"Receiving the scholarship had a profound impact on both my academic and personal life. It's allowed me to grow professionally and become an example of what women can achieve in male-

dominated industries. I'm incredibly grateful for the support and opportunities it has provided.

To current and prospective CDU students, I strongly encourage applying for scholarships. They're not just financial support—they're a vote of confidence in your potential. Don't underestimate the doors they can open."

"During COVID-19, it was a time of uncertainty, and I was really struggling with family, lockdowns, finances and the rising cost of living. CDU scholarships really helped support me during my first year of study and have continued to support me through to Graduation.

The CDU scholarships have allowed me to find some solid ground during difficult times throughout my studies and personal life. If the scholarships and support staff had not been there for me, I would have had to defer my studies.

I believe all current and future students should approach the staff at CDU for assistance if they are experiencing difficulties relating to their studies or personal life."
