

Mangala Hussein

My name is Mangala Useni, I am currently studying Master of Public Health at the Menzies School of Health Research official partner of CDU in my second year and second semester. I am a Medical Doctor with a background in Human Medicine trained in the French language back in the Democratic Republic of Congo.

Voting for me is taking the keys for the best relationship among students and enjoying solid bridge services between students and university stakeholders.

Together we will stop the anti-values and promote the culture of excellence with mutual support within our multicultural CDU students world.

Yes, we can.
