PERFORMANCE MANAGEMENT

A 1 day course developed by the Australian Institute of Management and facilitated by Charles Darwin University.

This short course explores the end-to-end processes associated with the performance management cycle. From the setting of goals and allocation of work through to performance reviews and recognition, you will learn the skills you need to drive a performance culture and proactively address issues of diminished performance.

THIS COURSE IS RIGHT FOR YOU:

If you're a team leader or manager responsible for the performance of individuals or teams.

YOUR EMPLOYER WILL BENEFIT BECAUSE:

You will have the skills and confidence to set performance standards and lead others to achieve them.

LEARNING OUTCOMES:

- Develop KPIs that align to the organisation's goals
- Build and support commitment within the team
- Provide meaningful feedback and ensure performance meets KPIs
- Recognise and address performance-related issues
