BSBSS00091 Capture and Present Big Data Skill Set

DESCRIPTION

This skill set addresses the skills and knowledge to capture, analyse, and present big data from one or more sources for a range of purposes in a broad range of workplaces and industries.

This skill set applies to those working in a broad range of industries who, as part of their job, are responsible for the operational use of big data.

ELIGIBILITY/ENTRY REQUIREMENTS

To gain entry into the BSBSS00091 Capture and Present Big Data Skill Set, the preferred entry requirements for candidates include:

- Relevant vocational experience.
- Basic computer skills
- Knowledge of common computing terms and word processing
- Proficiency with web browser software and sending/receiving e-mail including e-mail with an attachment
- Familiarity with navigating the Internet

To ensure you have the right skills and support to succeed in your course, a Language, Literacy, and Numeracy (LL&N) evaluation helps identify any areas where you may need additional support to help you achieve your goals.

Full Fee	$2,175.50

This course is supported by the NT Government for eligible domestic students who are NT residents.

*For Regional and Remote-only supported courses, the delivery location of the course needs to be listed on the NTG's Delivery allowance for VET-funded programs with regional or remote as the location category to be eligible. A limited number of NT government-supported places are available, so secure your place now.

Fees shown are indicative and subject to change annually. Actual course fees may vary depending on the units chosen. International non-student visa-holders; study eligibility needs to be verified before enrolment. Fees may vary depending on the visa type. The course fee rates will vary for commercial contract arrangements.

For further clarification and information on fees, fee exemptions, payment options, instalment plans, and refunds, contact CDU on 1800 061 963 or refer to TAFE Fees and Payments

ASSESSMENT

Assessments vary with each unit. You will be provided with an assessment guide.

RECOGNITION OF PRIOR LEARNING (RPL)

RPL is a process that determines whether the skills, knowledge and experience you have gained through your previous study, work or life experience can count towards a vocational training qualification at CDU. For more information, refer to VET RPL.

RESOURCES

All Learning and Assessment materials are available through Learnline, CDU's Learning Management System.

Students will need to meet technology requirements to do the Big Data units fully online and to use Learnline, Web Conferencing and O365 Teams, this includes:

- Operating System: Windows 7 or higher (recommended); MAC OS X 10.8 or higher (recommended)
- Internet access: High speed broadband connection (recommended)
- Current web browser version: Firefox, Chrome and Safari (recommended)
- Headset (or speakers and microphone) and webcam

STUDY AND CAREER PATHWAYS

Further training pathways from this qualification include but are not limited to Data Science Studies.

Possible occupations relevant to this qualification include:

- managing and storing big data
- capturing, preparing and testing big data
- big data analysis
- presentation techniques

PROGRAM CONTENT

This training program covers four (4) units of competency taken from the Business Services Training Package, which is recognised nationwide.

CORE UNITS

BSBXBD401	Capture and store big data
BSBXBD402	Test big data samples
