

How to save a voicemail message (Cisco phone system)

Login to <https://voicemail.cdu.edu.au> and sign in with your user ID (e.g. jbloggs) and CDU password.

Click on a voice message you would like to save. The message changes to green and **message.wav**, **Forward**, **Mark Unread** and **Delete** buttons appear underneath the message.

To save a message, right-click on message.wav, modify the folder and filename as desired and click **Save**.
