MANAGE INNOVATION AND CONTINUOUS IMPROVEMENT

A 1 day course developed by the Australian Institute of Management and facilitated by Charles Darwin University.

This course provides you with the skills, knowledge and insight to effectively take the lead in using innovation to realise business outcomes. Combining the freedom of creativity with the discipline of due process, you'll discover the business benefits of promoting innovation and continuous improvement.

THIS COURSE IS RIGHT FOR YOU:
If you are a manager or business leader looking to promote an environment of innovation and change.

YOUR EMPLOYER WILL BENEFIT BECAUSE:
You'll be motivated to identify, validate and implement innovations that drive business improvement.

LEARNING OUTCOMES:
- Develop innovative thinking and work practices
- Analyse business issues and industry trends to identify opportunities for improvement
- Implement processes to enable innovation
- Evaluate ideas and manage risk
- Promote a culture of continuous improvement
