THE CONSEQUENCE:

The breach was dealt with by the Unit Coordinator. As there were no previous breaches it was determined the breach resulted from the student's inexperience. The Unit Coordinator provided comprehensive feedback to the student and the student was allowed to resubmit the assessment for a maximum of a pass grade.

This really affects my overall grade for the unit! I can only get a pass grade for this assignment. This is taking much longer to do than if I'd just done it myself in the first place.
