

CDU Dean of Graduate Studies Workshop Series 2021

HDR Supervisor Workshops

These sessions are essential to supervisors who would like to improve their supervision practices--which should be every supervisor of course. During these sessions, research supervisors are granted opportunities to discuss with one another

- challenges they would like to solve--such as how to manage candidates who are not progressing
- impediments they would like to address, and
- ideas they would like to express about research supervision.

These sessions will be informal but facilitated, usually by the Dean of Graduate Studies.

Venue: Red 9.1.48 unless stated otherwise
