

# Hajrah Kamran

I love contributing my time, skills, knowledge, and experience to the wider NT community to make this beautiful state a better place for people to enjoy and feel valued. Currently, I am actively involved in many organisations both at CDU and in the local community including the Secretary to the NT Youth Round Table 2022, Allied Health Representative for CDU Association for Rural and Remote Health and a CDU Student Ambassador.

I am incredibly passionate about voicing issues affecting women and young people in contemporary times, especially surrounding mental health and domestic violence. I will work collectively with my team to bring positive and constructive change to our CDU community.
