simulators. The students will be required to complete practical tasks, which include listing faults and their rectifications, demonstrating acquired skills, and performing routine tasks.

* Duration will vary depending on how long a student takes to reach the required competency level.

In this course, students engage with learning by accessing all the learning content, formative quizzes, and written assessments through Learnline, which is CDU's premier Learning Management System.

FEES

Fee Type	2024 Course Fees
NT Government Supported*	\$222.00
Full Fee	\$1,200.00

*This course is supported by the NT Government for domestic eligible students who are NT residents. A limited number of NT Government supported places are available, so secure your place now.

Fees shown are indicative and subject to change annually. Actual course fees may vary depending on the units chosen. International non-student visa-holders; study eligibility needs to be verified before enrolment. Fees may vary depending on the visa type.

For further clarification and information on fees, fee exemptions, payment options, instalment plans, and refunds, contact CDU on 1800 061 963 or refer to [TAFE Fees and Payments](#)

ASSESSMENT

Assessments vary with each unit. You will be provided with an assessment guide.

RECOGNITION OF PRIOR LEARNING (RPL)

RPL is a process that determines whether the skills, knowledge and experience you've gained through your previous study, work or life experience can count towards a vocational training qualification at CDU. For more information, [VET RPL](#).

RESOURCES

Learning material and activities are provided online through Learnline. Learners must access this material and engage in the activities to complete the requirements of the units. Students must log into Learnline on the first day of the teaching period.

You will need to wear work clothing suited to the automotive industry, such as

- Steel cap boots
- Safety glasses
- Protective clothing

You will also require a calculator and pen and paper.

STUDY AND CAREER PATHWAYS

The completion of this course enables an individual to apply for an AAC02 - Refrigerant Handling Licence - Qualified Persons (Automotive Air conditioning Licence). Users are advised that the scope of the licence will be contingent on the unit of competency selection. This licence is governed by the Australian Refrigeration Council, which should be contacted for further information.
