PROJECT MANAGEMENT FUNDAMENTALS

A 2 day course developed by the Australian Institute of Management and facilitated by Charles Darwin University.

All of us need to manage various sized projects at some level in our work and day to day life, but without a clear structure or systematic approach the resulting outcomes can be way off from what you intended.

This course provides the comprehensive foundations you need to effectively initiate and manage workplace projects. Covering the end-to-end project lifecycle, this course gives you practical insight into the critical knowledge areas of the Project Management Body of Knowledge (PMBOK®)

THIS COURSE IS RIGHT FOR YOU:

If you are a new or aspiring project manager or you work in a project based organisation.

YOUR EMPLOYER WILL BENEFIT BECAUSE:

You'll have the knowledge, tools and techniques to effectively manage projects.

LEARNING OUTCOMES:

- Develop project management plans
- Define project scope and boundaries
- Implement project schedules
- Manage budgets, quality and risk
- Manage stakeholders and communication plans
- Finalise and report on projects
