

ICT20120 Certificate II in Applied Digital Technology

DESCRIPTION

This pathways qualification provides the foundation skills and knowledge to use basic applied digital technologies in varied contexts.

The qualification is designed for those developing the necessary digital and technology skills in preparation for work.

These individuals carry out a range of basic procedural and operational tasks that require digital and technology skills. They perform a range of mainly routine tasks using limited practical skills and knowledge in a defined context. The qualification is suitable for someone generally performing under direct supervision.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

ELIGIBILITY/ENTRY REQUIREMENTS

There are no entry requirements into ICT20120 Certificate II Applied Digital Technologies in however the preferred pathways for candidates considering this qualification may include:

- Demonstrated vocational experience in a range of work environments using information technologies.

Students will participate in a pre-enrolment interview/quiz to determine if they have the required LLN and Digital Literacy skills to successfully engage in the qualification and that the course selection is suitable.

To ensure you have the right skills and support to succeed in your course, a Language, Literacy, Numeracy and Digital Literacy (LLND) evaluation helps identify any areas where you may need additional support to help you achieve your goals.
