

## Upcoming EWB Australia Humanitarian Design Summits

Engineers Without Borders Australia offers university students an immersive learning experience through a 28-day design summits where students are able to gain insight into best-practice community development and appreciate the role of engineering in creating positive social change.

The upcoming design summit opportunities are listed below:

### Cambodia

June/July 2025

*Engineering for equitable climate transitions.*

### Cambodia

January/February 2026

*Engineering for climate and communities.*

### Vanuatu

June/July 2026

*Engineering for disaster recovery resilience.*

Our Design Summits value diversity and believe that every perspective enhances the learning experience. We encourage students from all backgrounds and experiences to apply.

## Humanitarian Design Summit Application Process

Engineers Without Borders Australia offers university students an immersive learning experience through 28-day design summits where students are able to gain insight into best-practice community development and appreciate the critical role engineering plays in creating positive social change.

We appreciate the work that is done by Universities and Mobility officers as we work together to make students aware of this unique and exciting opportunity. The diagram below shows the process that takes place prior to departure. Exact application open dates will be provided prior to the Design Summit.

**1.**  
**Applications open - first round.**  
**February 10, 2025**

**2.**  
**Round 1 Applications close**  
**March 20, 2025.**

**3.**  
**Places offered.**  
Deposits payment secures place.

**4.**  
**Second Round offers.**  
Round 2 Applications close  
**April 10, 2025.**

**5.**  
**Places offered.**  
Deposits payment secures place.

**6.**  
**Pre-departure orientation and pre-learning**  
(May/June).

**7.**  
**Design Summit commences**  
22 June 2025.

EWB Design Summits offer universities the opportunity to apply for the New Colombo Plan Mobility Grant. The NCP aims to lift knowledge in Australia of the Indo-Pacific by supporting Australian university students to study and undertake internships in the region.
