

AHC40924 Certificate IV in Conservation and Ecosystem Management

DESCRIPTION

This qualification has the practical skills and theoretical knowledge required for specialised or skilled work in the conservation and ecosystem management industry.

The qualification provides for advanced skills and/or supervisory roles in a broad range of conservation and ecological work or can focus on areas of specific needs including:

- supervisory and management
- indigenous land management
- ecosystem management
- pest controller
- fire management

ELIGIBILITY/ENTRY REQUIREMENTS

To ensure you have the right skills and support to succeed in your course, a Language, Literacy, Numeracy and Digital Literacy (LLND) evaluation helps identify any areas where you may need additional support to help you achieve your goals.

To gain entry into AHC40924 Certificate IV in Conservation and Ecosystem Management, it is advisable that students either:

- Complete AHC31421 Certificate III in Conservation and Ecosystem Management, its equivalent or other relevant qualification, or
- Be employed within the conservation industry.
