

SFI20119 Certificate II in Aquaculture

DESCRIPTION

This qualification reflects the role of individuals who work as aquaculture attendants to support the care of aquatic stock in the aquaculture sector of the seafood industry. In this role, these individuals undertake a range of routine tasks such as handling, feeding and monitoring stock, and monitoring environmental conditions under the direction of a supervisor.

The environments in which these individuals work include:

- aquaculture farms
- aquarium wholesalers and retailers
- hatcheries and nurseries
- live post-harvest holding facilities.

All work is carried out to comply with workplace procedures, according to state/territory health and safety, food safety, biosecurity and environmental regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at this time of publication.

ELIGIBILITY/ENTRY REQUIREMENTS

To ensure you have the skills and support needed to study this course, all applicants are required to complete a Language, Literacy, Numeracy and Digital Literacy (LLND) evaluation.

There are no entry requirements for this qualification required by the training package, however CDU requires students to be fit, active and able to function effectively in a tropical environment, as this is a physically demanding course, and students must have a work contract with an approved employer to undertake a traineeship.
