

FAQs - Manual Handling and Basic Life Support (BLS)/CPR Training

Manual Handling is a new mandatory preclinical requirement for all clinical placements commencing in the 2nd Semester 2016 onwards.

1. Where can I access the Manual Handling (MH) Training?

Students have three options:

- **With CDU via IntelliLearn** - CDU Nursing and Midwifery students can obtain their manual handling (MH) and Basic Life Support (BLS)/CPR practical training when attending their simulation blocks (sim blocks). The theory component of these courses is provided online and must be completed prior to attending the practical session.

The practical training session will be conducted at the sim block.

- **Through an external Training Provider** – Students can obtain the theory and practical training through an accredited external training provider.
- **At Work**- Work place based theory and practical assessments/certificates are accepted to meet the requirement.

2. How long is the certificate/training valid for?

The training is a mandatory annual requirement and the certificate is valid for 12 months from the date of issue.

3. How much does the course cost?

The Manual handling training provided by CDU via Intellilearn costs \$70 for the practical training session. The theory components are provided free of charge.

BLS/CPR is an additional (bonus) training that IntelliLearn provides free of charge when students booked into do manual handling training with their sim block.

4. I have already completed the CPR training externally. Can I get a discount on the course fee?

The IntelliLearn Manual Handling and Basic Life Support (CPR) training course is a combined package and costs \$70 for the practical session. This course fee is heavily subsidised for all university students therefore there is no discount if you require only one component of the course.

5. How can I book into a course through CDU?

Manual Handling and BLS/CPR training consists of theory and practical components.

The Intellilearn theory component can only be accessed through the clinical units in which you are enrolled; there is no cost for this theory component.

Please access the theory courses via the Intellilearn link:

<http://ilearn.e3learning.com.au/>

The theory components must be completed before the practical session. Please print out the certificates as evidence of completion which need to be presented at the sim block.

Once a student is allocated to a simulation block, they are then able to book the practical training session that aligns to their sim block **date** and **location** (Darwin, Melbourne and Alice Springs).

This practical session costs \$70 and can be booked via www.studentsafe.com.au

Please bring your receipt **and** the theory certificates along to your sim block.

E.g.: if you are allocated to NUR 244 sim block starting from 22nd to 26th Aug 2016 in Darwin, you need to select the training session that aligns within the sim block week in Darwin (highlighted in the table below).

6. How to submit MH and BLS certificates to CDU?

If the training course is provided by CDU at your sim block:

Intellilearn will provide a formal certificate to the student provided the student has completed the online theory course **and** submitted the receipt as proof of purchase.

A copy of this certificate will also be forward to the Preclinical Coordinator.

If the training is done through an external training organisation or at work:

Students must send a copy of the certificate (covering both the theory and practical session) as a PDF file via email to the Preclinical Coordinator (preclinical@cdu.edu.au)

Or in person to: Room number Blue 5.1.50

Or by post to:

Charles Darwin University

EHSE Preclinical Coordinator

EHSE Faculty, Blue 5

Darwin, NT 0909
