

AHC51120 Diploma of Conservation and Ecosystem Management

DESCRIPTION

This qualification reflects the skills and knowledge required for skilled and paraprofessional work in conservation and ecosystem management. Workers with this qualification perform in operational managerial and/or technical positions, often with specialist skills and knowledge in various sectors. Examples of areas of specialisation include:

- Indigenous land management
- ecosystem restoration, rehabilitation, and renewal
- conservation works
- parks management and/or administration
- wildlife management
- marine and/or coastal management
- water and catchment management

ELIGIBILITY/ENTRY REQUIREMENTS

To gain entry into the AHC51120 Diploma of Conservation and Ecosystem Management, it is advisable that students have:

- Completed AHC40920 Certificate IV in Conservation and Ecosystem Management or a relevant qualification; or
- Be employed in the conservation industry.
- Access to a suitable workplace to undertake workplace-based assessments and demonstrate ongoing application of skills and knowledge
- An equivalent Australian Year 12 certificate

To ensure you have the right skills and support to succeed in your course, a Language, Literacy, Numeracy and Digital Literacy (LLND) evaluation helps identify any areas where you may need additional support to help you achieve your goals.
