

Md Sadequr Rahman

First, I would like to acknowledge the traditional owners of this land and pay my respect to the past, present, and emerging. I am Md Sadequr Rahman and currently studying Master of Information Technology (Cybersecurity).

I have been working as a volunteer with various student associations and organizations. It will be my great privilege to work for CDU students to make sure their voices are heard at the highest level of authority to solve any concerns. Together, we can make CDU a much better place to gain knowledge and contribute it across the communities.
