FINANCE FOR NON-FINANCE MANAGERS

A 2 day course developed by the Australian Institute of Management and facilitated by Charles Darwin University.

The Finance for Non-Finance Managers short course provides a practical guide to analysing financial data and understanding the implications of financial performance. It introduces all aspects of financial management from planning through to budget review and reporting on financial outcomes.

THIS COURSE IS RIGHT FOR YOU:

You're a manager with responsibility for planning, managing and reporting on budgets and financial indicators, or you wish to deepen your knowledge of business finance.

YOUR EMPLOYER WILL BENEFIT BECAUSE:

You will be able to interpret financial data in a number of contexts and understand the impact of financial practices on the broader organisation.

LEARNING OUTCOMES:

- Analyse financial statements to understand performance
- Implement cash management practices
- Understand capital investment decision making
- Plan, develop, implement and control budgets
