Charles Darwin University acknowledges and pays respect to the Elders both past and present of all Indigenous groups upon whose lands CDU campuses and centres are located.

All information contained in this guide is correct at the time of print, but is subject to change as information is reviewed and updated throughout the year. When considering a course, we recommend checking the CDU website for the most up-to-date information.
“I was able to study full-time and part-time and swap it around as needed to suit my family life. The courses are delivered online through Learnline. I’d log on and everything was there. I could listen to lectures live and ask questions throughout the lecture.

There’s even a chatbox to chat to other students. Even now that I’ve finished my course, I’ve got friends all over Australia and I know they’re just a phone call away.”

– Talea, CDU student
Study your way

Student life at CDU can be whatever you want it to be. Whether you are looking for flexible study so you can juggle work and family commitments, or you want to get involved, join clubs and leave a lasting impact on campus, there is something for everyone at CDU. And you can feel confident knowing that whatever your journey may be, you’ll be fully supported along the way.

Your online classroom

Our online learning options offer the flexibility of studying when it suits you through our supportive and informative virtual classrooms.

Learnline is CDU’s online learning environment. Whether you’re studying online, on campus, or both, you’ll find your unit information in Learnline.

Not only will you have access to all your course units online, you’ll be able to interact with your lecturers and fellow classmates through your online classroom. This is a great place to ask questions, share resources and brainstorm. And if you get stuck, there is a 24/7 support desk for Learnline.

24/7 online tutoring

As a CDU student you can connect to 24/7 online tutoring. You can access tutoring through your unit’s menu in Learnline. That’s right, your very own tutoring service, free of charge and available throughout the night for those late night study sessions.

Additional learning resources

Library – We have professional library staff located at Alice Springs, Casuarina, Palmerston, Sydney and the Darwin Waterfront campuses. Studying online? Live far from a CDU campus? Don’t worry! The majority of resources and services are available online, and the Distance Library Service will also send you resources.

Academic Language and Learning Success Program (ALLSP) – This is a free, confidential service designed to help you succeed in your units. The team will help you understand the requirements of your assignments and improve your study skills. You can access ALLSP via drop-in sessions, personal appointments, online tutoring or workshops.

Peer Assisted Study Sessions (PASS) – These are organised group study sessions run by students who have successfully completed the unit. By attending PASS, you’ll develop study skills, assessment techniques and exam preparation specific to your units. PASS is delivered online and on campus.

Services and facilities

Today CDU has more than 24,000 students spread across 10 campuses and centres in the Northern Territory, Sydney and online. Campus facilities are available not only to those studying on campus, online students who live nearby or just visiting can use our services and facilities. Some of these include:

→ cafes and dining options
→ student lounges
→ student advocacy
→ childcare
→ IT kiosk
→ a range of accommodation options
→ sports facilities such as tennis courts and covered basketball courts
→ gardens and green open spaces
→ a well-equipped library with computers and plenty of books and DVDs for hire
→ CDU bookshop for your all of your textbook needs.
Support

University can be challenging. Sometimes it’s academically challenging, while other times, challenges in your personal life need to take centre stage. No matter your circumstances, there’s support available. Student Central is your one-stop spot for support and guidance. Here, you can seek advice and assistance on admissions, timetabling, how to enrol, exams, course fees and payments, study plans and scholarships. Other support services at CDU include:

- counselling
- disability services
- Indigenous student services
- careers and employment services
- academic support programs, workshops, tutorials, and one-on-one consultations.

Accommodation

On campus

- International House Darwin – Located on the Casuarina campus. All CDU Higher Education and VET students are welcome. International House is set within tropical gardens and is a relaxed and vibrant community with students from over 40 countries calling it home.
- Alice Springs Student Accommodation
- Katherine Student Accommodation.

Off campus

- UniLodge – Modern accommodation located just 800 metres from CDU’s Casuarina campus
- Equity Services can help you find off campus accommodation options.

Travel

Explore the world while completing your degree for a truly life-changing experience. CDU’s vast range of short and long-term international study experiences run across North America, Europe and Asia with over 40 partner universities. Generous funding is available to both online and on campus students who are eligible to participate.

“I wanted to build my self-confidence, to step outside of my comfort zone and push myself to do something exciting and new! I am so glad that I did because living and studying in Worcester has been one of the best decisions I have ever made.”

– Tara Hamon, CDU exchange student at the University of Worcester, UK

– Tara Hamon, CDU exchange student at the University of Worcester, UK
Flexible entry pathways

We understand that the pathway into uni isn’t always straightforward, and we’re here to help you navigate the road to study. That’s why we offer flexible entry options into our undergraduate degrees, including:

- An Australian Tertiary Entrance Rank (ATAR) of 60 or higher.
- A Vocational Education and Training (VET) or TAFE award of certificate IV or higher.
- A Special Tertiary Admissions Test (STAT) score of 135.
- Successful completion of at least one semester of full-time study of a uni degree or diploma.
- Successful completion of a CDU enabling program or other recognised tertiary preparation course.
- Experience based entry.

We also recognise experience in the school of life. So if you don’t have any of the above, but do have plenty of experience working in a relevant industry, you can submit a personal competencies or employment experience statement which may enable you to meet the entry requirements of your degree.

**Note:** Some courses may have higher admission entry requirements. To find out more visit CDU’s website.

Already studied with CDU?

Apply through MyNextCourse

If you’ve previously completed a Vocational Education and Training (VET) certificate IV or higher, Tertiary Enabling Program or undergraduate degree with CDU, you can apply for a place in a CDU undergraduate course via MyNextCourse.

Applying directly to CDU through MyNextCourse (rather than SATAC or UAC) means you can skip steps 2 and 3 of the application process, avoid the SATAC or UAC application fee, and receive your offer sooner.

If this sounds like you, go to MyNextCourse on the CDU website.
How to apply

There are two methods of applying – either as a direct applicant using MyNextCourse or via one of the Tertiary Admission Centres: SATAC (all states except NSW) or UAC (NSW applicants).

Apply through SATAC or UAC

1. **Explore SATAC/UAC course search**
   All the information in regards to entry requirements, selection processes and dates are available through the SATAC and UAC website.

2. **Register with SATAC or UAC**
   The next step to get your application underway is to register as an applicant.
   Once you have registered as an applicant:
   - SATAC – Will send you an acknowledgement email with a link to access your online application.
   - UAC – Will send you an acknowledgement email with your application number and UAC pin.

3. **Complete your application**
   Commence your application, remembering to save your progress after each section.
   Although SATAC and UAC can access most of your Australian study records, it is most helpful to upload your relevant registration, VET and overseas qualifications at the time of application. SATAC/UAC may still contact you for further information.

4. **Accept and enrol**
   If your application is successful, you’ll receive your offer via email from either SATAC or UAC. CDU will email you shortly after with important enrolment and orientation information. If your offer is for a quota course, you will need to enrol by the date specified in the offer or your offer will lapse.

Changes to study due to COVID-19

All campus classes have transitioned to online delivery. The great news is, we are leaders in online delivery – having delivered flexible and online degrees for more than 15 years! We will continue to assess the situation and keep you updated.

Leader in research
Application FAQs

**Q** What is the difference between applying and enrolling?
Applying is the first step you need to take to gain a place in a Higher Education course. Once you have received an offer for admission into a course, you will receive information on enrolling in your course and units.

**Q** When do I need to apply?
The application closing dates change from year to year, depending on the start date of each semester. Generally you can apply right up to the week before classes start, but don’t leave it to the last minute! You should apply at least by the SATAC or UAC cut-off dates to give yourself the best chance and to allow time for your application to be processed and for you to enrol in your classes.

**Q** Do I have to pay an application fee when I apply for a course?
If you are applying to study with CDU through SATAC or UAC you will be required to pay an application fee.

**Q** Who can apply for a scholarship?
Scholarships are not only for high achievers. Anyone who is studying at CDU can apply for a scholarship as long as you meet the scholarship’s eligibility criteria.

**Q** How do I apply for credit transfer?
Applying for credit towards a CDU course can only be requested once you have applied for a course and accepted an offer to study with us. Once you accept an offer, complete the application for Credit Transfer and supply the required documentation.
Choosing a course

This guide details the undergraduate and postgraduate courses on offer at CDU in 2020–21.

Courses are offered in the study areas of:

→ Aboriginal and Australian Studies
→ Business and Economics
→ Computing and Information Technology
→ Education and Teaching
→ Engineering
→ Environmental Studies
→ Humanities and Social Sciences
→ Law and Legal Studies
→ Medicine and Health
→ Science and Mathematics
→ Tertiary Enabling Programs.

Each course is a unique mix of components and varies not only in terms of subject units, but also how it is taught. CDU offers online and on campus study options, which gives you a great deal of choice as to how, when and where you study.

What should I study?

There are many factors to consider when you are deciding what to study. Think about what you like to do. What you enjoy you tend to be good at, and students who enjoy their subjects tend to do well at university. Take time to browse this brochure, and consider all the options.

Course key

The course key on each subject will help you understand the course components.

DURATION – 1.5 years full-time, 3 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Public Health (MPH) will equip you with the tools to investigate, critique and respond to real world population health problems in local and global contexts. Unique features of the course include learning from acclaimed Menzies School of Health Research professionals in the specialist areas of Indigenous health, global health, public health practice and health research.
Tertiary Enabling Program

COURSE CODE – ZTEP01
Alice Springs, Casuarina, Online, Sydney
DURATION – 6 months full-time, 1 year part-time
DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE
The Tertiary Enabling Program (TEP) is a free program that helps build your academic skills, knowledge and confidence for studying at university.

During the program, you will develop the skills and strategies for managing university life and study.

You will study key areas such as:
- computing for tertiary study
- academic language and learning
- foundation maths
- bioscience
- historical and contemporary issues.

TEP is for you if:
- it has been a while since you last studied and feel like you now need to refresh your skills
- did not achieve an adequate Australian Tertiary Admission Rank (ATAR) or equivalent
- have not completed other eligible qualifications that meet the minimum entry requirements for most CDU undergraduate courses.

TEP is free for Australian and New Zealand citizens, permanent residents and Humanitarian Visa holders. You can study on-campus or externally with summer semester study options available.

ENTRY REQUIREMENTS
To be eligible for the Tertiary Enabling Program (TEP):
- you must be 18 or over by the census date of the relevant semester.
- you must be an Australian or New Zealand citizen (residing in Australia), permanent resident or Humanitarian Visa holder.
- you must successfully complete an online writing task that will be used to determine your eligibility for entry into the program.

HOW TO APPLY
You need to apply directly through CDU. For more information, contact us by phone, email, or explore our website:
- T: 1800 061 963
- E: student.central@cdu.edu.au
- W: cdu.edu.au/tep

Enabling courses
Preparation for Tertiary Success 1
COURSE CODE – ZPTS11
Casuarina, DPC Alice Springs
DURATION – 1 year full-time, 2 years part-time
DOMESTIC INTAKE – Semester 1, Semester 2

Preparation for Tertiary Success 2
COURSE CODE – ZPTS21
Casuarina, DPC Alice Springs
DURATION – 6 months full-time, 1 year part-time
DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE
Preparation for Tertiary Success (PTS) is a tertiary enabling course providing Aboriginal and Torres Strait Islander students with a culturally supported pathway to university readiness.

The course integrates Indigenous and Western knowledges and the development of life-long learning skills such as: coping with change, making meaningful links, asking critical questions, expressing creativity, strengthening learning relationships, building resilience and developing strategic learning awareness.

This program introduces you to the culture of higher education and builds the academic skills needed to achieve success in your studies.

This course is for you if:
- you are Aboriginal or Torres Strait Islander
- you have not completed year 12
- you have completed year 12 but did not receive the required ATAR score
- you have completed a Certificate III or IV course or can demonstrate sufficient skills and knowledge to undertake studies
- you have not studied for a long time and want to refresh your academic skills.

ENTRY REQUIREMENTS
To be eligible for the Preparation for Tertiary Success Program (PTS), you must be 18 or over by the census date of the relevant semester and of Aboriginal or Torres Strait Islander descent. You will need Year 10 or Year 11 standard. If you are a mature person without Year 10 or 11, you can apply on the basis of your skills and experience.

HOW TO APPLY
For further information about applying, contact us:
- T: 1800 677 095
- E: pts@batchelor.edu.au
- W: cdu.edu.au/indigenous-leadership/pts

Indigenous Pre-law Program

| COURSE CODE – ZIPLP1 |
| Casuarina |
| DURATION – 4-week intensive |
| DOMESTIC INTAKE – Summer Semester |

ABOUT THE COURSE

The Charles Darwin University (CDU) Asia Pacific College of Business and Law delivers an Indigenous Pre-law and Mentoring Program commencing in January-February each year. The program is made up of two components; a 4-week full-time intensive pre-law program delivered on-campus at the Asia Pacific College of Business and Law, and an ongoing individual and group mentoring component.

This course is for you if:
- you are Aboriginal or Torres Strait Islander
- you are considering pursuing a career in law
- you would like to be supported with mentorship through further law studies.

Successful completion of the program provides candidates with a pathway into the CDU Bachelor of Laws program, with the potential to commence law studies immediately after completion of the pre-law program.

ENTRY REQUIREMENTS

This course is only available for Aboriginal or Torres Strait Islanders who would like to pursue a career in law and be supported through peer-to-peer learning and mentoring.

HOW TO APPLY

To apply for the Indigenous Pre-law and Mentoring Program, please contact law@cdu.edu.au to receive a form to complete.

Diploma of Indigenous Research

**SATAC CODE** – 116241  
Casuarina, Online

**UAC CODE** – 591060  
Casuarina, Online

**DURATION** – 1 year full-time, 2 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

Want to base your research on Australian Indigenous knowledge? Ready to make a positive change for both Indigenous and non-Indigenous Australians through collaborative research?

The Diploma of Indigenous Research is an opportunity for you to build on the profound depth of research knowledge that already exists with the traditions of Indigenous people within Australia. Indigenous people have extensive experience in research, both as participants and leaders of research initiated within and by universities and other agencies, but also as leaders of research work based within the knowledge foundations of their own cultural and philosophical traditions.

This course focuses on promoting knowledge and cultural tradition research in Indigenous groups and its positive contributions to both Indigenous and non-Indigenous society.

It also aims to open the knowledge-making spaces between the western academy and Indigenous knowledge academies to explore new and generative research methodologies that can emerge from genuine and equal collaboration.

This course targets Indigenous students, however, non-Indigenous students with suitable experience may apply.

CAREER OPPORTUNITIES

You will graduate with the knowledge and skills that are useful for research within Aboriginal and Torres Strait Islander contexts, organisations and communities, government departments and agencies or private agencies and organisations that are involved in Indigenous research.
ABOUT THE COURSE

The Bachelor of Accounting/Diploma of Laws is a unique course that prepares you to qualify as an accountant and teaches you about the legal issues affecting accounting practices. The course is an opportunity to gain two qualifications in three years (if you study full-time) and expand your career prospects as a more sought-after accountant in the corporate world.

The Bachelor of Accounting will give you the employment and professional skills you need in a rapidly changing business environment. You will learn about financial accounting, management accounting, auditing, taxation, business law, corporate law, and finance. The course also develops your communication, presentation and problem-solving skills.

The Diploma of Laws is designed to give you an understanding of the law, without committing to a full law degree. You will gain a broad understanding of how the legal system and legal processes impact corporate accounting. During the course, you will choose from a range of specialist units in law, so you can tailor your studies to suit your accounting interests and career goals. On completing the diploma, you can apply to study a Bachelor of Laws and transfer credits for the units you have completed, so you can finish your degree faster.

PROFESSIONAL RECOGNITION

On graduating, you will be eligible to apply for membership of CPA Australia, The Chartered Accountants Australia and New Zealand (CAANZ), and The Chartered Institute of Management Accountants in the U.K.

CAREER OPPORTUNITIES

Completing a Bachelor of Accounting/Diploma of Laws dual qualification can lead to a wide range of career opportunities in small, medium and large organisations. An accountant with knowledge of the law is better equipped to handle legal issues relating to money. As a dual qualification graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, business financial analyst, or work in a large multinational company or a Big Four accounting firm. Or, you could run your own businesses, work in a small local accounting firm, or work in other areas of business management. There can be other career opportunities due to the combination of knowledge of accounting and law putting you in a unique advantage which a single qualification otherwise cannot offer.

**DURATION** – 3 years full-time, 6 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**

The Bachelor of Business provides a flexible qualification where students can develop their knowledge, skills and understanding of business and commerce through global and local contexts. Students are supported to be innovative thinkers and able to meet the challenges of a changing business world.

This student-centred course provides students with the career and professional skills needed in a variety of business fields. Communication, presentation and problem-solving skills are emphasised throughout the course. Students are supported to develop fundamental business knowledge and understanding, with the opportunity to specialise in particular areas of interest.

Students choose to take one of the following single or double majors:

> Strategic Marketing and Communication
> International Management and Logistics
> Entrepreneurship and Innovation
> Strategic Marketing and Communication, International Management and Logistics
> Entrepreneurship and Innovation, Strategic Marketing and Communication
> International Management and Logistics, Entrepreneurship and Innovation.

In addition to the above, the below majors are available to students who enter via specified VET pathways.

> Tourism and Destination Management
> Human Resource Management
> Project Management
> Work Health and Safety.

The course is fully flexible, with full or part-time study options. It can be studied online from anywhere or face-to-face internally. The course is suitable for a broad range of students who are seeking a successful career in business.

This course meets the needs of industry and the community. Students have a wide choice of units based upon their personal and career interests.

**Note:** This course is currently under review. Please check the CDU website for availability and updated course information.

**CAREER OPPORTUNITIES**

The Australian Government predicts strong industry demand for business degree graduates from a wide range of sectors. As a Bachelor of Business graduate, you will be qualified to pursue a range of exciting domestic and international career opportunities, which include business planning and management, brand management, marketing, market research, business analysis, e-commerce, human resource management, and many others.
ABOUT THE COURSE

The Bachelor of Digital Enterprise is a flexible, cutting-edge degree that combines management, marketing and information technology. It will give you a powerful, modern skillset in today’s competitive, global business environment. During the course, you’ll combine practical and theory-based learning to develop knowledge and skills in:

> global management and marketing
> social and mobile aspects of business
> digital product innovation and development
> data and business analytics.

This focused combination of skills will equip you to strategically design and manage successful businesses, and give you a unique professional advantage. You’ll have the flexibility to tailor your studies to suit your goals. In addition to studying an important set of core subjects, you’ll choose from a wide range of elective subjects in business and IT.

PROFESSIONAL RECOGNITION

The Bachelor of Digital Enterprise will be accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

As a Bachelor of Digital Enterprise graduate, you will have the knowledge to pursue a career in digital enterprise, with specialised skills in innovation and the management of digital businesses. Career opportunities also exist within web design, programming, entrepreneurship, and ICT analytics.

ABOUT THE COURSE

The Diploma of Digital Enterprise is a flexible, one-year qualification that builds critical skills and knowledge in the business and information technology spheres. It equips you with a unique and powerful combination of skills, giving you a professional advantage in today’s competitive business world. During the course, you’ll complete core units and choose from IT and business subjects to develop your knowledge in:

> global management and marketing
> social and mobile aspects of business
> digital product innovation and development
> data and business information systems.

On completing this course, you will be eligible to transfer into the Bachelor of Digital Enterprise, or you may choose to specialise and move into the Bachelor of Business or Bachelor of Information Technology.

CAREER OPPORTUNITIES

As a Diploma of Digital Enterprise graduate, you will have the foundation to pursue further study, and the knowledge to take up an entry level career in digital enterprise, with specialised skills in software and business concepts.
Bachelor of Computer Science/Master of Information Technology

| SATAC CODE | 104492
| UAC CODE | 590260
| DURATION | 3 years full-time, 6 years part-time
| DOMESTIC INTAKE | Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Computer Science/Master of Information Technology focuses on developing your skills and knowledge in a specialised area of your choice in information technology.

As a computer science specialist, your role will be to continue to not only improve technologies vital to the modern world but also educate your community about their importance.

You will develop skills and knowledge in the principles and applications of computer science as well as strengthen your problem solving, decision making and communication skills making you a confident and competent candidate for your dream job.

During your master’s studies, you will focus on three information technology specialisations: software engineering, cyber security, information systems and data science, so you can follow your interests in related fields.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

This course is designed to meet the accreditation requirements of the Australian Computer Society (ACS) at Professional Level. This course is also designed to meet the European Quality Assurance Network for Informatics Education (EQANIE) accreditation requirements at master’s level.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as a computer scientist in government, private companies and non-government organisations (NGO) as a web designer and developer, games developer, networking and application developer, analyst, consultant, UX specialist, programmer, SEO specialist, database administrator and business analyst.

Bachelor of Computer Science

| SATAC CODE | 104491
| UAC CODE | 590130
| DURATION | 5 years full-time, 10 years part-time
| DOMESTIC INTAKE | Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Computer Science will prepare you to be part of a continually evolving and diverse field, developing new applications and systems to improve the modern world.

You will develop skills and knowledge in the technical principles and applications of computer science as well as strengthen your problem solving, decision making and communication skills making you a confident and competent candidate for a role in the IT industry.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

The Bachelor of Computer Science is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as a computer scientist in the government, private companies and non-government organisations in areas such as web design and development, games developer, networking and application development, analyst, consultant, UX specialist, programmer, SEO specialist, database administrator, or business analyst.
Bachelor of Information Technology

ABOUT THE COURSE
The Bachelor of Information Technology will prepare you to be responsible for more than just systems or software; you will be developing creative and innovative technologies for the modern world.

Throughout your studies, you will develop knowledge and skills in areas such as web design and development, networking, application development and systems.

You will also be encouraged to be an open-minded problem solver, a creative thinker as well as an engaging communicator, which will help progress your career in the IT industry.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Cisco and Microsoft certificates.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION
Graduates are eligible for membership of the Australian Computer Society (ACS) at Professional Level.

CAREER OPPORTUNITIES
Graduating from this course may lead to career opportunities as an information technology specialist in government, private companies and non-government organisations (NGO) as a web designer and developer, networking and application developer, system analyst, consultant, programmer, SEO specialist, database administrator and project manager.

Bachelor of Software Engineering Honours

ABOUT THE COURSE
The Bachelor of Software Engineering Honours will allow you to develop your understanding of the underlying principles and applications of software engineering. Additionally, you will gain professional knowledge and skills that will allow you to stand out from the crowd in the digital world.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Cisco and Microsoft certification.

PROFESSIONAL RECOGNITION
The Bachelor of Software Engineering Honours is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES
Your broad skill set prepares you to move into both small and large organisations, consultancy, startups, government and private companies.
**Associate Degree of Information and Communication Technology**

**SATAC CODE** – 115111
Casuarina, Online

**UAC CODE** – 592030
Casuarina, Online

**DURATION** – 2 years full-time, 4 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**

The Associate Degree of Information and Communication Technology (ICT) will prepare you to be part of a rapidly evolving field and continually develop new applications to enhance the world we live in.

You will develop your knowledge of the principles and applications in the ICT field and strengthen your personal skills in areas such as problem-solving, decision making, effective communication and teamwork.

This course was developed in consultation with and is supported by ICT industry leaders and directly aligns with industry requirements.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities as an information technology specialist in government, private companies and non-government organisations (NGO) as an analyst, technician, web designer, developer or system administrator.

---

**Associate Degree of Network Engineering**

**SATAC CODE** – 115121
Casuarina, Online

**UAC CODE** – 592050
Casuarina, Online

**DURATION** – 2 years full-time, 4 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**

The Associate Degree of Network Engineering will provide you with the skills, knowledge and confidence required to design, operate and maintain networks that play a crucial role in the infrastructure of industry and government organisations.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Cisco and Microsoft certification.

This course was designed in consultation with and is supported by network engineering industry leaders.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to various career opportunities including roles as a technician, helpdesk support and network and systems administrator.
Diploma of Network Engineering

SATAC CODE – 116121
Casuarina, Online

UAC CODE – 591080
Casuarina, Online

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Diploma of Network Engineering will prepare you for entry-level network engineering roles by providing the skills and knowledge required to design, operate and maintain networks that play a crucial role in the infrastructure of industry and government organisations.

Your coursework will cover key areas of network engineering, including data networks and their implementation. You will combine academic studies with practical experience allowing you to further develop your skill set and provide you with the opportunity to stand out from the crowd in a competitive industry.

You can also use this qualification to move into our other degree programs such as the Bachelor of Information Technology or Bachelor of Software Engineering Honours.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Microsoft certification.

CAREER OPPORTUNITIES

Graduating from this course may lead to entry-level roles in network systems, helpdesk support, information technology and telecommunications.
Bachelor of Education in Early Childhood Teaching (Birth-12 Years)

**SATA CODE – 104641**
Casuarina, Online

**UAC CODE – 590290**
Casuarina, Online

**DURATION – 4 years full-time, 8 years part-time**

**DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester**

**ABOUT THE COURSE**

The Bachelor of Education in Early Childhood Teaching is an innovative course that prepares you to become an early childhood teacher and/or a primary school teacher. This gives you flexible and versatile employment options.

During the course, you explore issues, concepts and practices which are common and specific to both early childhood education (including before school settings) and primary school education.

You’ll learn about:

- play and learning sciences
- language and literacy
- preparation for teaching
- health and physical education
- science in education
- technology and design for education
- curriculum and programming
- maths
- leadership and advocacy in early childhood contexts
- humanities, social science and the environment.

This unique teacher education course offers two career options for graduates. It is an initial-teacher education qualification that encompasses working with children from birth to age 12 in both early childhood settings and primary schools.

The course is designed to:

- develop professional knowledge and skills for teaching children from birth to 12 years
- prepare you for new and changing educational roles in early childhood and primary schools
- develop your skills as a reflective teacher
- explore the connection between theory and practice in early childhood and primary school education
- ensure continuing awareness of the environmental and cultural influences on teaching and learning in early childhood and primary schools
- better understand the needs of learners and communities with diverse linguistic and cultural orientations, including Indigenous learners.

**PROFESSIONAL RECOGNITION**

This course has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

This program is approved with the Australian Children’s Education and Care Quality Authority (ACECQA). On graduating, you will be recognised as an Early Childhood Teacher by ACECQA.

On graduating from this course, you will be eligible to register as a teacher and teach in schools across all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria, such as National Literacy and Numeracy test for Initial Teacher Education as per Teacher Registration Requirement, English proficiency and suitability to teach).

**CAREER OPPORTUNITIES**

Graduating from this course prepares you to teach in a prior to school setting, primary school or work in associated educational areas such as:

- curriculum development
- educational planning
- educational research
- policy development.

**ESSENTIAL REQUIREMENTS**

**Criminal History Check**
You must have cleared a Police Check and/or Working with Children Check before you can undertake your practical placements. If your Police Check and/or Working with Children Check are not cleared by the education sector, you will not be able to undertake practice teaching placements and therefore, will not meet the requirements of the course.

**ADDITIONAL ADMISSION REQUIREMENTS**

Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.
Bachelor of Education Primary

SATAR CODE – 104501
Casuarina, Online
SATAR CODE – 144111
Batchelor (only available to Indigenous students)

UAC CODE – 590300
Casuarina, Online
UAC CODE – 590304
Batchelor (only available to Indigenous students)

DURATION – 4 years full-time, 8 years part-time
DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Education Primary prepares you to become a primary school teacher and teach Transition to Year 6/7. As a primary school teacher, you will be vital to a student’s learning process. You will guide and develop their skills through the various key learning systems of education during their early years at school.

In this course you will learn about:
> the school curriculum
> contemporary approaches to issues in education, such as inclusivity
> child and adolescent development
> promoting positive behaviour
> improving the teaching-learning relationship in the classroom
> raising awareness of issues surrounding Indigenous education
> Indigenous perspectives on teaching and Learning
> raising awareness of issues surrounding Indigenous education
> developing an informed, evidence-based approach to learning and teaching in primary settings

During this course, you will gain a combination of academic and practical experience.

When you graduate, your levels of personal literacy and numeracy will be broadly equivalent to the top 30% of the population.

You are encouraged to review the employer eligibility requirements as they can vary state to state.

PROFESSIONAL RECOGNITION

The Bachelor of Education Primary has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

CAREER OPPORTUNITIES

Graduating with a Bachelor of Education Primary prepares you to teach in primary schools. It also prepares you to work in associated educational areas, such as:
> curriculum development
> educational planning
> educational research
> policy development.

ESSENTIAL REQUIREMENTS

Criminal History Check
You must have cleared a Police Check and/or Working with Children Check before you can undertake your practical placements. If your Police Check and/or Working with Children Check are not cleared by the education sector, you will not be able to undertake practice teaching placements and therefore, will not meet the requirements of the course.

ADDITIONAL ADMISSION REQUIREMENTS

Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.
Bachelor of Education Secondary

SATAC CODE – 104511
Casuarina, Online

UAC CODE – 590310
Casuarina, Online

DURATION – 4 years full-time, 8 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Education Secondary prepares you to become a secondary school teacher, and teach year 7 to year 12. In this role, you will be responsible for educating and guiding students as they prepare for the real world. If you are a good communicator, love having fun with children and are passionate about sharing a love of learning, then this may be the career for you!

At CDU, you can study a Bachelor of Education Secondary online or on campus, part-time or full-time (for a majority of specialisations). This makes it easier to fit study into your existing commitments. When you graduate, you’ll be qualified to register as a teacher anywhere in Australia.

The course focuses on the skills and knowledge and you will need to teach in high schools, as outlined by the Australian National Curriculum. It meets both the national and local need for teachers committed to improving educational outcomes for children in year 7 to year 12.

You will learn about:
> the school curriculum
> contemporary approaches to issues in education, such as inclusivity
> child and adolescent development
> promoting positive behaviour
> improving the teaching-learning relationship in the classroom
> Indigenous perspectives
> raising awareness of issues surrounding Indigenous education
> developing an informed, evidence-based approach to learning and teaching in secondary school settings.

As a secondary teacher, you will specialise in teaching certain subjects. As part of your degree, you will choose two specialisations: a major and a minor. You can choose from a range of options, including:
> digital technology
> health and physical education
> humanities
> Indigenous knowledges
> languages
> mathematics
> music
> science
> visual arts

The course is a mixture of discipline-specific curriculum and pedagogical studies, general education studies and professional experience.

When you graduate, your levels of personal literacy and numeracy will be broadly equivalent to the top 30% of the Australian population.

Students are encouraged to review the employer eligibility requirements as they can vary state to state.

PROFESSIONAL RECOGNITION

This course has been accredited through the Teacher Registration Board of the Northern Territory consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

When you graduate, you’ll be eligible to register as a teacher in schools across all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria such as the National Literacy and Numeracy Test for Initial Teacher Registration Requirement, English proficiency and suitability to teach).

CAREER OPPORTUNITIES

Graduating with a Bachelor of Education Secondary prepares you to teach in high schools. It also prepares you to work in associated educational areas, such as:
> curriculum development
> educational planning
> educational research
> policy development.

ESSENTIAL REQUIREMENTS

Criminal History Check
You must have cleared a Police Check and/or Working with Children Check before you can undertake your practical placements. If your Police Check and/or Working with Children Check are not cleared by the education sector, you will not be able to undertake practice teaching placements and therefore, will not meet the requirements of the course.

ADDITIONAL ADMISSION REQUIREMENTS

Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.
Bachelor of Educational Studies

**ABOUT THE COURSE**

The Bachelor of Educational Studies offers a flexible three year undergraduate degree with a wide range of opportunities and choices available to graduates. It offers flexibility in education career options, such as vacation care, homework centres, tutoring in private colleges and home tutoring. It also gives those candidates with an interest in education the option of studying a broad range of Education subjects relating to education as a discipline (non-teaching).

**CAREER OPPORTUNITIES**

Graduating from this course offers flexibility in education career options, such as vacation care, homework centres, tutoring in private colleges and home tutoring.

**ADMISSION REQUIREMENTS**

There is no direct entry into this course. This course is only available as an internal course transfer from the Bachelor of Education Primary or the Bachelor of Education Secondary. Students must complete a minimum of 40 credit points in the Bachelor of Education Primary or the Bachelor of Education Secondary to be eligible to apply for transfer.

---

Diploma of Educational Studies

**ABOUT THE COURSE**

The Diploma of Educational Studies is a versatile one year qualification that provides you with opportunities to undertake a range of roles in diverse educational settings. Depending on state and territory requirements these include: supporting teachers in school age education (education aide, teacher’s aide and assistant teacher) or working as an educator in out of school hours care services. Occupational titles may include:

> Aboriginal and/or Torres Strait Islander education officer/worker
> Homeland teaching assistant
> Aboriginal and/or Torres Strait Islander language and culture teaching assistant
> Inclusion supports facilitator
> Education assistant
> Support worker (children with disabilities)
> Education assistant (special needs)
> Teacher aide
> Education support worker
> Teacher assistant.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities in areas such as vacation care, homework centres, teaching assistant/teacher’s aide/education assistant.
ENGINEERING

Bachelor of Engineering Science/Master of Engineering

| SATAC CODE – Civil and Structural | 104451  |
| SATAC CODE – Electrical and Electronics | 104461  |
| SATAC CODE – Mechanical | 104471  |
| UAC CODE – Civil and Structural | 590140  |
| UAC CODE – Electrical and Electronics | 590150  |
| UAC CODE – Mechanical | 590160  |

ABOUT THE COURSE

The Bachelor of Engineering Science/Master of Engineering is an internationally accredited combined course that develops the necessary skills and knowledge in your chosen area of engineering at bachelor level before moving into more advanced master level study and finishing with a research thesis and design project. Areas of engineering include civil and structural, electrical and electronics, and mechanical.

As a professional civil and structural engineer, you will continuously challenge traditional construction methods with creativity and innovation to help design and manage structures for the modern world. Key areas include structures, water resources, roads and traffic, bridges and marine structures.

As a professional engineer in the electrical and electronics industry, you are responsible for the design, automation and control of the devices which make modern life convenient. Key areas include electronics, telecommunications, biomedical applications and power generation and distribution, including renewable energy.

As a professional mechanical engineer, you are involved in the design and build of large and small devices which improve transportation, provide affordable manufacturing and production solutions. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

Your bachelor studies will provide a sound base of fundamental engineering principles, followed by specific learning in the theory and practice of civil and structural, electrical and electronics or mechanical engineering.

Your master’s studies will expand your engineering specialist knowledge. Particular emphasis is placed on the themes of sustainability, creativity, teamwork, design, research and leadership.

This course was developed in consultation with and is supported by industry leaders. You graduate with a sound foundation of engineering knowledge which directly aligns with international industry requirements.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

ENGINEERS AUSTRALIA

The Bachelor of Engineering Science (Civil and Structural) of this combined course is accredited by Engineers Australia at the level of engineering technologist and therefore recognised internationally under the Sydney Accord.

The Bachelor of Engineering Science (Electrical and Electronics), and Bachelor of Engineering Science (Mechanical) of this combined course are provisionally accredited by Engineers Australia at the level of engineering technologist.

Note: Engineers Australia initially gives provisional accreditation for new engineering courses - full accreditation can only be obtained after the first students have graduated.

The Master of Engineering of this combined course is accredited by Engineers Australia at the level of professional engineer and therefore recognised internationally under the Washington Accord.

CAREER OPPORTUNITIES

Graduating from the civil and structural engineering major of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to professional opportunities in areas such as electronics, renewable energy, power generation and distribution, manufacturing, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, process control, mining, oil and gas, consultation, and project management.
ABOUT THE COURSE

The Bachelor of Engineering Honours will provide you with an advanced conceptual understanding of the science and its application to engineering, followed by an advanced specialist knowledge of the theory and practice of civil and structural, electrical and electronics or mechanical engineering.

The course will help you to develop skills for the planning and execution of engineering projects or research to advance the scientific basis of the discipline.

The course specifically offers you hands-on practical experience, which will assist you in your future career as a professional engineer. This course also focuses on essential engineering skills including innovation, creativity, research, management, teamwork and leadership.

This course was developed in consultation with and is supported by industry leaders. You graduate with the foundation of engineering knowledge which directly aligns with international industry requirements.

As a professional civil and structural engineer, you will be able to combine traditional and current construction methods with creativity and innovation including the design and management of structures for the modern world. Your studies will focus on developing sustainable and ethical civil and structural solutions in areas such as structural engineering, water and roads and traffic and its uses and principles of sustainability.

As a professional electrical and electronics engineer, you will be able to fulfil major roles in the design, automation and control of devices which make modern life convenient. You will be involved in electronics, telecommunications, biomedical applications and power generation, storage and distribution, including renewable energy. You will develop skills in communication methods, electronic control systems and power engineering, together with a background of sustainable engineering principles.

As a professional mechanical engineer, you will be able to have a major role in the design and construction of equipment for improved transport, and to provide affordable manufacturing and production solutions for the manufacturing industry. Key areas include biomechanical applications, aeroplanes, cars, pumps, pipelines and air conditioning systems.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

Graduates are eligible to apply for membership with Engineers Australia.

CAREER OPPORTUNITIES

Graduating from the civil and structural engineering major of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to professional opportunities in areas such as electronics, renewable energy, power generation and distribution, manufacturing, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, process control, mining, oil and gas, consultation, and project management.
Bachelor of Engineering Science

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ASSUMED KNOWLEDGE
Stage 2 Mathematical Methods or equivalent.

ABOUT THE COURSE

The Bachelor of Engineering Science will provide you with the necessary scientific knowledge that underpins your engineering discipline, followed by a specialist knowledge of the theory and practice of civil and structural, electrical and electronics, and mechanical engineering.

The course will help you to develop skills for the planning and execution of engineering projects.

The course specifically offers extensive hands-on practical experience, which will help you in your future career as an engineering technologist. Essential engineering skills including innovation, creativity, management and teamwork are also features of the course.

This course was developed in consultation with and is supported by industry leaders. You graduate with a sound foundation of engineering knowledge which directly aligns with international industry requirements.

You can combine this course with the two-year Master of Engineering as an accredited pathway towards becoming a professional engineer. This pathway is similar to engineering programs offered in Europe and is an alternative to the traditional four-year Bachelor of Engineering Honours course.

As a civil and structural engineering technologist, you will be able to work with other engineers and technologists on the design and maintenance of structures for the modern world. Key areas include water resources, roads and traffic, bridges and marine structures. Your studies will focus on developing sustainable and ethical civil and structural solutions in areas such as structural engineering, water and its uses and the principles of sustainability.

As an engineering technologist in the electrical and electronics industry, you will be able to work together with engineers and technologists on the design, automation and control of the devices which make modern life convenient. You are involved in electronics, telecommunications, biomedical applications and power generation and distribution, including renewable energy.

As a mechanical engineering technologist, you will be able to collaborate with other engineers and technologists in the design and build of large and small devices which improve transportation and provide affordable manufacturing and production solutions. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

ENGINEERS AUSTRALIA
The Bachelor of Engineering Science (Civil and Structural) is accredited by Engineers Australia at the level of engineering technologist and therefore recognised internationally under the Sydney Accord.

The Bachelor of Engineering Science (Electrical and Electronics), and Bachelor of Engineering Science (Mechanical) of this combined course are provisionally accredited by Engineers Australia at the level of engineering technologist. Note: Engineers Australia initially gives provisional accreditation for new engineering courses - full accreditation can only be obtained after the first students have graduated.

CAREER OPPORTUNITIES

Graduating from the civil and structural major of this course may lead to career opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to career opportunities in areas such as electronics, renewable energy, power generation and distribution, manufacturing, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, process control, mining, oil and gas, consultation, and project management.
About the Course

The Associate Degree of Engineering will provide a sound basis of fundamental engineering concepts, followed by the application of chemical, civil and structural, electrical and electronics or mechanical engineering theory and practice.

The course will help you to develop skills for solving common engineering problems as well as prepare you for further study of more advanced engineering concepts in the Bachelor of Engineering Science and Bachelor of Engineering Honours.

As a civil and structural engineering associate, you will contribute to the design, operation and maintenance of structures and systems for the modern world. Key areas include water resources, roads and traffic, bridges and marine structures.

As an electrical and electronics engineering associate, you will assist with the design, automation and control of devices which make modern life convenient. You are involved in electronics, telecommunications, biomedical applications and power generation, storage and distribution, including renewable energy.

As a mechanical engineering associate, you contribute to the design and construction of devices which improve transportation and provide more affordable manufacturing and production solutions. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

In addition to specific engineering knowledge, essential engineering skills including innovation, creativity and teamwork are developed.

This course was developed in consultation with and is supported by industry leaders. It provides a sound foundation of engineering knowledge which can lead to further engineering study or to employment as an engineering associate.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

Career Opportunities

Graduating from the civil and structural specialisation of this course may lead to paraprofessional engineering opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic project management.

Graduating from the electrical and electronics specialisation of this course may lead to paraprofessional engineering career opportunities in areas such as electronics, renewable energy, power generation, storage and distribution, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical specialisation may lead to paraprofessional engineering career opportunities in areas such as design, manufacturing and fabrication, mining, oil and gas, consultation, and project management.
Diploma of Engineering

SATAC CODE – 116211
Casuarina, Online

UAC CODE – 591030
Casuarina, Online

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Diploma of Engineering is ideal if you are curious about studying engineering and would like to learn more, though are unsure about committing to a full undergraduate degree.

During your engineering studies, you will explore some of the general concepts, principles and practices of engineering, develop your technical skills and build upon your maths and science knowledge.

With the diploma, you qualify for entry-level engineering roles, or you can continue onto other engineering degree courses such as CDU’s Associate Degree in Engineering, Bachelor of Engineering Science or Bachelor of Engineering Honours.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Graduating from the Diploma of Engineering may lead to entry-level engineering roles.
**Bachelor of Environmental Science**

**SATAC CODE** – 104531  
Casuarina, Online

**UAC CODE** – 590450  
Casuarina, Online

**DURATION** – 3 years full-time, 6 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**

With the Bachelor of Environmental Science your academic studies will be combined with practical experience, allowing you to play an active role in the protection and conservation of the environment.

Foundation knowledge including biology, ecology and spatial analysis will be the base from which you learn to solve complex environmental problems. You will explore human-impact, social and cultural perspectives, identify solutions to environmental challenges, and learn how to effectively communicate information for positive environmental outcomes. Training in critical and systems thinking will empower you to tackle the environmental challenges of our time.

**CAREER OPPORTUNITIES**

Graduating from this course prepares you with the skills and knowledge to work within government, private companies or community organisations, in areas including environment and heritage, biodiversity conservation, land and water resource management, mine site rehabilitation, nature-based tourism, Aboriginal land management, wildlife and reserve management, land-care, teaching, consultancy or environmental research.

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Arts is a highly flexible, new-age degree featuring a choice of nine majors, each offering a unique perspective on the world around you and your role in it. You’ll learn how to improve your decision making, generate new ideas, and think critically and creatively.

At a time when some jobs are disappearing, others are evolving and new jobs are emerging, these are the transferable skills that will future proof your career.

CDU’s Bachelor of Arts develops both the breadth and depth of your knowledge. It gives you the freedom to focus on your area of interest, while also studying other subjects from a wide range of fields.

At CDU, you’ll benefit from a unique focus on Indigenous leadership and the issues and opportunities facing Northern Australia and South-East Asia.

You’ll also have the flexibility to study online, on campus or a mix of both, part-time or full-time. With 24/7 access to learning materials and online collaboration tools, you can study when it suits you.

Choose from nine majors:

Communications, Literature and Digital Media: Explore how the digital age is changing communication, interaction and the way information is shared. Learn about social media, media ethics, creative and professional writing, and multi-screen communication.

Society and Culture: Learn how philosophy, sociology and Indigenous perspectives influence the way we think about the world and make decisions. You’ll explore the social issues facing Northern Australia and Southeast Asia and the cultural drivers that impact change.

Global Humanities in a Digital Age: Examine the impact of today’s digital environment on politics, public policy and government decision making in Australia and South-East Asia, and understand how lessons learned from the past can inform the government decisions of the future.

Indigenous Governance and Policy: Develop the knowledge and skills to develop meaningful policy and implement change for Australia’s Indigenous peoples. You’ll learn about the sociological, economic, historical and cultural drivers that impact Australia’s Indigenous policy making and governance.

Contemporary Indigenous Australia: Gain the skills and knowledge to work with Indigenous cultures and communities in a culturally-competent way. This major focuses on developing your inter-cultural practice, with an emphasis on the role of Indigenous languages, cultural sites, land rights and resources, community engagement and advocacy.

Languages and Linguistics: Learn a new language and examine the role of language and linguistics in our communities - Chinese, Greek, Indonesian or one of three Indigenous languages (Yolngu, Arrernte or Bininj Kunwok). Explore how languages work, how they are preserved and revitalised. The major offers opportunities to advance your language skills with an in-country study program.

Creative and Digital Arts: Gain the skills, knowledge and portfolio to succeed in the creative and digital arts industries. Learn about creative theory and business practices and complete a range of creative projects using new and emerging design technologies.

Music Making, Production and Performance: Learn to make, produce and perform music using an instrument of your choice. You’ll complete a combination of theory-based and hands-on subjects using new and emerging technologies, and gain industry experience through community-based projects.

Architectural Design: Explore the concepts and theories of architectural design, focusing on Australia’s north, the tropics and South-East Asia. Learn how to represent your ideas, understand space and the built form, and use industry-standard tools, technologies and architectural techniques.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in a wide range of fields. The knowledge and skills you acquire through this degree will prepare you for work in a range of government and statutory authorities such as land councils, museums, training and research organisations, diplomacy, policy advisor, communications, media, or consultancy particularly where these organisations engage with central and northern Australia and Asia. Study with a focus on creative endeavours will support your career as an artist, writer, designer or performer, particularly if you can combine your study with some work in entrepreneurship and business management.
Bachelor of Humanitarian Aid and Development

**SATAC CODE** – 104631
Casuarina, Online

**UAC CODE** – 590460
Casuarina, Online

**DURATION** – 3 years full-time, 6 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

The Bachelor of Humanitarian Aid and Development is an inter-disciplinary degree that will teach you to understand, critically analyse and apply concepts of community development, humanitarian practice and development aid.

During the course, you’ll explore concepts in a variety of fields including culture studies, sociology, ethics, Indigenous knowledge, community development, international humanitarian assistance and development, project management, and language studies. You’ll learn from academics and industry practitioners who have a professional focus on national and international community work, disaster relief and development.

Hands-on experience matters in the industry, which is why you’ll complete a two-week intensive unit at our Casuarina campus in Darwin. This will give you the knowledge and practical skills to work in humanitarian assistance.

In your final year, you’ll also complete a 400-hour placement with a community-based, humanitarian or development aid organisation in Australia or overseas. International placements are available with industry partners, including in the Asia Pacific.

With an unprecedented number of displaced people across the world seeking life-saving relief, there is a growing need for skilled and trained humanitarian and development aid workers. This degree will give you the knowledge and skills to provide support for those affected by man-made and natural disasters, poverty and social injustice.

**CAREER OPPORTUNITIES**

Graduates exit the program with a foundation in community work, human service delivery and international humanitarian practice.

Career opportunities include working for non-government organisations (NGOs) and government agencies in the field of community development and international humanitarian assistance and development aid.

The degree provides an excellent basis to pursue a higher degree in allied fields including emergency and disaster management, humanitarian and development aid as well as international relations.

**ESSENTIAL REQUIREMENTS**

You will require a National Police Clearance from the Australian Federal Police, a Working with Children Card (OCHRE Card or equivalent) and a first aid training certificate (in time to start your placements).

Bachelor of Psychological Science

**SATAC CODE** – 104361
Casuarina, Online

**UAC CODE** – 590410
Casuarina, Online

**DURATION** – 3 years full-time, 6 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**

In the Bachelor of Psychological Science, you will develop an integrated understanding of human behaviour including social-cultural perspective, motivations, health and psychopathology as well as the fundamental premise of psychology as an empirically based science.

Key study areas include:

> research methods
> abnormal psychology
> social-cultural psychology
> learning and motivation
> cognitive psychology
> the biological bases of behaviour
> introduction to forensic psychology counselling

The Bachelor of Psychological Science will also prepare you for the Honours program, as well as postgraduate professional coursework or supervised training in psychology.

**Note:** This course is currently under review. Please check the CDU website for availability and updated course information.

**PROFESSIONAL RECOGNITION**

This course is accredited by the Australian Psychology Accreditation Council (APAC) and prepares you for entry into an Honours year in psychology. During your studies, you can also join the Australian Psychological Society.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities in child and family services, child protection, community health and welfare, drug and alcohol, disability and rehabilitation services, health service management, research and evaluation, policy and planning, human resources management and marketing.
Bachelor of Social Work

ABOUT THE COURSE

As a social worker, you will work with people to achieve changes to improve their lives. You will guide and support the individual client, family, or community to meet their goals.

You will do this by providing support, counselling, case management, and/or community development. You will be an advocate for social change to create a more socially just society. You will walk beside those who are vulnerable, identifying their strengths and capacity for making change.

With the Bachelor Social Work, you will gain the knowledge and skills required to work with individuals, families, groups and communities. You will develop practical skills to work effectively and safely with those in crisis, vulnerable or impacted by poverty and social disadvantage.

Key areas of your coursework include multi-disciplinary practice, cross-cultural practice and working in virtual contexts and with practical skills based on the entry/application requirements of organisations.

PROFESSIONAL RECOGNITION

Graduates of the Bachelor of Social Work qualify for membership to the Australian Association of Social Workers (AASW).

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas including child protection, income support, community health, community development, counselling, youth work, mental health, hospital social work, education and corrections.

Diploma of Alcohol and Other Drugs

ABOUT THE COURSE

Whether you are looking to broaden your awareness or build on your professional skill set, the Diploma of Alcohol and Other Drugs will expand your knowledge in these areas.

You will be introduced to modern issues, research and interventions in the Australian alcohol and other drug fields, with particular reference to the Northern Territory.

You can choose to study this diploma either on campus at Casuarina (internally) or online (externally).

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

This course complements your current qualifications and may prepare you for advanced career opportunities within education, nursing, social work, indigenous studies, health sciences and related areas.
ABOUT THE COURSE

The Diploma of Arts program offers students a pathway into diverse specialist and interdisciplinary thematic areas including communications, text and digital media; society and culture; digital and global humanities; Indigenous governance and policy; contemporary Indigenous Australian languages and linguistics; digital and creative arts; music, production and performance; and architectural design. As a student, your journey through this program will also develop core communication, critical and creative thinking skills to prepare you to participate in a multi-disciplinary and global workforce.

The Diploma of Arts is ideal for anyone who wants a taste of studying arts and would like to gain a qualification but may not be ready to commit to a full bachelor’s degree.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in a wide range of fields. The knowledge and skills you acquire through this qualification will begin to prepare you for work in a range of government and statutory authorities such as land councils, museums, training and research organisations, as a policy advisor, or work in diplomacy, communications, media, or consultancy: particularly where these organisations engage with central and northern Australia and Asia. Study with a focus on creative endeavours will support your career as an artist, writer, designer or performer, particularly if you can combine your study with some work in entrepreneurship and business management.

CAREER OPPORTUNITIES

Do you seek a career that will make a positive impact on the health and well-being of those in your community? Or perhaps you are wanting to build on your knowledge in human services? The Diploma of Counselling may be the course you are looking for. During your course, you will explore key areas such as psychology, trauma assessment and intervention, alcohol and other drugs as well as build on your communication skills.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

This qualification will complement your existing professional career, or it may prepare you for career opportunities in counselling-related fields in government, private companies, non-government organisations (NGO) and community groups.
ABOUT THE COURSE

Want to study psychology without committing a full undergraduate degree? The Diploma of Psychology is what you are looking for.

Psychology explores human behaviour and how humans make sense of the world, process, organise and store information. It looks at multiple factors that influence human development, human motivation and emotion such as: how biology influences things like learning, memory and behaviour, and vice versa, common and unique aspects of personality, behavioural dysfunctions, social and cultural diversity.

This course introduces you to the foundations of psychology, explores mental health, and builds essential counselling and behaviour modification skills.

You can choose to study this diploma either on campus at Casuarina (internally) or online (externally).

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

This qualification will complement your existing professional career, or it may prepare you for career opportunities in various psychology-related fields in government, private companies, non-government organisations (NGO) and community groups.

ABOUT THE COURSE

The social care and community sector is a rapidly growing field offering a wide variety of employment options. Whether you are seeking a new career, or looking to build on your existing experience, this one-year course provides you with knowledge and skills for a range of community and human service roles. You will learn about working with individuals, groups and communities to help people access the care, support and services they need. You will also learn to locate and analyse key information to help you make practice decisions.

As a graduate you will have the skills for employment in community work, residential care, support services, youth work and aged care. This course provides a direct pathway into the Bachelor of Social Work degree at Charles Darwin University, with full credit for the first year of study.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as youth services and support, aged care services and support, child and family programs, disability support and advocacy, refugee and asylum seeker support and advocacy, community service, support and advocacy.
ABOUT THE COURSE

The Bachelor of Laws degree provides you with the academic foundation to become a lawyer or work in a range of industries that require legal expertise, including politics, policy, government, business and private legal practice.

At CDU, you can complete a Bachelor of Laws in just three years, with options to study your law degree 100% online, on campus or a mix of both. On graduating, you will be eligible to apply for admission to the legal practice anywhere in Australia.

The Bachelor of Laws teaches you about legal systems and principles in Australia and abroad. You’ll gain skills in legal research, analysis and communication, and learn theoretical perspectives on the law. The course also has a unique focus on transnational law (which looks at how laws are applied in more than one jurisdiction) and comparative law (which examines different legal systems from around the world), so you’ll gain insight into the legal issues facing today’s globalised economies and societies.

If you choose to study law online, you’ll have 24/7 access to CDU’s online learning platform, recorded lectures and tutorial assistance. You can study where, when and how it suits you.

As the Bachelor of Laws is a competitive course, you’re also encouraged to apply for the Associate Degree of Legal Studies or the Diploma of Laws. These programs are an alternative pathway to the Bachelor of Laws.

PROFESSIONAL RECOGNITION

The Bachelor of Laws is accredited by the Legal Practitioners Admission Board of the Northern Territory and provides the academic foundation for admission to legal practice in the Northern Territory and elsewhere in Australia.

To be admitted to legal practice in Australia, you must also complete the Graduate Diploma in Legal Practice (GDLP). This can be taken through the College of Law, Sydney, and completed online.

CAREER OPPORTUNITIES

A Bachelor of Laws degree prepares you for a wide range of jobs. You may choose to pursue a career as solicitor or barrister, or work in fields that benefit from legal expertise, such as politics, public service, industrial relations, community advocacy or commerce in general.
Diploma of Laws

**SATAC CODE** – 186001
Waterfront Darwin, Online

**UAC CODE** – 591071
Waterfront Darwin, Online

**DURATION** – 1 year full-time, 2 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**

The Diploma of Laws offers you a general understanding of the law, legal processes and legal principles, as well as an opportunity to gain the specialist knowledge you may need for work or other reasons.

This program is also suitable for internationally qualified lawyers who need to complete some Australian subjects to qualify for admission to legal practice in Australia and is a recognised pathway to the Bachelor of Laws at Charles Darwin University.

**CAREER OPPORTUNITIES**

Completing the Diploma of Laws may lead to roles in politics, industrial relations and community advocacy in government, private companies and non-government organisations (NGO).
Bachelor of Clinical Sciences

SATAC CODE – 104661
Casuarina

UAC CODE – 590270
Casuarina

DURATION – 3 years full-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Bachelor of Clinical Sciences course is a direct pathway for CDU students to study medicine, on campus in Darwin. This course is part of a double degree with the Northern Territory Medical Program (NTMP) offered by Flinders University. Australian citizen or permanent resident school leavers with year 12 qualifications, or higher education students who have studied for no more than one year are eligible for consideration for entry.

CAREER OPPORTUNITIES

Graduating from this course completes the first part of the Bachelor of Clinical Sciences/Doctor of Medicine (CDU/Flinders University) double degree and may lead to career opportunities in medicine or medical research.

ADMISSION REQUIREMENTS

You are eligible to apply for the Bachelor of Clinical Science if you:

> hold year 12 qualifications and have studied no more than one year of higher education; and

> have completed the University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ) held in July.

Priority is given to Indigenous and NT residents.

The UCAT comprises of four sections; verbal reasoning, decision making, quantitative reasoning and abstract reasoning. Each section of the UCAT will contribute equally to produce the UCAT ANZ derived score. Your UCAT derived score (10%) will be combined with your Australian Tertiary Admission Rank (ATAR) (90%) to determine your ranking for a place on this course.

In order to be competitive, you will need to achieve an Australian Tertiary Admission Rank (ATAR) of 90 or above, 85 for indigenous students (after the addition of any applicable ATAR related adjustment factors).

Only Australian citizens and Permanent residents are eligible to apply.

ADDITIONAL ADMISSION REQUIREMENTS

This course has a two-step application process:

1. Registration to sit the University Clinical Aptitude Test (UCAT). Registration to sit UCAT opens 2 March 2020 and closes 11 May 2020. The test will be held early in July 2020. Only UCAT scores from 2020 will be used.

2. An application to SATAC where you will be asked to enter your UCAT identification number and provide a residency and indigeneity statutory declaration.

A work placement is a requirement in the MD component of the course in the third year of the Bachelor of Clinical Science.

Health Advisory Information for Medical Students

Medical students have an important responsibility to protect their own health and the health of their patients by observing the requirements described in the Health Advisory Information for Medical Students.

ESSENTIAL REQUIREMENTS

Criminal History Check

Students entering this course will not be required to undergo National Police Checks. However, as it articulates with Flinders University MD, all medical students will be required to complete a National Police Check prior to undertaking any placement. This requirement will apply to students when they commence the MD component of the course in the third year of the BCSC.

Health Advisory Information for Medical Students

Medical students have an important responsibility to protect their own health and the health of their patients by observing the requirements described in the Health Advisory Information for Medical Students.

ESSENTIAL REQUIREMENTS

Criminal History Check

Students entering this course will not be required to undergo National Police Checks. However, as it articulates with Flinders University MD, all medical students will be required to complete a National Police Check prior to undertaking any placement. This requirement will apply to students when they commence the MD component of the course in the third year of the BCSC.
Bachelor of Exercise and Sport Science

**SATA CODE** – TBC
Casuarina, Online

**UAC CODE** – TBC
Casuarina, Online

**DURATION** – 3 years full-time, 6 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**

The Bachelor of Exercise and Sport Science will equip you with the knowledge and skills to work in the sports industry and relevant health centres.

Your studies will enable you to work with people who are healthy (including athletes) or physically challenged (including the aged and injured), to improve their health and fitness, enhance their physical performance and manage different health conditions.

The combination of academic knowledge and practical experience gained during your study at CDU will enable you to perform at a highest standards in the sporting industry.

You might be eligible to join Exercise and Sport Science Australia (ESSA) through Graduate Entry, and pursue further studies in Clinical Exercise Physiology or Physiotherapy.

**Note:** This course is currently under review. Please check the CDU website for availability and updated course information.

**PROFESSIONAL RECOGNITION**

You can apply as individual members to the following associations: Australian Council for Health Physical Education and Recreation (ACHPER), Sports Medicine Australia (SMA), The British Association of Sport and Exercise Sciences and European College of Sports Science (ECSS).

**CAREER OPPORTUNITIES**

As an Exercise and Sport Science graduate, you may have diverse employment opportunities in health and fitness, and sports industry.

---

Bachelor of Health Science

**SATA CODE** – 104681
Casuarina, Online

**UAC CODE** – 90350
Casuarina, Online

**DURATION** – 3 years full-time, 6 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

With a goal to keep our populations healthy, the demand for more health professionals with a broad skill set is increasing. The Bachelor of Health Science from Charles Darwin University provides the skills to fill the gap in the Australian health care system and prepares you for working in a multidisciplinary health industry.

The Bachelor of Health Science has strong health industry connections and course content which leads to work in areas including environmental officers, health policy and research, health and wellbeing or health promotion. This course offers a pathway into master level studies so you can pursue a career in occupational therapy, health research or public health.

A core part of the course is the community project which provides opportunity to put your knowledge into practice supported by CDU academic staff. You will have access to international study opportunities and our course offers both an Indigenous and international support lecturer.

As a graduate, you will be ready to make a positive difference to health across local, rural and remote Australia and beyond.

**PROFESSIONAL RECOGNITION**

Students are eligible to apply for membership with the following professional associations: The Australian Health Promotion Association and the Public Health Association of Australia.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities in areas such as health promotion, health services management, and public health.

**ESSENTIAL REQUIREMENTS**

As this course requires you to undertake a community project, you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing the community project. A national and/or international police check and a current Working with Children check is required regarding suitability to undertake clinical/fieldwork placements.
Bachelor of Health Science/Master of Nutrition

ABOUT THE COURSE
The Bachelor of Health Science/Master of Nutrition offers you the opportunity to commence a diverse career in health focusing on how food and nutrition impacts health across individuals, families, communities and industry. At CDU our Bachelor of Health Science/Master of Nutrition will enable you to work in diverse areas of nutrition including food research, dietetic studies, food and health policy, or individual or community nutrition strategies and public health. We offer supported relevant practical experiences and opportunity to study abroad.

This four year program allows you to graduate with both a Bachelor of Health Science and Master of Nutrition. This will equip you to enter the workforce in any number of health areas, such as nutrition focused roles in community health organisations, acute care settings, or in public health and health promotion.

PROFESSIONAL RECOGNITION
You will be eligible to apply for membership with the Australian Health Promotion Association, the Public Health Association of Australia and on commencement of the Master of Nutrition register with Nutrition Australia.

CAREER OPPORTUNITIES
Graduating from this course may lead to career opportunities in areas such as patient educators, nutrition assistant, nutrition consultants, health promotion officers, community health officers, public health nutrition, research and advisors, education facilities, universities and research facilities, quality and nutrition coordinators, food technologists.

ESSENTIAL REQUIREMENTS
If you are undertaking a course with clinical or fieldwork placements you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing clinical/fieldwork placements. A national and/or international police check and a current Working with Children check is required regarding suitability to undertake clinical/fieldwork placements.

The majority of health facilities will require you to present a complete immunisation schedule, and First Aid certificate as you progress to placements in the Master of Nutrition.

Bachelor of Health Science/Master of Occupational Therapy

ABOUT THE COURSE
A career as an occupational therapist (OT) will open doors to a multitude of opportunities in health and social care delivery. This unique area of health prepares graduates to work with people across all ages who may have motor-sensory or muscular-skeletal impairments, disability, injuries or mental health problems that impact their ability to cope with day-to-day activities.

This course equips you with the skills and knowledge needed to improve the lives of the clients, families and communities in which you will work.

The Bachelor of Health Science/Master of Occupational Therapy incorporates 1000 hours of health practicum supported by CDU academics and registered OT professionals. There are unique placement opportunities in the Northern Territory’s local, rural and remote areas.

Aboriginal and Torres Strait Island students are encouraged to apply. CDU’s Indigenous Student Support services are on hand to support you through your degree. This course offers international study opportunities and welcomes international students with a dedicated international student support academic.

PROFESSIONAL RECOGNITION
Students are required to register with the Occupational Therapy Board of Australia (OTBA) and graduates can apply for registration as Occupational Therapists with the Australian Health Practitioner Regulation Agency (AHPRA).

CAREER OPPORTUNITIES
Graduating from this course may lead to career opportunities in areas such as community health centres, public and private hospitals, aged care facilities, paediatric facilities, education facilities, mental health settings, alcohol and drug services, private clinics, non-government organisations, correctional institutions, universities and research facilities, corporate and industrial settings, supported employment and government departments.

ESSENTIAL REQUIREMENTS
If you are undertaking a course with clinical or fieldwork placements you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing clinical/fieldwork placements. A national and/or international police check and a current Working with Children check is required regarding suitability to undertake clinical/fieldwork placements.

**ABOUT THE COURSE**

The Bachelor of Health Science/Master of Speech and Language Therapy is a four-year program that will qualify you to work as a speech pathologist within the Australian healthcare system. The course is undertaken online, with intensive on-campus residencies and placements providing the clinical learning. Upon graduating from the course you will be equipped to work in hospitals, rehabilitation centres, aged care facilities, community health clinics, schools or disability organisations assisting people to achieve their highest quality of life at work, home and socially; irrespective of age, disability or illness.

Aboriginal and Torres Strait Island students are encouraged to apply. CDU’s Indigenous Student Support services are on hand to support you through your degree.

This course offers international study opportunities and welcomes international students with a dedicated international student support academic.

**PROFESSIONAL RECOGNITION**

Graduates will be able to apply for membership with Speech Pathology Australia once the course is successfully accredited. The course will seek accreditation from Speech Pathology Australia prior to the first cohort graduating.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities in areas such as hospitals, community health centres, residential and age care facilities, disability services, paediatric facilities, mental health facilities, education facilities, universities and research facilities, juvenile justice centres, and private clinics.

**ESSENTIAL REQUIREMENTS**

If you are undertaking a course with clinical or fieldwork placements you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing clinical/fieldwork placements. A national and/or international police check and a current Working with Children check is required regarding suitability to undertake clinical/fieldwork placements.

The majority of health facilities will require you to present a complete immunisation schedule, and First Aid certificate as you progress to placements in your Master of Speech and Language Therapy.

**ABOUT THE COURSE**

The Bachelor of Health Services Management presents a selection of units across health, business and information technology to enable you to work within, and make a positive contribution to, the health service management industry. When you graduate from this course you will understand business management combined with knowledge of the diversity of health clients, the importance of cultural safety, health promotion and local and global health issues influencing the health care system.

This course has an emphasis on understanding the challenges of working in diverse contexts of urban, rural, and remote communities and offers opportunities to access scholarships as well as study abroad with international study tours and student exchange programs available.

You’ll study alongside students from business, nursing, midwifery, social work, and other allied health areas developing an understanding of multidisciplinary professions across the health industry. You’ll gain knowledge of health beyond illness and disease prevention and learn how to manage, coordinate and administer health infrastructure and resources.

Aboriginal and Torres Strait Island students are encouraged to apply. CDU’s Indigenous Student Support services are on hand to support you through your degree. In the final year of study all our students will be supported by CDU academics to work with health agencies to complete your own community health project.

**PROFESSIONAL RECOGNITION**

Students are eligible to apply for membership with the following professional associations: The Australian Health Promotion Association and the Public Health Association of Australia.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities in areas such as primary and community health centres, public and private hospitals, aged care facilities, paediatric facilities, policy development, health service planning, rural health settings, health administration, quality and patient safety manager, operations manager, health information manager.

**ESSENTIAL REQUIREMENTS**

As this course requires you to undertake a community project, you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing the community project. A national and/or international police check and a current Working with Children check is required regarding suitability to undertake clinical/fieldwork placements.
Bachelor of Medical Laboratory Science

**SATA CODE** – 104671
Casuarina

**UAC CODE** – 590400
Casuarina

**DURATION** – 4 years full-time, 8 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ASSUMED KNOWLEDGE**
Stage 2 Mathematical Methods or equivalent.

**ABOUT THE COURSE**

Medical Laboratory Scientists work in a range of areas in pathology, including haematology, clinical chemistry, microbiology, histology and serology. They are skilled in performing tests on both human and veterinary specimens, such as blood, tissues and bodily fluids to assist in the diagnosis of disease and provide information about the treatment options. The results of these tests provide physicians with the essential information they need to treat, monitor and prevent disease.

This professionally oriented four-year full-time course (or part-time equivalent), combines theoretical and laboratory-based study along with industry placements in world leading institutes. This course is recognised by the Australian Institute of Medical Scientists (AIMS), providing graduates with employment opportunities in the identification and diagnosis of disease and pathogens, medical research, forensic pathology, public health and the pharmaceutical industry, both within Australia and Internationally.

**PROFESSIONAL RECOGNITION**
The Australian Institute of Medical Science (AIMS).

**CAREER OPPORTUNITIES**
Graduating from this course may lead to career opportunities in the identification and diagnosis of disease and pathogens, medical research, forensic pathology, public health and the pharmaceutical industry.

**ESSENTIAL REQUIREMENTS**
Criminal history check: You must have cleared a Police Check before undertaking any placements. Students whose Police Checks are not cleared will not be able to undertake placements and will not be able to complete the requirements for this course.
Bachelor of Midwifery

SATAC CODE – 104481
Casuarina, Online

UAC CODE – 590390
Casuarina

UAC CODE – 590392
Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

Through a partnership approach, midwives provide woman centred, evidence based care for women and babies throughout the childbearing journey in a variety of settings. Midwives play an important role in promoting the health and wellbeing of women and their families by supporting the woman’s childbearing choices and providing expertise around pregnancy, birth, postnatal and the newborn period. Midwives collaborate with other health professionals to continue midwifery care in complex situations.

The Bachelor of Midwifery at CDU is aligned with the International Confederation of Midwives’ definition of the midwife. Students require a high level of motivation, determination and organisation to successfully negotiate study and clinical experience requirements with work and family commitments. The online nature of the course requires students to be disciplined and committed in their study habits. Students should consider whether their family life and work commitments will support their attendance at placement and time available for study.

Placement may occur during and outside of the semester and students may be required to travel away from home to complete up to 6 weeks of placement at their own expense. Students need to be aware that:

> placement is arranged by Charles Darwin University and dates are determined by the availability of places at the health service facility, therefore dates for placement may not be negotiable

> students are required to attend the arranged placement to progress in the course

> non-attendance at placement may only occur in extenuating circumstances. Childcare and work commitments are not extenuating circumstances for the purpose of placement

> placements may include morning, evening, night duty, on-call and shifts on weekends and public holidays.

There are inherent requirements for midwifery. Inherent requirements are the essential abilities, knowledge and skills to achieve course learning outcomes and to be able to safely practise as a midwife. Midwifery requires a degree of physical strength and mobility, endurance, communication and cognitive abilities for safe practice. For more detailed information see Inherent Requirements for Midwifery.

Reporting obligations: Under the Health Practitioner Regulation National Law, CDU is required to register midwifery students with the Australian Health Practitioner Regulation Agency (AHPRA) and to notify AHPRA if a student has or develops a health impairment that may place the public at substantial risk of harm. Students have obligations under the National Law and are expected to understand their obligations prior to enrolling. More information available at NMBA Student Registration.

This is a quota course with more applicants than places available, eligible applicants will be ranked in order of academic merit.

PROFESSIONAL RECOGNITION

Graduates will be eligible to apply for registration with the Nursing and Midwifery Board of Australia (NMBA) to practice as a midwife in all Australian States or Territories and some overseas countries.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in roles including midwifery group practice, homebirth and working in public or private hospitals.

ESSENTIAL REQUIREMENTS

Pre-clinical requirements:
Students must provide proof that they have met all university and State/Territory pre-clinical requirements before they can undertake those units that include clinical placements. These requirements include, but are not limited to, immunisation requirements, Senior First Aid qualification, annual criminal record checks and/or working with children clearances and/or fitness-to-practice requirements.

ADDITIONAL ADMISSION REQUIREMENTS

Residents of Tasmania, NSW Central Coast and NSW North Coast are advised to call Student Central on 1800 061 963 prior to applying to discuss placement.
Bachelor of Nursing

**SATA CODE** – TBC
Casuarina, Online

**UAC CODE** – TBC
Casuarina, Online

**DURATION** – 3 years full-time, 6 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

The Bachelor of Nursing is a professionally accredited degree that meets the Nursing and Midwifery Board of Australia (NMBA) qualification criterion for registration as a Division 1 nurse in Australia. As a graduate of the Bachelor of Nursing, you are prepared to be a safe, collaborative, articulate and ethical registered nurse who is responsive to local, national and regional health care needs and aware of emerging global health care trends.

The course is offered externally (online) and internally (on campus). The internal mode is available at the Casuarina Campus. All students are required to complete a full-time on-campus simulation block at an approved CDU venue in each year level of the course, in preparation for clinical placement.

You will complete supervised clinical placements (880 hours in total) across the three years of the course in a variety of health care settings, including opportunities to participate in international study tours and exchanges that are in addition to the required 880 hours.

As a nursing student, you will be required to have an inherent set of qualities. Nursing requires a degree of physical strength and mobility, endurance, communication and cognitive abilities for safe practice. If you think you may experience challenges in meeting the inherent requirements for nursing, you are encouraged to contact the Bachelor of Nursing Course Coordinator to discuss any concerns you may have before enrolling in the course.

Reporting obligations: Under the national Health Practitioner Regulation National Law, CDU is required to register nursing students with the Australian Health Practitioner Regulation Agency (AHPRA) and to notify AHPRA if a student has or develops a health impairment that may place the public at substantial risk of harm. More information available at NMBA Student Registration.

**Note:** This course is currently under review. Please check the CDU website for availability and updated course information.

**PROFESSIONAL RECOGNITION**

Graduates of this course are eligible to apply for registration with the Health Licensing Authority (Nursing and Midwifery Board of Australia).

**CAREER OPPORTUNITIES**

Graduating from this course can lead to career opportunities in public and private health settings and specialty areas such as mental health, community health, acute and chronic care centres, non-government organisations, social services, health clerk, therapy services officer.

**ESSENTIAL REQUIREMENTS**

**Pre-clinical requirements:**

Students must provide proof that they have met all university and State/Territory pre-clinical requirements before they can undertake clinical placements. These requirements include, but are not limited to, immunisation requirements, Senior First Aid qualification, annual criminal record checks and/or working with children clearances and/or fitness-to-practice requirements. For more information please visit College of Nursing and Midwifery webpage.

**ADDITIONAL ADMISSION REQUIREMENTS**

The Nursing and Midwifery Board of Australia have made changes to the English language skills registration standard. Please refer to their website for further information.

Bachelor of Public Health

**SATAC CODE** – 104731
Casuarina, Online

**UAC CODE** – 590420
Casuarina, Online

**DURATION** – 3 years full-time, 6 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

If you are interested in connecting with communities and working to develop innovative and evidence-based health strategies, CDU’s Bachelor of Public Health is perfect for you.

The Bachelor of Public Health focuses on addressing health disparities faced locally, nationally and globally and will prepare you to work in areas of health promotion, policy making, research and disease prevention. With flexible online delivery and option to attend on campus classes, you will graduate with a broad skill set enabling you the opportunity to work in public health across local, rural, remote and global health settings. The Bachelor of Public Health has diverse and relevant unit offerings encompassing topics such as epidemiology, cultural safety, social media, global and environmental health.

In the final year of study you will be supported by CDU academics to work with health agencies and complete your own community health project. CDU offers a range of scholarships as well as opportunities to study abroad with international study tours.

**PROFESSIONAL RECOGNITION**

Students are eligible to apply for membership with the following professional associations: The Australian Health Promotion Association and the Public Health Association of Australia.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities in areas such as primary and community health centres, health project officer, health promotion practitioner, health policy development, education facilities, mental health settings, alcohol and drug services, non-government organisations, universities and research facilities, research officer, rural and remote health settings, corporate and industrial settings, supported employment and government departments.

**ESSENTIAL REQUIREMENTS**

As this course requires you to undertake a community project, you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing the community project. A national and/or international police check and a current Working with Children check is required regarding suitability to undertake clinical/fieldwork placements.

The majority of health facilities will also require you to present a complete immunisation schedule, and First Aid certificate.

Associate Degree of Exercise and Sport Science

**SATAC CODE** – 115151
Casuarina, Online

**UAC CODE** – 592020
Casuarina, Online

**DURATION** – 2 years full-time, 4 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

Love sport so much that you want to make it your career? The Associate Degree in Exercise and Sports Science will help you reach your goal.

As an exercise and sports professional, you will help your clients improve their health and fitness and enhance physical performance in athletes and the general population.

**Note:** This course is currently under review. Please check the CDU website for availability and updated course information.

**PROFESSIONAL RECOGNITION**

You can apply as individual members to the Australian Council for Health Physical Education and Recreation (ACHPER).

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities as an allied health professional, in the Australian health and fitness, and sports industry. You may also continue with further studies to Bachelor of Exercise and Sports Science course.
The Diploma of Exercise and Sport Science will allow you to explore the essentials of human movement, responses and adaptations of different physiological systems to training. You will also learn about:

- the musculoskeletal system and the physiology of nerve and muscle functions
- the cardiovascular, musculoskeletal, and respiratory systems as well as other cellular and genetic processes
- the analysis of human movements
- the control of movement and motor skill acquisition
- how the human body interacts with the environment

You have the choice to undertake this diploma either on campus at Casuarina (internal) or online from anywhere in the world (externally).

**Note:** This course is currently under review. Please check the CDU website for availability and updated course information.

**Professional Recognition**

You can apply as individual members to the Australian Council for Health Physical Education and Recreation (ACHPER), and Sports Medicine Australia (SMA).

**Career Opportunities**

Graduating from this course may lead to career opportunities in the Australian health and fitness, sports industry, or you may continue to further studies into our associate degree or bachelor course.
Bachelor of Science

SATAC CODE – 104551
Casuarina, Online

UAC CODE – 590430
Casuarina, Online

Duration – 3 years full-time, 6 years part-time

Domestic Intake – Semester 1, Semester 2, Summer Semester

About the Course

The Bachelor of Science will allow you to explore your curiosity and passion for knowledge within your chosen scientific field. Your study options are flexible and diverse with a focus on professional experience in various sciences including biologist, ecologist, spatial scientist, biomedical scientist, chemist, or in other science fields.

You will combine academic studies with practical learning in distinctive environments and communities of northern Australia and the region, and their associated challenges in environmental management and public health, including Indigenous health. You will strengthen your problem solving, logical and critical thinking skills, apply an understanding of scientific and technological factors, and consider issues from various cultural, economic and other societal perspectives throughout your studies helping you to approach tasks informed and confident.

You will be able to demonstrate and apply an understanding of their chosen areas of science, including concepts, theories and principles to practise in real situations.

Career Opportunities

Graduating from this may lead you to career opportunities in the industry, government, private companies, non-government organisations (NGO) and the community sector as a biologist, ecologist, spatial scientist, biomedical scientist, chemist, consultant, laboratory assistant, project manager or advisor.

Diploma of Science

SATAC CODE – 116171
Casuarina, Online

UAC CODE – 591110
Casuarina, Online

Duration – 1 year full-time, 2 years part-time

Domestic Intake – Semester 1, Semester 2, Summer Semester

About the Course

The Diploma of Science is ideal if you are curious about studying science and would like to learn more though unsure about committing to a degree, or you already have a career in the sciences and want to upskill with another qualification and skills in another discipline.

You will explore a variety of science concepts, theories and principles in different fields such as general science, geographic information science, environmental science and medical science until you find the one that resonates with you.

As you progress through your diploma, you will develop your knowledge in logical and critical thinking, and problem-solving from a scientific and technological perspective.

After completing your diploma, you have the option to move into our Bachelor of Science or Bachelor of Environmental Science courses.

Whether you are in the science field or looking to move into science, or perhaps you are a teacher or engineer wanting to gain knowledge about a specific science discipline, this flexible diploma will help you find what you are looking for.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

Career Opportunities

Graduating from this course may lead to a variety of science-related roles in government, private companies, non-government organisations and community sectors including positions as a technician, laboratory assistant, consultant, analyst, designer and developer, project manager or helpdesk support administrator, plus many more.

CAREER OPPORTUNITIES

Graduating from this course may lead to a variety of science-related roles in government, private companies, non-government organisations and community sectors including positions as a technician, laboratory assistant, consultant, analyst, designer and developer, project manager or helpdesk support administrator, plus many more.
ABOUT THE COURSE

The Bachelor of Arts Honours is a one-year course for high-achieving Bachelor of Arts graduates. It is an opportunity to produce a research project that explores an area of research interest in depth and prepare you for a research career. During the course, you’ll work closely with your research supervisor to develop a high-quality thesis based upon primary research. At CDU, you’ll have the one-on-one support and flexibility to design a bespoke research project that aligns with and develops your talents and interests.

Critical thinking is one of the most important skills for the future workforce, which is why the Bachelor of Arts (Honours) is designed to hone your thinking skills. In a world where everyone has an opinion, you’ll learn to critically evaluate ideas, concepts and information to deliver a unique perspective on your research topic.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in a wide range of fields. The knowledge and skills you acquire through this degree will prepare you for a research role in a range of government and statutory authorities such as land councils, museums, training and research organisations, diplomacy, policy advisor, communications, media, or consultancy particularly where these organisations engage with central and northern Australia and Asia.

Completion of honours at the highest levels will open up possibilities of a research career by allowing you to enrol in a PhD.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification in an arts-related discipline or field with at least a credit average (GPA of 5.00).

ADDITIONAL ADMISSION REQUIREMENTS

You must contact CDU’s College of Indigenous Futures, Arts and Society by email to IFASAdmin@cdu.edu.au prior to submitting an application to discuss a potential project and supervision arrangements.
ABOUT THE COURSE
Are you a high achieving psychology student, wanting to distinguish yourself from other graduates and pursue a rewarding career? If yes, then the Bachelor of Psychological Science Honours is the next step for you.

The Bachelor of Psychological Science Honours is a one-year course that is accredited by the Australian Psychology Accreditation Council (APAC). Upon completion, you will be eligible for provisional registration as a psychologist with the Psychology Board of Australia. You could then become eligible for general registration as a psychologist with at least two years of supervised practice.

In addition, the honours program gives you an opportunity to acquire expertise and skills that are highly valued by employers. The honours will enable you to develop an in-depth understanding of psychological theories and practice. You will also have the opportunity to design, conduct, interpret and communicate research. The knowledge and skills you can acquire in the honours program prepare you for careers in a wide range of areas in private and government organisations.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION
Upon successful completion, you will be eligible for provisional registration as a psychologist with the Psychology Board of Australia.

CAREER OPPORTUNITIES
After graduating, you will have the knowledge and skills to work in areas relevant to human health and wellbeing such as health, counselling, education, sport, marketing, policy, forensic, youth work, justice systems, service delivery, human resource management and research. Depending on your chosen area, you could work in a wide variety of contexts including private practice as a provisional registered psychologist, state/territory and federal government agencies, community organisations, hospitals, businesses, schools and universities.

Completing the honours program gives you access to exciting specialised graduate and postgraduate studies. If you complete your honours with at least a high 2A, you can also continue your studies by undertaking specialised postgraduate courses including the Masters of Psychology (Clinical) or choose a career in research by embarking on a PhD.

ADMISSION REQUIREMENTS
Successful completion within the last 10 years of an APAC accredited Bachelor of Psychological Science degree or equivalent. This is a competitive course with more applicants than places available. Applicants must have a GPA of at least 5.50 and at least a credit in second year and third year research design and analysis or equivalent.
Bachelor of Psychological Science (Graduate Entry)

ABOUT THE COURSE

Do you dream of working as a psychologist? The Bachelor of Psychological Science (Graduate Entry) is a foundation course, introducing you to the concepts, practices and science of psychology.

You will develop your skills and knowledge in human behaviour which includes the fundamental premise of psychology as an empirically based science, social-cultural perspectives, and research methods.

This course acts as a pathway into the Bachelor of Psychological Science Honours program, which prepares you for specialist training and registration.

PROFESSIONAL RECOGNITION

This course is accredited by the Australian Psychology Accreditation Council (APAC) and prepares you for entry into an Honours year in psychology. During your studies, you can also join the Australian Psychological Society.

CAREER OPPORTUNITIES

This course will equip you with skills and knowledge in a range of psychology areas (e.g. abnormal psychology, personality, developmental). These skills could lead to career opportunities in:

> human resources
> preventative health education and training
> community services
> advertising and marketing, and
> sport and rehabilitation.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent and successful completion of APAC accredited first year psychology units equivalent to PSY140 Introduction to Psychology A and PSY141 Introduction to Psychology B.

Students who have completed an APAC accredited undergraduate degree are not eligible for entry.
Bachelor of Laws (Graduate Entry)

| SATAC CODE | 1BG015  
| UAC CODE  | 820011  
| Waterfront Darwin, Online |
| DURATION | 3 years full-time, 6 years part-time |
| DOMESTIC INTAKE | Semester 1, Semester 2 |

ABOUT THE COURSE

The Bachelor of Laws program (Graduate Entry) provides you with the academic foundation for admission to legal practice. In that context, the course provides you with knowledge of the law, legal processes and legal principles and cultivates a capacity for legal research, analysis and communication. There is a focus on the analysis, interpretation, evaluation and application of various sources of legal authority to construct solutions to legal problems. The course also deals with theoretical perspectives on the law and encourages an appreciation of transnational law and of legal issues of special significance to the Northern Territory, including Aboriginal legal issues.

PROFESSIONAL RECOGNITION

The Bachelor of Laws (Graduate Entry) is accredited by the Legal Practitioners Admission Board of the Northern Territory and provides the academic foundation for admission to legal practice in the Northern Territory and elsewhere in Australia. To be admitted to legal practice in Australia, you must also complete the Graduate Diploma in Legal Practice (GDLP). This can be taken through the College of Law, Sydney, and completed online.

CAREER OPPORTUNITIES

Law prepares you to pursue the pathway towards a career as a solicitor or barrister. It may also provide career paths into areas where an in-depth understanding of the law is advantageous, including politics, the public service, industrial relations or community advocacy.

ADMISSION REQUIREMENTS

Successful completion of a recognised Bachelor degree or equivalent international qualification.

ADDITIONAL ADMISSION REQUIREMENTS

Applicants must contact the College by email at law@cdu.edu.au to discuss a potential research project and supervision prior to application. In addition to minimum GPA of 5.50, applicants are required to have a research project topic and supervisor who has agreed to supervise the student and project before admission is approved.

Bachelor of Laws Honours

| SATAC CODE | 1BH020  
| UAC CODE  | 820041  
| Waterfront Darwin, Online |
| DURATION | 1 year full-time, 2 years part-time |
| DOMESTIC INTAKE | Semester 1 |

ABOUT THE COURSE

The Bachelor of Laws Honours is a one-year course for high-achieving Bachelor of Laws’ graduates. It may provide you with a pathway to a PhD, enhance your career prospects and advance your legal research and writing skills. During the course, you’ll undertake a substantial legal research project in an area relevant to your career. This is an opportunity to deeply explore a legal topic of your interest, as well as develop a sound understanding of the research methodologies relevant to law and legal scholarship.

With the support of CDU’s academic staff and your research supervisor, you will be encouraged to produce quality research and develop your project to a publishable level.

If you successfully complete the Bachelor of Laws Honours, you may be eligible for admission to a PhD.

PROFESSIONAL RECOGNITION

This course is recognised by the Legal Profession Admission Board in the Northern Territory.

CAREER OPPORTUNITIES

Law prepares you to pursue the pathway towards a career as a solicitor or barrister, however, it may also provide career paths into areas where an in-depth understanding of the law is advantageous, including politics, the public service, industrial relations or community advocacy.

ADMISSION REQUIREMENTS

Successful completion of a Bachelor of Laws degree or equivalent international qualification with a minimum GPA of 5.50.

ADDITIONAL ADMISSION REQUIREMENTS

Applicants must contact the College by email at law@cdu.edu.au to discuss a potential research project and supervision prior to application. In addition to minimum GPA of 5.50, applicants are required to have a research project topic and supervisor who has agreed to supervise the student and project before admission is approved.
Bachelor of Health Science Honours

**ABOUT THE COURSE**

The Bachelor of Health Science Honours is an additional year of undergraduate study which will provide you with the opportunity to build on your knowledge and gain specialised skills in your area of interest. You will develop skills in research design, sample collection, critical analysis and interpreting data, while understanding the importance of ethical and professional issues pertaining to the field of research.

During the course, you will be required to complete coursework in research methods, writing and/or health, plus complete an independent research project. This will also include writing a thesis which showcases your research achievements.

This course will give you transferable skills in the areas of critical thinking, time management, writing, communication and teamwork, while contributing to the knowledge of your specified health field. An honours year also provides a pathway to postgraduate studies and commence a rewarding career in research.

**ESSENTIAL REQUIREMENTS**

A criminal history check may be required depending on the area of research the student will be undertaking and the organisation involved.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or equivalent in a health science-related area with at least a credit average (GPA of 5.00).

Consideration will also be given to applicants who are below a GPA of 5.00 who can demonstrate a suitable level of technical skills.

**ADDITIONAL ADMISSION REQUIREMENTS**

You must contact the College of Health and Human Sciences at hhs@cdu.edu.au to discuss a potential project and supervision prior to submitting an application. In addition to a credit average (GPA of 5.00), you are required to have a project topic and project supervisor who has agreed to supervise your project before admission is approved.

---

Bachelor of Medical Laboratory Science Honours

**ABOUT THE COURSE**

There is no direct entry into this course, it is only available by internal course transfer.

Medical Laboratory Scientists work in a range of areas in pathology, including haematology, clinical chemistry, microbiology, histology and serology. They are skilled in performing tests on both human and veterinary specimens, such as blood, tissues and bodily fluids to assist in the diagnosis of disease and provide information about the treatment options. The results of these tests provide physicians with the essential information they need to treat and prevent disease.

This professionally oriented four-year full-time course (or part-time equivalent), combines theoretical and laboratory-based study along with industry placements. Additionally, students will develop knowledge and skills in research by undertaking a research project in a specific discipline as part of the final year of this degree.

**PROFESSIONAL RECOGNITION**

This course is recognised by the Australian Institute of Medical Scientists (AIMS).

**CAREER OPPORTUNITIES**

Completion of the Bachelor of Medical Laboratory Science Honours provides you with a globally recognised, professional accredited qualification with employment opportunities in pathology, medical research, forensic pathology, public health and the pharmaceutical industry, both within Australia and Internationally.

**ADMISSION REQUIREMENTS**

There is no direct entry into this course. This course is only available as an internal transfer from the Bachelor of Medical Laboratory Science to current students who have completed the first three years of the Bachelor of Medical Laboratory Science with GPA >5.0. Offers may be limited and will be made on the basis of invitation and interview.

**ADDITIONAL ADMISSION REQUIREMENTS**

Students enrolled in the Medical Laboratory Science who have successfully completed 3rd year (all compulsory common and core units totalling 240 credit points) with a GPA of credit or above (5.00) are eligible to apply to transfer into this honours program.
Bachelor of Midwifery Honours

**SATAR CODE** – 1BH014

**UAC CODE** – 820052

**DURATION** – 1 year full-time, 2 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

The Bachelor of Midwifery Honours is designed to extend knowledge gained through your undergraduate midwifery education. You will undertake the program in partnership with an experienced midwife academic who will provide mentoring and an introduction to research with a midwifery focus of your choice. The course addresses foundation research concepts required for higher level research studies. This encompasses:

- acquisition of knowledge and skills
- critical thinking
- decision making
- complex problem solving.

You will use these skills to produce a registerable and potentially publishable systematic review of the literature on a topic nominated by you.

**CAREER OPPORTUNITIES**

Completion of a high quality honours degree can lead directly to entry to Doctor of Philosophy programs or prepare students for career opportunities as a research midwife. An Honours degree extends clinical knowledge in a specific area and can enhance your practice in your chosen clinical area.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or equivalent international qualification in midwifery with at least a credit average (GPA 5.00).

**ADDITIONAL ADMISSION REQUIREMENTS**

Applicants must contact the College of Nursing and Midwifery by email (conmhonours@cdu.edu.au) prior to submitting an application to discuss a research topic and supervision arrangements.

Bachelor of Nursing Honours

**SATAR CODE** – 1BH015

**UAC CODE** – 820062

**DURATION** – 1 year full-time, 2 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

The Bachelor of Nursing Honours is designed to extend knowledge gained through your undergraduate nursing education. You will undertake the program in partnership with an experienced nurse academic who will provide mentoring and an introduction to research with a nursing focus of your choice. The course addresses foundation research concepts required for higher level research studies. This encompasses:

- acquisition of knowledge and skills

- complex problem solving.

You will use these skills to produce a registerable and potentially publishable systematic review of the literature on a topic nominated by you.

**CAREER OPPORTUNITIES**

Completion of a high quality honours degree can lead directly to entry to Doctor of Philosophy programs or prepare students for career opportunities as a research nurse. An honours degree extends clinical knowledge in a specific area and can enhance your practice in your chosen clinical area.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or equivalent international qualification in a nursing related field with at least a credit average (GPA of 5.00).

**ADDITIONAL ADMISSION REQUIREMENTS**

Applicants must contact the College of Nursing and Midwifery by email (conmhonours@cdu.edu.au) prior to submitting an application to discuss a research topic and supervision arrangements.
ABOUT THE COURSE

As a pharmacist, you are responsible for providing information, advice, and education on medicines and health issues helping patients achieve optimal health care. You also advise medical practitioners and other healthcare professionals on the interactions and side effects of medications, medication selection and dosage, and a range of other health-related issues. During your course, you will develop your knowledge and skills in areas such as the chemical, physical, and biological properties of drugs, how medications work, their usage, and their clinical effects. You will also have the opportunity to participate in practical activities and complete a pre-registration internship at an Australian pharmacy. This course meets the demands for Pharmacy services and research in Australia with additional focus on rural and remote practice to meet the unique and diverse needs of communities in these regions. Pharmacists graduating from the Bachelor of Pharmacy Honours will have research experiences that allow them to continue research in broad fields that include but not limited to new medications discovery to best pharmacy practice.

PROFESSIONAL RECOGNITION

This course satisfies the requirements of the Australian Pharmacy Council. Eligibility for registration in Australia will be granted by the Pharmacy Board of Australia. Pharmacists registered in Australia are able to work as pharmacists in all Australian states and territories and New Zealand.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in community, retail and hospitals pharmacies, as well as roles in government, private and non-government organisations (NGO).

ADMISSION REQUIREMENTS

There is no direct entry into this course. This course is only available as an internal transfer from the Bachelor of Pharmacy to current students who have completed the first three years of the Bachelor of Pharmacy with GPA >5.0. Offers may be limited and will be made on the basis of invitation and interview.

ADDITIONAL ADMISSION REQUIREMENTS

Students enrolled in the Bachelor of Pharmacy who have successfully completed 3rd year (all compulsory common and core units totalling 240 credit points) with a GPA of credit or above (5.00) are eligible to apply to transfer into this honours program.
Bachelor of Science Honours

**ABOUT THE COURSE**

This one-year honours course includes a major research project, advanced level coursework and research skills training in a number of science disciplines including:

- environmental science
- health and clinical science
- information technology.

Key areas you could base your research on include:

- biology
- ecology
- spatial science
- analytical chemistry and molecular modelling
- exercise and sports science
- medical laboratory science
- pharmacy
- information systems
- mobile
- networking
- software development.

Honours qualifications prepare you for professional positions requiring higher level project management, effective written and oral communication, analysis and problem-solving and research skills. You are encouraged to pursue in-depth research under the guidance of experienced researchers, and through targeted coursework and generic research skills training.

Honours qualifications are also a pathway to further study in Master or PhD programs.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities in the industry, government, private and the community sector as a biologist, ecologist, spatial scientist, biomedical scientist, chemist, consultant, laboratory assistant, academic, project manager or advisor.

**ESSENTIAL REQUIREMENTS**

The completion of a research project in some disciplines may require an Ochre Card or equivalent.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or equivalent international qualification in a science, biomedical science, environment or information technology discipline with at least a credit average (GPA of 5.00) or equivalent.

**ADDITIONAL APPLICATION REQUIREMENTS**

Applicants must contact the College at eiteadmin@cdu.edu.au to discuss a potential project and supervision prior to submitting an application. In addition to a credit average (GPA of 5.00), you are required to have a project topic and project supervisor who has agreed to supervise your project before admission is approved.
ABORIGINAL AND AUSTRALIAN STUDIES

Graduate Diploma of Indigenous Policy Development

SATAC CODE – 1GD021
Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1GD521
Casuarina, Online (Full Fee)

UAC CODE – 822050
Casuarina, Online (Commonwealth Supported)

UAC CODE – 872050
Casuarina, Online (Full Fee)

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

With the Graduate Diploma of Indigenous Policy Development, you will build on your professional knowledge and experiences with a critical understanding of important aspects of Indigenous economic and policy development in modern Australia.

You will examine key issues of Indigenous policy development and implementation, economic development and participation, traditional and modern governance structures, and intellectual and cultural property rights in current social and political contexts.

This course is an essential foundation for respectful and accountable engagement with Indigenous people and the current social and political issues they face in Australia and internationally.

This is an important course, if you want to develop your knowledge and understanding of:

- the workings of government and policy
- the structures and functions of governance in relation to Indigenous people
- the practice of cultural engagement with and between Indigenous and non-Indigenous people
- the culture and language of Yolngu people.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Potential employment opportunities include roles in government and non-government organisations related to Indigenous affairs in areas such as research, policy development, or media and communications and academia.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or a higher qualification in a relevant field.

Consideration will also be given to non-graduates who have at least five years appropriate professional experience, for example policy development, research, governance or service delivery. Applicants may be asked to provide further documentation detailing their employment experience, roles and achievements in the form of a curriculum vitae.

Casuarina, Online (Full Fee)

**DURATION** – 1 year full-time, 2 years part-time  
**DOMESTIC INTAKE** – Semester 1, Semester 2

### ABOUT THE COURSE

With the Graduate Diploma of Indigenous Policy Development, you will build on your professional knowledge and experiences with a critical understanding of important aspects of Indigenous economic and policy development in modern Australia. You will examine key issues of Indigenous policy development and implementation, economic development and participation, traditional and modern governance structures, and intellectual and cultural property rights in current social and political contexts.

This course is an essential foundation for respectful and accountable engagement with Indigenous people and the current social and political issues they face in Australia and internationally.

This is an important course, if you want to develop your knowledge and understanding of:

- the workings of government and policy
- the structures and functions of governance in relation to Indigenous people
- the practice of cultural engagement with and between Indigenous and non-Indigenous people
- the culture and language of Yolngu people.

**Note:** This course is currently under review. Please check the CDU website for availability and updated course information.

### CAREER OPPORTUNITIES

Potential employment opportunities include roles in government and non-government organisations related to Indigenous affairs in areas such as research, policy development, or media and communications and academia.

### ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or a higher qualification in a relevant field. Consideration will also be given to non-graduates who have at least five years appropriate professional experience, for example policy development, research, governance or service delivery. Applicants may be asked to provide further documentation detailing their employment experience, roles and achievements in the form of a curriculum vitae.
Master of Business Administration

**SATAC CODE** – 1CM569
**Waterfront Darwin, Online (Full Fee)**

**UAC CODE** – 873011
**Waterfront Darwin, Online (Full Fee)**

**DURATION** – 1.5 years full-time, 3 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**
The Master of Business Administration (MBA) develops the key attributes and skills you need to move into senior and middle management positions in business, industry and the public sector. It complements your existing qualifications and experience, giving you an opportunity to learn more about:

- accounting for managers
- business research
- decision making
- communication
- negotiation and conflict resolution
- economics for managers
- organisational behaviour
- organisational strategy and leadership
- fundamentals of management.

At CDU, you can study an MBA online or on campus to suit your lifestyle. You can also tailor your studies to suit your goals, with options to design your coursework around your areas of interest.

**CAREER OPPORTUNITIES**
The Australian Government predicts strong industry demand for business degree graduates from a wide range of sectors. As a Master of Business Administration graduate, you will be qualified to pursue a range of exciting domestic and international career opportunities, which include business planning and management, brand management, marketing, market research, business analysis, e-commerce, human resource management, and many others.

**ADMISSION REQUIREMENTS**
Successful completion of a recognised bachelor or a higher qualification in a business or related field.

OR

Successful completion of a recognised bachelor or a higher qualification in an unrelated field plus a minimum of 6 months full-time employment experience in a managerial role. Applicants must provide documentation detailing their employment experience in the form of a curriculum vitae and two written referee reports in their application.

If you have no undergraduate or post graduate qualifications, you should apply for entry into one of the following programs:

- Graduate Certificate of Global Marketing
- Graduate Certificate of Human Resource Management
- Graduate Certificate of Strategic Management.

**PROFESSIONAL RECOGNITION**
Successful completion of a recognised bachelor or a higher qualification in a business or related field.

Master of Professional Accounting

**SATAC CODE** – 1CM054
Waterfront Darwin, Online (Commonwealth Supported)

**SATAC CODE** – 1CM554
Waterfront Darwin, Online (Full Fee)

**UAC CODE** – 823161
Waterfront Darwin, Online (Commonwealth Supported)

**UAC CODE** – 873161
Waterfront Darwin, Online (Full Fee)

**DURATION** – 1.5 years full-time, 3 years part-time

**DOMESTIC INTAKE** – Semester 1

**ABOUT THE COURSE**

The Master of Professional Accounting complements your non-accounting or partial accounting, or accounting but not equivalent to Australian accounting qualifications to meet the entry requirements for membership of CPA Australia and The Chartered Accountants Australia and New Zealand (CAANZ).

The course focuses on the knowledge and skills required for practice as a certified practising accountant or chartered accountant along with effective management, accountability and control, and effective decision-making for financial success.

You will develop technical and conceptual skills required to become a competent accountant as well as abilities to analyse, criticise and synthesise various accounting and related principles, methods and techniques.

**PROFESSIONAL RECOGNITION**

This is a conversion course that enables graduates with non-accounting or partial accounting backgrounds to meet the entry requirements for membership of CPA Australia, The Chartered Accountants of Australia and New Zealand (CAANZ) and The Chartered Institute of Management Accountants in the UK.

**CAREER OPPORTUNITIES**

Completing a Master of Professional Accounting with relevant work experience can lead to a wide range of career opportunities in small, medium and large organisations. As a graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, business/financial analyst, or work in a large multinational company or ‘Big Four’ accounting firm. Or, you could run your own businesses, work in a small local accounting firm, or work in other areas of business management.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree in any discipline.

Applicants who have fully satisfied the entry requirements of the accounting professional bodies in their first degree are not eligible for entry.
Master of Professional Accounting (Professional Practice)

**ADMISSION REQUIREMENTS**
Successful completion of a recognised bachelor’s degree in any discipline, including a bachelor’s degree in accounting but not equivalent to an Australian bachelor’s degree in accounting is required for admission into this course.

Applicants who have fully satisfied the entry requirements of the accounting professional bodies in their first degree are not eligible for entry.

**ABOUT THE COURSE**
The Master of Professional Accounting (Professional Practice) complements your non-accounting, partial accounting, or accounting but not equivalent to Australian accounting qualifications to meet the entry requirements for membership of CPA Australia and The Chartered Accountants of Australia and New Zealand (CAANZ). This course focuses on the knowledge and skills required for practice as a certified practising accountant or chartered accountant along with effective management, accountability and control, and effective decision-making for financial success.

You will develop your technical and conceptual skills required to become a competent accountant as well as abilities to analyse, criticise and synthesise various accounting and related principles, methods and techniques.

Key study areas include: financial accounting, management accounting, accounting theory, information systems/technology, auditing, taxation, finance, company law, and corporate law. You will also combine academic studies with professional practice experience related to accountancy.

**PROFESSIONAL RECOGNITION**
This conversion course enables graduates to meet the entry requirements for membership of CPA Australia, The Chartered Accountants Australia and New Zealand (CAANZ), and The Chartered Institute of Management Accountants in the U.K.

**CAREER OPPORTUNITIES**

Graduate Diploma of Business Administration

**ADMISSION REQUIREMENTS**
Successful completion of a recognised bachelor’s degree in a business or related field OR Successful completion of a recognised bachelor’s degree in an unrelated field plus a minimum of 6 months full-time employment experience in a managerial role. Applicants must provide documentation detailing their employment experience in the form of a curriculum vitae and two written referee reports in their application.

If you have no undergraduate or post graduate qualifications, you should apply for entry into one of the following programs:
> Graduate Certificate of Global Marketing
> Graduate Certificate of Human Resource Management
> Graduate Certificate of Strategic Management

**ABOUT THE COURSE**
This course builds and develops your knowledge, skills and understanding of strategic management. It is perfectly suited to professionals and industry leaders in both public and private sectors, along with those with experience in the business sector to add to their skill base to increase your employment and professional opportunities.

**STRUCTURE DESCRIPTION**
The course consists of 8 core units and is focused on the skills required to strategically manage at middle and upper levels of management.

**CAREER OPPORTUNITIES**
By completing this course, you may gain career opportunities in industries that offer middle to upper management-level positions in private companies and government.
Graduate Certificate of Global Marketing

**SATA CODE** – 1GC525
Waterfront Darwin, Online (Full Fee)

**UAC CODE** – 871071
Waterfront Darwin, Online (Full Fee)

**DURATION** – 1 year part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

This course develops your knowledge and skills applied to successful entrepreneurial ventures, business to business (B2B) marketing, business to customer (B2C) marketing and marketing in the service industry.

As a marketing specialist, you are responsible for generating key revenue in organisations. Marketing determines the products and services offered, prices, the communications (including advertising and promotion), as well as the channels of distribution and retail. Your skill set is also valuable in multiple areas of business including accounting and finance, human resources and management, taxation and law.

The importance of marketing has grown over the past decade due to competition and a renewed focus on creating favourable customer experiences. The marketing manager’s role has also grown due to increasing internationalisation and rapidly evolving technologies and social media, not to mention growing recognition of the need for sustainability and corporate accountability. All these changes have occurred during an era of increasing accountability.

The Graduate Certificate in Global Marketing explores modern marketing in an increasingly dynamic and international business environment.

**CAREER OPPORTUNITIES**

You may have career opportunities in marketing management, brand management, customer relationship management, market research, communications or public relations.

The Graduate Certificate of Global Marketing also provides you with a pathway into the Master of Business Administration, which offers further career progression opportunities.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor or a higher qualification in a business or related field;

OR

Successful completion of a recognised bachelor or a higher qualification in an unrelated field plus a minimum of 6 months full-time employment experience in a managerial role. Applicants must provide documentation detailing their employment experience in the form of a curriculum vitae and two written referee reports in their application;

OR

Consideration will also be given to applicants without tertiary qualifications who have at least three years appropriate professional experience in middle to higher level management. Applicants must provide documentation detailing their employment experience in the form of a curriculum vitae and two written referee reports in their application.
**Graduate Certificate of Human Resource Management**

- **SATAC CODE** – 1GC527
- **UAC CODE** – 871091
- **DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester
- **DURATION** – 1 year part-time

**ABOUT THE COURSE**

This course is designed to develop your knowledge and skills in human resource management. Key areas you will study include:

- communication
- negotiation
- conflict resolution
- international human resources management
- organisational behaviour
- contemporary management issues.

**CAREER OPPORTUNITIES**

You may gain career opportunities in middle to upper management positions in the private and public sectors. The Graduate Certificate of Human Resources Management also provides you with a pathway to the Master of Business Administration, which offers further career progression opportunities.

**ADDITIONAL ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor or a higher qualification in a business or related field

OR

Successful completion of a recognised bachelor or a higher qualification in an unrelated field plus a minimum of 6 months full-time employment experience in a managerial role. Applicants must provide documentation detailing their employment experience in the form of a curriculum vitae and two written referee reports in their application.

Master of Data Science

**SATA CODE** – 1CM590
Casuarina, Online (Full Fee)

**UAC CODE** – 873030
Casuarina, Online (Full Fee)

**DURATION** – 2 years full-time, 4 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

The Master of Data Science will further develop your technical and analytical skills needed to manage and interpret useful insights from massive data sets.

This qualification complements the following multi-disciplinary areas:

> computer science
> information technology
> information systems
> statistics
> mathematics
> engineering or a program with substantial quantitative competencies.

Your coursework will also include a project-based assessment allowing you to focus on what you are passionate about.

**CAREER OPPORTUNITIES**

Graduating from Master of Data Science may lead to career opportunities as a business analyst, data scientist, data analyst, data engineer or data manager.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or equivalent international qualification.

Master of Information Technology (Cyber Security)

**SATA CODE** – 1CM109
Casuarina, Online (Commonwealth Supported)

**SATA CODE** – 1CM609
Casuarina, Online (Full Fee)

**UAC CODE** – 823100
Casuarina, Online (Commonwealth Supported)

Casuarina, Online (Full Fee)

**DURATION** – 2 years full-time, 4 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

The Master of Information Technology (Cyber Security) complements your current information systems, information technology and computer science degree.

The course focuses on cyber security in the modern world. You will apply your knowledge in practical activities giving you the opportunity to work alongside industry leaders.

**PROFESSIONAL RECOGNITION**

The Master of Information Technology (Cyber Security) is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

**CAREER OPPORTUNITIES**

Career opportunities Graduating from this course may lead to a career as an ICT security specialist, network security analyst or security officer.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or equivalent international qualification.
Master of Information Technology (Information Systems and Data Science)

SATAC CODE – 1CM610
Casuarina, Online (Full Fee)

UAC CODE – 873110
Casuarina, Online (Full Fee)

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Information Technology (Information Systems and Data Science) complements your current information systems, information technology and computer science degree. The course focuses on information systems and data science and its effects in the modern world. You will explore the impacts of information systems and data science in the course and project work. Your studies will combine theory with practical activities giving you the opportunity to network with industry leaders.

CAREER OPPORTUNITIES

Graduating from this course may lead to a career as a business analyst, data scientist, data analyst, data manager and data engineer.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification.

Master of Information Technology (Software Engineering)

SATAC CODE – 1CM099
Casuarina, Online (Commonwealth Supported)

UAC CODE – 823120
Casuarina, Online (Commonwealth Supported)

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Information Technology (Software Engineering) complements your other information technology qualifications helping you broaden your skill set in a specialised field. Key areas include project and risk management, current industry practices, processes and methodologies and entrepreneurship. Your studies will combine theory with practical activities giving you the opportunity to network with industry leaders.

PROFESSIONAL RECOGNITION

The Master of Information Technology (Software Engineering) is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Your skillset and knowledge make you a competitive candidate in a specialised field in areas such as consultancy, startups, government departments, private companies, non-government organisations (NGO) and community groups.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification.
ABOUT THE COURSE

The Graduate Diploma of Data Science will further develop your technical and analytical skills needed to manage and gain useful insights from massive data sets. This qualification complements the following multi-disciplinary areas:

- computer science
- information technology
- information systems
- statistics
- mathematics
- engineering or a program with substantial quantitative competencies.

Your coursework will also include a project-based assessment giving you the freedom to focus on what you are passionate about.

CAREER OPPORTUNITIES

Graduating from this course may lead to a career as a business analyst, data scientist, data analyst, data engineer and data manager.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or a higher qualification, or the Graduate Certificate of Data Science.

ABOUT THE COURSE

The Graduate Certificate of Data Science will further develop your technical and analytical skills needed to manage and interpret useful insights from massive data sets.

> This qualification complements the following multi-disciplinary areas:

- computer science
- information technology
- information systems

- mathematics
- engineering or a program with substantial quantitative competencies.

Your coursework will also include a project-based assessment allowing you to focus on what you are passionate about.

CAREER OPPORTUNITIES

Graduating from this course may lead to careers as a business analyst, data scientist, data analyst, data engineer and data manager.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification with a major in computer science, information technology, information systems, mathematics, engineering, or a program with substantial quantitative competencies.

Consideration will also be given to applicants who have at least five years appropriate professional experience. Applicants must provide further documentation detailing their employment experience in the form of a curriculum vitae with their SATAC application.
Graduate Certificate of Information Technology (Cyber Security)

**ABOUT THE COURSE**

The Graduate Certificate in Information Technology (Cyber Security) complements your other information technology qualifications and allows you to specialise in cyber security in the modern world.

You will apply your knowledge in practical activities giving you the opportunity to work alongside industry leaders.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career as an ICT security specialist, network security analyst or security officer.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or equivalent with a major in computer science, information technology, information systems, statistics, mathematics, engineering, or a program with substantial quantitative competencies.

Consideration will also be given to applicants who have at least five years’ appropriate professional experience. Applicants must provide further documentation detailing their employment experience in the form of a curriculum vitae with their application.
Master of Digital Learning Futures

**SATAC CODE** – 1CM567
Casuarina, Online (Full Fee)

**UAC CODE** – 873040
Casuarina, Online (Full Fee)

**DURATION** – 2 years full-time, 4 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

Advancements and innovations with digital technology are not stopping now! The Master of Digital Learning Futures can help you get ready for the next wave of global transformation. This innovative, industry-relevant program investigates the dynamics of the digital era. What new ‘smarts’ are on the horizon and what skills are needed to engage effectively within the digital paradigm? How might we learn next? How might we teach?

The Master of Digital Learning Futures is an inter-disciplinary course that probes the possibilities of digital media and how it can optimise learning.

The course is suited to those working or aiming to work in educational settings, creative industries, software development, learning design, e-learning and related fields. Based on a solid foundation of core units, you’ll have opportunities for research and internships, as well as the flexibility to choose from electives in new media production skills, web development, programming and systems management.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to a range of roles, including in teaching or as a teaching centre technology officer, instructional designer, education software developer, learning and development specialist or e-learning specialist.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or a higher qualification.

---

Master of Education (Global Learning)

**SATAC CODE** – 1CM076
Casuarina, Online (Commonwealth Supported)

**UAC CODE** – 823050
Casuarina, Online (Commonwealth Supported)

**DURATION** – 1 year full-time, 2 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

The Master of Education (Global Learning) focuses on globalised learning and prepares you for research in this area.

This course aims to meet the professional development needs of education policy makers, practitioners, school teachers and principals and researchers working across Australia and in the Asia-Pacific.

You are encouraged to customise this course to meet personal, organisational, workplace and community interests. Key areas you could base your research on includes: international education, education policy, higher education, vocational education, literacy and language, English language teaching in Asia, educational leadership and management, Indigenous education, digital learning futures, education for all, technical and vocational education and training, and adult education.

During this course, you will strengthen further your analytical thinking, collaborative learning, project management, and transformative practice skills in local and global settings. You are also encouraged to apply what you learn in practical contexts during your studies in order to build on your work experience.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities as education policymakers, practitioners, school teachers and principals and researchers working across Australia and in the Asia-Pacific.

**ADMISSION REQUIREMENTS**

Successful completion of one of the following:

a) a recognised four-year degree in a field related to education

b) a recognised three-year degree plus a graduate certificate, graduate diploma or honours degree of which at least one must be in a field related to education

c) a qualification or qualifications and professional experience deemed equivalent to the above.
Master of Teaching

SATAC CODE – EARLY CHILDHOOD/PRIMARY – 1CM077
Casuarina, Online

UAC CODE – EARLY CHILDHOOD/PRIMARY – 823200
Casuarina, Online

UAC CODE – PRIMARY – 823250
Casuarina, Online

UAC CODE – SECONDARY – 823240
Casuarina, Online

DURATION – 2 years full-time, 4 years part-time

ABOUT THE COURSE

If you already hold a bachelor’s degree in a field other than education, the Master of Teaching can help you to become a teacher in two years. At CDU, you can study your Master of Teaching online or on campus, part-time or full-time. This makes it easier to study where, when and how it suits you. On graduating, you’ll be eligible to register as a teacher in all states and territories in Australia. The Master of Teaching qualifies you to teach early childhood (birth to year 7), primary (transition to year 7) or secondary (year 8 to 12). Before you start studying, you’ll need to choose the stream that suits your career goals and interests.

The course prepares you for new and changing roles as an educator. You will develop continuing awareness of the environmental and cultural influences on teaching and learning. You’ll also explore the needs of learners and communities with diverse linguistic and cultural orientations, including Indigenous learners. As a teacher, your levels of personal literacy and numeracy will be broadly equivalent to the top 30% of the Australian population.

PROFESSIONAL RECOGNITION

The Master of Teaching has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

The Early Childhood and Primary Teaching stream in this program is approved with the Australian Children’s Education and Care Quality Authority (ACECQA).

Graduates of the course will be eligible for teacher registration across all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria such as the National Literacy and Numeracy test for Initial Teacher Education aligned with Teacher Registration Requirement, English proficiency and suitability to teach).

Before applying for admission, students intending to seek employment should have the relevant State/Territory employment authority (eg State or Territory Department of Education, or Catholic Education Office) confirm their eligibility and suitability for employment.

CAREER OPPORTUNITIES

Graduating with Master of Teaching prepares you to teach in early childhood, primary or secondary school settings. It also prepares you to work in associated educational areas such as:

- curriculum development
- educational planning
- educational research
- policy development.

ESSENTIAL REQUIREMENTS

Criminal History Check

You must have cleared a Police Check and/or Working with Children Check before you can undertake your practical placements. If your Police Check and/or Working with Children Check are not cleared by the education sector, you will not be able to undertake practice teaching placements and therefore, will not meet the requirements of the course.

ADMISSION REQUIREMENTS

Early Childhood - Successful completion of a recognised bachelor degree or equivalent international qualification in either early childhood, primary or an area relevant to early childhood/primary curriculum, such as art, music, technologies, English, health and physical education, mathematics, science or humanities and social sciences (e.g. history and geography).

Primary - Successful completion of a recognised bachelor degree or equivalent international qualification with at least one-year equivalent full-time study in an area relevant to primary curriculum, such as art, music, technologies, English, health and physical education, mathematics, science or humanities and social sciences (e.g. history and geography).

Secondary - Successful completion of a recognised bachelor degree or equivalent international qualification comprising of a major sequence and a minor sequence in two of the following secondary teaching areas: English, legal studies, Indigenous studies, accounting, business studies, economics, geography, history, mathematics, languages other than English, music, technologies, visual arts, chemistry, biology/ecology, environmental science, physics and health and physical education.

A major sequence is defined as one quarter of a three-year degree and a minor sequence is defined as one sixth of a three-year degree.

Note: if you have completed a major sequence in a teaching area, but do not meet the minimum requirements of one sixth in a second teaching area are required to contact Student Central on 1800 061 963 or student.central@cdu.edu.au for advice before submitting your application to study.

ADDITIONAL ADMISSION REQUIREMENTS

Additional Requirements: applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.
During this course, you will strengthen further your analytical thinking, collaborative learning, project management, and transformative practice skills in local and global settings. You are also encouraged to apply what you learn in practical contexts during your studies building real-world experience.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as education policymakers, practitioners, school teachers and principals, and researchers working across Australia and in the Asia-Pacific.

ADMISSION REQUIREMENTS

Successful completion of one the following:

a) a recognised four-year degree in a field related to education
b) a recognised three-year degree plus a Graduate Certificate, Graduate Diploma or Honours degree of which at least one must be in a field related to education
c) a qualification or qualifications and professional experience deemed as being equivalent to the above.

**UAC CODE – ELECTRICAL AND ELECTRONICS – 873080**
Casuarina, Online (Full Fee)

**UAC CODE – MECHANICAL – 873090**
Casuarina, Online (Full Fee)

**DURATION** – 2 years full-time, 4 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

The Master of Engineering will build on your previous knowledge and encourage you to develop a deeper and integrated understanding of the scientific and engineering principles of your engineering discipline. You will also be prompted to build leadership and research skills for the development of engineering or research projects.

This course specifically offers hands-on, practical experience, which will help you in your future career as a professional engineer. Special emphasis is placed on the themes of sustainability, creativity, teamwork, design, research and leadership. This course was developed in consultation with and is supported by, industry leaders. You’ll graduate with the foundation of engineering knowledge which directly aligns with international industry requirements.

**As a professional civil and structural engineer,** you will continuously be challenging traditional civil and construction methods with creativity and innovation to help design and manage structures for the modern world. Key areas include structures, water resources, roads and traffic, bridges and marine structures.

**As a professional electrical and electronics engineer,** you will be able to contribute significantly to the design, automation and control of devices which make modern life convenient. You will be involved in electronics, telecommunications, biomedical applications, power generation and distribution, including renewable energy. You will develop skills in communication methods, electronic control systems and power engineering, together with a background of sustainable engineering principles.

**As a professional mechanical engineer,** you will be able to make significant contributions to the design and development of machinery to improve transportation, and to provide affordable solutions for manufacturing and industrial production. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

**Note:** This course is currently under review. Please check the CDU website for availability and updated course information.

**PROFESSIONAL RECOGNITION**

**ENGINEERS AUSTRALIA**
The Master of Engineering is accredited by Engineers Australia at the level of professional engineer and therefore recognised internationally under the Washington Accord.

**CAREER OPPORTUNITIES**

**Graduating from the civil and structural engineering major** of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

**Graduating from the electrical and electronics engineering major** of this course may lead to professional opportunities in areas such as electronics, renewable energy, power generation, storage and distribution, process control, mining, oil and gas, consultation, and project management.

**Graduating from the mechanical engineering major** of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, mining, oil and gas, consultation, and project management.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised Bachelor of Engineering, Successful completion of a recognised Bachelor of Engineering, Bachelor of Engineering Science, Bachelor of Engineering Technology, Bachelor of Technology or equivalent in civil and structural, electrical and electronics, mechanical engineering or an approved equivalent discipline.

**Note:** applicants may only study in the stream that matches the engineering area of their undergraduate degree.
ABOUT THE COURSE

The Master of Environmental Management complements existing science qualifications if you are a graduate starting out or an established professional looking to broaden or deepen your professional skill set. You will focus on the principles and practices of environmental management, particularly in the context of wet-dry and semi-arid tropical ecosystems and arid landscapes. The topic areas covered by CDU’s Master of Environmental Management include livelihoods, spatial science and analysis, and ecology and management of natural resources. Unit selection is flexible between and within these areas. Professional placements and remote Australia and international intensives are also available.

The broad skills, concepts and applications explored in this course are also relevant even if you are working in other ecosystems, and includes a focus on the social context within which environmental management takes place.

The course is flexible and caters to your individual needs. It balances required knowledge and technical skills, develops conceptual skills, and challenges you to apply them to natural resource management within its complex social context.

PROFESSIONAL RECOGNITION

Graduates may seek professional membership to associations such as the Australian Rangeland Society, Ecological Society of Australia and Environment Institute of Australia and New Zealand.

CAREER OPPORTUNITIES

Graduating from this course may lead to a career in areas of research or environmental and natural resources management, within regional natural resource management agencies, environmental NGOs, Indigenous natural resources management organisations, consultancy firms and the resources sector.

ADMISSION REQUIREMENTS

Successful completion of on of the following:

> a recognised bachelor degree or equivalent international qualification in a related field
> a recognised bachelor degree in an unrelated field plus completion of graduate diploma in a relevant field such as biological science, earth science, environmental engineering, environmental science, geography, geographic information or sustainability studies.

The Graduate Certificate in Spatial Science complements your current science qualifications and will further develop your professional skill set. This course is designed for professionals, across a wide-range of vocations, seeking to gain expertise in spatial science at postgraduate level.

This stand-alone course belongs to a pathway between graduate certificate, graduate diploma and Master of Environmental Management.

You are not expected to have previous experience in the spatial science field; however, if you do have some background, the repeatable placement unit allows the inclusion of project work in the unit selection.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in government, private companies and non-government organisations (NGO) as managers, technicians, project managers, maintenance officers, surveyors and geospatial modellers.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor or a higher qualification in a relevant field, such as biological science, earth science, environmental engineering, environmental science, geography, geographic information, sustainability studies or other disciplines as deemed appropriate.

Applicants who hold a degree not in the disciplines listed above may be considered on the basis of relevant professional experience and may be requested to submit a curriculum vitae (CV).
**Master of Arts**

| SATAC CODE | 1CM098  
| SATAC CODE | 1CM598  
| UAC CODE | 823270  
| UAC CODE | 873270  

**ABOUT THE COURSE**

The Master of Arts is a flexible, postgraduate degree that allows you to undertake a bespoke research project on a topic of your choice. It will equip you with deep knowledge to bolster your CV, demonstrate your expertise and prepare you for a PhD should you wish to continue your studies.

At CDU, you can choose a research topic that aligns with one of four focus areas, three of which explore unique perspectives on Indigenous Australia.

You’ll benefit from access to an expert, dedicated research supervisor, who will support you to think critically and creatively. You’ll be guided to shape a research thesis or piece of coursework that is unique, carefully considered and robust in its findings.

In a world where opinions are rife, but facts and considered thought may not be, your ability to critically evaluate ideas, concepts and information will set you apart.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or a higher qualification.

---

**Master of Emergency and Disaster Management**

| SATAC CODE | TBC  
| UAC CODE | TBC  

**DURATION** – 2 years full-time, 4 years part-time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

The Master of Emergency and Disaster Management gives you the skills and knowledge to work as an emergency and disaster management professional. This in-depth, highly unique program is delivered both online and on campus from Darwin, which is Australia’s gateway to Indonesia and Southeast Asia.

The course draws on research, insights and learnings from a geographic region that is unarguably the most prone to, and affected by, various types of disasters. The course also carries a strong focus on informed practice and research, as well as multi-sectoral approaches. During the course you will:

> Gain the essential knowledge and skills required to lead and manage all phases of the disaster management cycle
> Learn how to confidently apply your academic studies to practical responses
> Learn how to apply your skills, knowledge and experience in a way that’s appropriate, collaborative and productive in the Asia Pacific region and beyond
> Have the opportunity to tailor your course by choosing from a range of specialised electives
> Acquire the technical, managerial and leadership skills to progress your current career or take a new professional direction
> Be able to report on your professional experience in the academic sphere of this rapidly evolving sector

The Master of Emergency and Disaster Management is supported by nationally and internationally respected leading industry partners. The Graduate Diploma and Graduate Certificate in Emergency and Disaster Management are also nested within the master’s degree course as entry and exit pathways to this program.

**Note:** This course is currently under review. Please check the CDU website for availability and updated course information.

**CAREER OPPORTUNITIES**

The Master of Emergency and Disaster Management complements your resume by broadening your skill set and it prepares you for management and leadership roles.

Graduating from this course may lead to career opportunities that focus on emergency and disaster management from prevention to recovery. Your qualifications could land you a role in health, environment, social wellbeing, humanitarian assistance and management.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or a higher qualification in a relevant field.
Successful completion of a recognised bachelor degree or a higher qualification in a relevant field will set you apart. It may not be your ability to critically evaluate ideas, concepts and that is unique, carefully considered and robust in its findings. You'll be guided to shape a research thesis or piece of coursework under the supervision and support from university research, public policy researchers, policy developers and evaluators, and teaching staff.

You will build the necessary knowledge and skills to engage in effective and ethical research for policy development. This course strengthens your in-depth understanding of the unique challenges and characteristics of “doing policy” in northern contexts. You will explore a variety of political, cultural and social theory approaches to public policy and gain a solid understanding of evidence-based policy development, evaluation, and empirical research theories and methodologies. Choose from specialist electives that will develop your public policy knowledge in an area such as:

- Indigenous policy
- international education
- governance and management
- health
- emergency and disaster management
- environmental management.

You will apply this new knowledge in an important public policy research project of your choice. You will receive one-on-one supervision and support from university research, public policy researchers, policy developers and evaluators, and teaching staff.

The Master of Public Policy is an opportunity to undertake in-depth study in the field of public policy that culminates in a research project that seeks to explore issues of research in policy related fields. With a focus on northern Australia and its relation to South-East Asia, you'll explore the policy issues in the region’s remote contexts and the significance of Indigenous peoples and cultures, and its proximity to South-East Asia.

About the course

The Master of Psychology (Clinical) prepares you for your career as a specialist in the health services. Your studies are a combination of coursework, placements, and a thesis to develop and strengthen your skills and knowledge so you are a confident and experienced practitioner ready to make a positive change in your community. Key areas of focus include interviewing and intervention strategies, biological and neuropsychological perspectives on disorders, psychological assessment and therapies, ethics and issues in professional practice, as well as advanced research methods.

After you accept your offer into this course, you must register with AHPRA as a provisional psychologist before the study semester starts.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

Professional recognition

This course is accredited by the Australian Psychology Accreditation Council (APAC) and is approved by the Australian Psychological Society College of Clinical Psychologists.

Career opportunities

Graduating from this course will prepare you with the skills and knowledge to move into various psychology-related fields in government, private companies, non-government organisations and community groups.

Admission requirements

Successful completion within the last 10 years of an APAC accredited Honours year in Psychology with at least Honours upper 2A.

Additional Requirements: all applicants are required to provide two referee reports, a cover letter and curriculum vitae, and a letter addressing why they are interested in the CDU course. Selected applicants will be further contacted by CDU to attend an interview which may be held in person or by Skype.
The Master of Social Work (Qualifying) provides you with the knowledge and skills required for employment as an accredited social work practitioner. You will learn to work with individuals, families, groups and communities to create positive change. You will gain specific practical skills for working effectively and safely in situations where resources are limited, including remote and regional locations. You will receive support and access to a broad and coherent body of knowledge in a range of contexts, at the master’s degree level. Course themes include multidisciplinary and intercultural practice, social justice, research and advocacy, and working in virtual contexts.

PROFESSIONAL RECOGNITION
As a graduate, you will be eligible for membership with the Australian Association of Social Workers (AASW).

CAREER OPPORTUNITIES
The qualification prepares you to engage, advocate and develop sound intervention plans for the vulnerable and marginalised members of society.

Graduates of this course engage with social work curriculum, build networks, gain knowledge and apply that knowledge through field placement as accredited by the Australian Association of Social Workers.

Completing this course may lead to career opportunities such as case manager, youth advocacy, social policy officer and disability services officer.

This course develops your knowledge and skills for roles including policy, community work and social research.

Potential employment opportunities may include government and the not-for-profit sector in Australia and abroad. For example, the Australian qualification of Social work is recognised in the UK. Many Australian trained social workers can practice in the UK, Africa and the Pacific.

ADMISSION REQUIREMENTS
Successful completion of a recognised bachelor degree in any field. Applicants must have the equivalent of one-year full-time study in behavioural or social science units, whether this be included in the completed degree or in the form of additional qualifications at diploma or above level.

If you do not meet the requirement of one-year full-time study in behavioural or social science you should apply for the Diploma of Social Care.

**DOMESTIC INTAKE** – Semester 1, Semester 2

**DURATION** – 6 months full-time, 1 year part-time

**ABOUT THE COURSE**

The Graduate Certificate of Arts is a flexible postgraduate course that prepares you for further studies or research. The course will diversify and grow your knowledge in cultural and creative spheres.

You’ll choose to specialise in one of five focus areas, four of which carry a strong focus on Indigenous research, engagement and language.

Whether you want to consolidate your expertise or forge a new career path, this degree will equip you with the analytical and critical thinking skills you need to succeed.

At CDU, you’ll explore unique perspectives on the contemporary issues facing Indigenous Australia, Northern Australia and South-East Asia. Our lecturers are leaders in their fields and are ready to guide and mentor you.

**CAREER OPPORTUNITIES**

A Graduate Certificate of Arts will open up opportunities for you by adding a new dimension of knowledge and skills to your existing qualification. It is likely to make you ready for work in the NT by giving your qualifications and experience a local edge. It also allows you to access locally specific, Indigenous or creative skills and knowledge development without committing to longer periods of study.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or a higher qualification.

Consideration will also be given to non-graduates who have at least five years appropriate professional experience.

Applicants may be asked to provide further documentation detailing their employment experience, roles and achievements in the form of a curriculum vitae.
Graduate Certificate of Emergency and Disaster Management

UAC CODE – 871050
Casuarina, Online (Full Fee)

🎓 DURATION – 1 year part-time

考えるpires – Semester 1, Semester 2

ABOUT THE COURSE

Based in the capital of Australia’s Northern Territory, at the centre of the ‘Top End’ and Australia’s gateway to Indonesia and Southeast Asia, this highly unique postgraduate program focuses on a geographic region that is unarguably the most prone to, and affected by, various types of disasters.

As an emergency and disaster management specialist, you will have the skills and ability to apply your knowledge and experience appropriately, collaboratively and productively in this vulnerable region and other parts of the world.

You will have the essential knowledge and skills required to manage all phases of the disaster management cycle. You will also confidently apply your academic studies to practical responses and report on your professional experience into the academic sphere of this rapidly evolving sector.

This in-depth course promotes its uniqueness in three areas:
> its focus on Asia-Pacific Region
> its informed practice and research
> its multi-sectoral approach.

Your managerial and leadership skills to either assist in your current career or help with new career pathways.

This course is a pathway for advanced studies and is supported by nationally and internationally respected industry partners.

The Graduate Diploma and Graduate Certificate in Emergency and Disaster Management are entry and exit pathways for the master’s degree course.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Graduating from Graduate Certificate in Emergency and Disaster Management may lead to career opportunities that focus on emergency and disaster management from prevention to recovery. Your qualifications could land you a role in health, environment, social wellbeing, humanitarian assistance and management.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or a higher qualification in a relevant field.

Consideration will be given to applicants who have a minimum diploma or above and at least five years relevant professional experience.

Applicants must provide further documentation detailing their employment experience (i.e. work experience certificate from an employer/s) and outlining their roles and achievements in the form of a curriculum vitae and a statement of purpose. The statement of purpose should address why you would like to be admitted into the course, career goals and aspirations and benefits the course will provide you.
The course creates a solid foundation for translating your academic development into practical responses, and to apply lessons learned from your professional experience to academic thinking. You will develop your leadership and managerial skills to extend your career opportunities.

CAREER OPPORTUNITIES
Most students undertaking this course are from the police, fire and emergency sector and study to acquire skills and knowledge that will further their career in the sector.

ADMISSION REQUIREMENTS
Successful completion of a recognised bachelor degree or a higher qualification in a relevant field.

Consideration will be given to applicants who have a minimum diploma or above and at least five years relevant professional experience.

Applicants must provide further documentation detailing their employment experience (i.e. work experience certificate from an employer/s) and outlining their roles and achievements in the form of a curriculum vitae and a statement of purpose. The statement of purpose should address why you would like to be admitted into the course, career goals and aspirations and benefits the course will provide you.
Master of Laws

- **SATAC CODE** – 1CM568
- **UAC CODE** – 873132
- **DURATION** – 1 year full-time, 4 years part-time
- **DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

The Master of Laws is a 100% online course that focuses on international and transnational legal issues, particularly in the emerging Asia-Pacific region. The program explores growing harmonisation in the region, including the network of trade and other arrangements created under the umbrella of ASEAN. It can help you to better understand the Asia Pacific’s comparative and transnational law and legal issues.

During the Master of Laws, you will study:
- transnational law
- comparative legal systems
- finance and securities law
- transnational intellectual property law
- transnational family law
- international criminal
- human right law

The course is designed for practising lawyers who hold an undergraduate law degree or a Juris Doctor degree who wish to complete further education in one or more of the above areas of law to advance their knowledge of legal issues facing the Asia Pacific region.

The course is offered online only. You will need access to an internet service with appropriate bandwidth to view or download course content and to engage online with staff and other students.

**CAREER OPPORTUNITIES**

Studying a Master of Laws typically improves your career opportunities in the competitive legal profession, as well as in law-related fields. It may also provide a pathway to further postgraduate study.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree in law or a related discipline. Graduates who hold a recognised bachelor degree in another discipline and have significant relevant professional experience may be considered.

Applicants may be asked to provide a curriculum vitae (CV).
Master of Health Research

SATAC CODE – 1CM601
Casuarina, Online (Full Fee)

UAC CODE – 873230
Casuarina, Online (Full Fee)

DURATION – 1.5 years full-time, 3 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Health Research will equip you with advanced knowledge and skills in health research design and practice, including the ability to plan and implement a substantial research project. Unique features of the course include learning from acclaimed Menzies School of Health Research professionals and supervisors in the specialist areas of Indigenous health, public health and global health.

You will acquire theoretical and practical capabilities in epidemiology; biostatistics; quantitative and qualitative research methods. Following the completion of the Master of Health Research you may proceed, with approval, to Higher Degree Research (PhD) training.

Career opportunities for graduates include the areas of health research and professional public health practice.

This course requires a high level of academic reading and writing. If you are not confident in your academic literacy skills, you are encouraged to fully utilise the University’s academic support services.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in non-government organisations (NGOs) and government sectors in areas such as: health research; professional health practice; health policy and planning; epidemiology; communicable and chronic disease control; community development and aid work.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or graduate diploma in a relevant area, such as public health, health science, social science, primary health care, medicine, or health promotion.

Applicants who have successfully completed a bachelor degree in a non-related area who have also successfully completed an honours degree or graduate diploma are also eligible to apply.
Master of Medical Laboratory Science

**SATAC CODE** – 1CM607
- Casuarina (Full Fee)

**UAC CODE** – 873260
- Casuarina (Full Fee)

**DURATION** – 2 years full-time, 4 years part-time

**DOMESTIC INTAKE** – Semester 1

**ABOUT THE COURSE**

The Master of Medical Laboratory Science is a new course that will provide you with the necessary knowledge, skills and workplace experience to work in diagnostic pathology and assist with diagnosis, monitoring and treatment of disease. You will gain knowledge and skills in the areas of haematology, microbiology, clinical chemistry, anatomical pathology and serology.

All graduates will be eligible to apply directly to AIMS for professional recognition.

**PROFESSIONAL RECOGNITION**

This course is currently in the qualifying phase of accreditation with the Australian Institute of Medical Scientists (AIMS), however graduates are eligible to apply for membership with AIMS.

**CAREER OPPORTUNITIES**

Graduates may work in a range of areas such as diagnostic pathology, research, forensics science as well as health management, public health departments, educational institutes and the pharmaceutical industry.

**ESSENTIAL REQUIREMENTS**

A criminal history check will be required before undertaking any placements.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree in biomedical or medical health disciplines.

---

Master of Midwifery

**SATAC CODE** – 1CM596
- Online (Full Fee)

**UAC CODE** – 873142
- Online (Full Fee)

**DURATION** – 1.5 years full-time, 3 years part time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

The Master of Midwifery course is designed to extend your knowledge gained through midwifery clinical practice and develop your research appraisal skills. It is expected that you will already be employed or have recent experience in a clinical setting and will undertake assessments that have a direct application to your professional practice and context.

The course has a focus on cultivating research skills in a supported partnership with an experienced midwife academic. During the final semester, you will either undertake a systematic review or a project to address a ‘real world’ issue in your individual practice setting. The project will be conducted entirely within your practice setting, and your findings will be disseminated to all relevant stakeholders at the clinical site.

The Master of Midwifery is a coursework qualification, it does not lead to register as a Nurse or Midwife in Australia.

**CAREER OPPORTUNITIES**

A Master of Midwifery can lead to advanced or specialised clinical roles. Graduates interested in research can progress from a Master of Midwifery to higher degrees by research.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or equivalent international qualification. Applicants must also hold current registration as a registered midwife with the Australian Health Practitioner Regulation Agency (AHPRA).

**ADDITIONAL ADMISSION REQUIREMENTS**

Applicants must provide details of their post-degree work experience in a midwifery setting in their SATAC application.
Successful completion of a recognised bachelor degree in health or science is desirable. A criminal history check will be required before undertaking any placement. Graduates may work in a range of areas such as diagnostic clinical chemistry, anatomical pathology and serology. The Master of Medical Laboratory Science is a new course that will provide you with the necessary knowledge, skills and professional recognition.

**CAREER OPPORTUNITIES**

Graduates of the course may be eligible to apply to the Nursing and Midwifery Board of Australia for endorsement as a Nurse Practitioner. See the Nursing and Midwifery Board of Australia website for further details regarding regulatory requirements.

**ESSENTIAL REQUIREMENTS**

Students may be required to undertake a Criminal History Check and Working with Children Check prior to undertaking supernumerary integrated professional practice.

**ADMISSION REQUIREMENTS**

All applicants must:

a) hold current and unrestricted registration as a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA)

b) have completed a graduate certificate or higher degree in their nursing clinical field,

c) provide a curriculum vitae demonstrating a minimum of two-years of full-time equivalent (FTE) employment as a registered nurse in a specified clinical field and a minimum of an additional two-years FTE of recent advanced nursing practice in the same clinical field.

d) provide evidence from an approved health care organisation that support the applicant and the clinical requirements, including supervision and clinical support for a minimum of 300 hours of supernumerary integrated professional practice during the course.

---

**Master of Nursing (Nurse Practitioner)**

**SATAC CODE** – 1CM097  
Online (Commonwealth Supported)

**SATAC CODE** – 1CM597  
Online (Full Fee)

**UAC CODE** – 823152  
Online (Commonwealth Supported)

**UAC CODE** – 873152  
Online (Full Fee)

**DURATION** – 2 years part-time

**DOMESTIC INTAKE** – Semester 1

**ABOUT THE COURSE**

The Master of Nursing (Nurse Practitioner) course focuses on developing and enhancing your capability in core nurse practitioner knowledge and skills in line with the Standards of Practice set by NMBA. This includes, but is not limited to:

> expanded practice
> professional autonomy and accountability, and
> clinical leadership.

The course builds on the knowledge you will have already gained through professional experience and postgraduate studies. It has a focus on person-centred care that is culturally responsive, to be applied within primary health care or any other healthcare settings where the Nurse Practitioner provides care.

**Intensives (on campus)**

This course is available online with compulsory on-campus intensives. You are required to participate in two intensive weeks over the duration of the course. The intensives are undertaken early in semester one each year, both of which take place at our Sydney campus. Confirmation of the time will be communicated at a later date.

Students will need to meet the cost of attending intensives themselves; including travel and accommodation.

**Clinical requirements**

In this course you are required to undertake a minimum of 300 hours supernumerary integrated professional practice (IPP). CDU students on clinical placements are registered with AHPRA. Due to this, you are required to declare to the University if you have an impairment that may detrimentally affect your capacity to undertake clinical practice or place the public at substantial risk of harm. The information you provide may be disclosed to AHPRA, otherwise it will remain confidential.

**Clinical Support Team (CST)**

Chosen CST members and the clinical mentor (CM) must be employed at a minimum of 0.5 full-time equivalent (FTE) to enable consistent supervision and assessment in practice; casual staff are not eligible as CST members.

The nurse practitioner (NP) student will be working closely with their team to expand and further develop their clinical skills, decision-making, critical thinking, diagnostic reasoning, patient management, and professional practice.

It is desirable that the members of the CST have at least one of the following: educational training, experience supervising previous NP students, or experience of supervising registrar or medical students as outlined in the CST agreement form. This can be found in the Clinical Requirements SNNP01 assessment pack.
Master of Professional Psychology

**SATAC CODE** – 1CM608
Casuarina, Online (Full Fee)

**UAC CODE** – 873240
Casuarina, Online (Full Fee)

**DURATION** – 1 year full-time, 2 years part-time

**DOMESTIC INTAKE** – Semester 1

**ABOUT THE COURSE**

This course is designed to enable students, after completing a four-year sequence in psychology, to become a registered psychologist but without the need to specialise immediately, compete for the limited places in specialised masters courses, or exceed a high 2A in fourth year. That is, this course enables psychology students to complete the sequence that is sometimes called the 5 + 1 pathway.

This course does entail some other unique features. First, the students will be exposed to a greater diversity of clients than are students at many other universities. Second, students will be granted opportunities to utilise some of the latest advances in psychology, such as NIRSIT, used to engage in brain imaging.

The course includes coursework and practicum. Students will need to complete an additional year of supervised placement beyond graduation to be eligible for psychology registration.

**PROFESSIONAL RECOGNITION**

This course will be recognised by APAC as the fifth year of the 5 + 1 pathway to registration.

**ADMISSION REQUIREMENTS**

Successful completion within the last 10 years of an APAC accredited 4 year, or equivalent, sequence in Psychology at an Australian University.

**ADDITIONAL ADMISSION REQUIREMENTS**

Applicants will be contacted by CDU to attend an interview which may be held in person or by Skype. Applicants are also required to submit a personal statement addressing their commitment and character to the course.

---

**ABOUT THE COURSE**

The Master of Public Health (MPH) will equip you with the tools to investigate, critique and respond to real world population health problems in local and global contexts. Unique features of the course include learning from acclaimed Menzies School of Health Research professionals in the specialist areas of Indigenous health, global health, public health practice and health research.

You will acquire advanced knowledge and skills in:

- Epidemiology
- Biostatistics
- Quantitative and qualitative research methods.

You will learn to analyse and interpret population health information, evaluate and design public health interventions and formulate strategies to address complex health and social issues.

You will apply public health approaches to:

- Health promotion
- Disease control
- Health systems
- Health policy
- Decision making
- The environment and the sustainable development goals.

You will also have the opportunity to consolidate your learning by undertaking a research project supervised by an expert in the field.

Graduates have gone on to secure employment in national and international health services and government ministries; as well as in international health, development and humanitarian organisations and universities. They have become public health leaders, program planners, analysts, evaluators, health policy officers and professional practitioners. Our MPH graduates also continue on academic pathways to careers as successful health researchers.

This course requires a high level of academic reading and writing. If you are not confident in your academic literacy skills, you are encouraged to fully utilise the University’s academic support services.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities in non-government organisations (NGOs) and government sectors in areas such as: health research; professional health practice; health policy and planning; epidemiology; communicable and chronic disease control; community development and aid work.

**ADMISSION REQUIREMENTS**

Successful completion of a bachelor degree or graduate diploma in a relevant area, such as public health, health science, primary health care, medicine, social science or health promotion.

Applicants who have successfully completed a bachelor degree in a non-related area who have also successfully completed an honours degree or graduate diploma are also eligible to apply.
Graduate Diploma of Creative Therapies

SATAC CODE – 1GD537
Casuarina, Online (Full Fee)

UAC CODE – 872090
Casuarina, Online (Full Fee)

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma of Creative Therapies will provide you with a sound theoretical and practical foundation in creative therapies - therapies that include art, play, dance, drama, and music. Specifically, this course has been designed to equip practitioners who work with diverse client groups to utilise creative therapies in your practice. This course also imparts the necessary skills in research, evaluation, and professional practice to enable you to choose suitable therapies and to accommodate the unique challenges of each client. The course blends Western approaches with Aboriginal healing practices and knowledges.

The course is designed for people working in health, community, justice, education, and cognate fields as well as individuals who work in Aboriginal and cross-cultural communities.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor or equivalent international qualification, or a Graduate Certificate of Creative Therapies from Charles Darwin University.

Graduate Diploma of Health Research

SATAC CODE – 1GD034
Casuarina, Online (Commonwealth Supported)

UAC CODE – 1GD534
Casuarina, Online (Full Fee)

UAC CODE – 822040
Casuarina, Online (Commonwealth Supported)

UAC CODE – 872040
Casuarina, Online (Full Fee)

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma of Health Research will equip you with advanced knowledge and skills in health research design and practice. Unique features of the course include learning from acclaimed Menzies School of Health Research professionals in the specialist areas of Indigenous health, public health and global health. You will acquire theoretical and practical capabilities in: epidemiology; biostatistics; quantitative and qualitative research methods. On completion you can articulate to a Master of Health Research and undertake a supervised research project; and then proceed, with approval, to Higher Degree Research training. Alternatively, you can articulate to a Master of Public Health. Career opportunities for graduates include the areas of health research and professional public health practice.

This course requires a high level of academic reading and writing. If you are not confident in your academic literacy skills, you are encouraged to fully utilise the University’s academic support services.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in non-government organisations (NGOs) and government sectors in areas such as: health research; professional health practice; health policy and planning; epidemiology; communicable and chronic disease control; community development and aid work.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification. Registered nurses who are graduates of a hospital-based program are also eligible for entry.

<tr>
<td><strong>DOMESTIC INTAKE</strong> – Semester 1, Semester 2</td>
<td></td>
</tr>
</tbody>
</table>

**ABOUT THE COURSE**

The Graduate Diploma of Mental Health is designed to extend knowledge gained through your undergraduate health studies and to further develop your foundational research skills. The course addresses:
- care delivery processes
- critical reflection on mental health practice
- the effects of policy and politics on health care provision, access and individual agency.

Cultural safety principles underpin the course design and reinforce the ways in which quality and safety are central to health care. It is expected that you will already be employed or have recent experience within the health sector. As part of this course, you will undertake assessments which have direct applications to your professional practice and context.

**CAREER OPPORTUNITIES**

The Graduate Diploma of Mental Health provides a sound basis for specialist clinical practice in the field of mental health and further career advancement.

**ADMISSION REQUIREMENTS**

Successful completion of a relevant bachelor degree or equivalent international qualification in health or allied health studies. All applicants must provide details of their post-degree work experience with mental health in their relevant industry field in the SATAC application.

</tbody>
</table>

**ABOUT THE COURSE**

The Graduate Certificate of Nursing is designed to extend knowledge gained through your undergraduate nursing studies and to further develop your foundation research skills. The course provides evidence-based practice, leadership skills and principles, and managing professional development. Principles inherent in a cultural safety framework underpin the course to highlight the centrality of quality and safety in health care.

It is expected that you will already be employed or have recent experience as a nurse. As part of this course, you will undertake assessments which have direct applications to your professional practice and context.

On completion of this course, you may progress to the master’s qualification specific to your discipline, with advanced standing for completed studies.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to specialised clinical career opportunities in a broad range of nursing practice areas. On completion of this course, you may progress to the master’s qualification specific to your discipline, with advanced standing for completed studies.

**ADMISSION REQUIREMENTS**

Applicants must hold current registration as a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA). All applicants must provide evidence of recent experience in their field of nursing specialisation in their SATAC application.
You will acquire advanced knowledge and skills in:

- epidemiology
- biostatistics
- quantitative and qualitative research methods.

You will learn to analyse and interpret population health information, evaluate and design public health interventions and formulate strategies to address complex health and social issues. You will apply public health approaches to:

- health promotion
- disease control
- health systems
- health policy
- decision making
- the environment and the sustainable development goals.

On completion, you can articulate to the Master of Public Health with the option of undertaking a supervised research project.

Career opportunities for our graduates include professional public health practice; health policy and planning; epidemiology; communicable and chronic disease control; health research; community development and aid work, both nationally and internationally.

This course requires a high level of academic reading and writing. If you are not confident in your academic literacy skills, you are encouraged to fully utilise the University’s academic support services.

**CAREER OPPORTUNITIES**

Graduating from this course may lead to career opportunities in non-government organisations (NGOs) and government sectors in areas such as: health research; professional health practice; health policy and planning; epidemiology; communicable and chronic disease control; community development and aid work.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or equivalent international qualification. Registered nurses who are graduates of a hospital-based program are also eligible for entry.
### Graduate Certificate of Creative Therapies

**SATA CODE** – 1GC545  
Casuarina, Online (Full Fee)

**UAC CODE** – 871160  
Casuarina, Online (Full Fee)

**DOMESTIC INTAKE** – Semester 1, Semester 2

**DURATION** – 1 year part-time

**ABOUT THE COURSE**

This course will provide you with the key principles of creative therapies including art, play, dance, drama and music. It will help you to work with a diverse range of clients, from people who have experienced traumas to members of Aboriginal and cross-cultural communities. The course blends Western approaches with Aboriginal healing practices and knowledges. It is designed for you if you’re working in health, community, justice, education, and related fields, or if you work in Aboriginal and cross-cultural communities. The course also offers an entry point to higher education.

**CAREER OPPORTUNITIES**

The qualification prepares you for working with Indigenous and cross-cultural communities and individuals who have experienced trauma.

Graduates of this course have the opportunity to learn Indigenous ways of healing and apply them to their own practice. Graduates will also be provided with an understanding of a variety of creative therapy modalities and their practical applications, which are relevant to a wide range of disciplines and roles.

This course develops your knowledge and skills for roles as teachers and teachers aides, health and mental health workers, workers in Indigenous organisations, arts workers, child protection workers, workers in justice, disability and social services.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or a higher qualification.

You’ll be considered for entry to the course if you have at least three years of appropriate experience working with, or living in, Aboriginal Communities. You may be asked to provide a curriculum vitae.

### Graduate Certificate of Epidemiology

**SATA CODE** – 1GC543  
Casuarina, Online (Full Fee)

**UAC CODE** – 871060  
Casuarina, Online (Full Fee)

**DOMESTIC INTAKE** – Semester 1, Semester 2

**DURATION** – 1 year part-time

**ABOUT THE COURSE**

The Graduate Certificate of Epidemiology offers an introduction to core concepts and skills in epidemiology, statistical research methods and quantitative analysis of health data - aimed at prevention, protection and promotion of health in the community. Unique features of the course include learning from acclaimed Menzies School of Health Research researchers and experts in the field. Career opportunities for graduates include epidemiological roles in health or clinical research.

On completion, you can articulate to the Graduate Diploma and Master of Public Health, or the Graduate Diploma and Master of Health Research.

This course requires a high level of academic reading and writing. If you are not confident in your academic literacy skills, you are encouraged to fully utilise the University’s academic support services.

**CAREER OPPORTUNITIES**

Career opportunities for graduates include epidemiological roles in health or clinical research.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or a higher qualification. Registered nurses who are graduates of a hospital-based program are also eligible for entry.
Graduate Certificate of Health Services Management

SATAC CODE – 1GC539
Online (Full Fee)

UAC CODE – 871082
Online (Full Fee)

DURATION – 6 months full-time, 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE
The Graduate Certificate of Health Services Management is designed to extend knowledge gained through your undergraduate health studies. This course will prepare you for management within the healthcare sector, by developing your understanding of:

- the impact of technological innovation in healthcare management and service delivery
- managing human and financial resources
- planning for change in different contexts.

You will explore delivery processes, critical reflection on own decision-making processes, and the effects of policy and politics on health care provision and access.

It is expected that you will already be employed or have recent management experience within the health sector. As part of this course, you will undertake assessments which have direct applications to your professional practice and context.

On completion of this course, you may progress to the master’s qualification specific to your discipline, with advanced standing for completed studies.

STRUCTURE DESCRIPTION
This course consists of core units building on a foundation of healthcare knowledge and skills. This course will introduce concepts of change management, the impact of innovative technologies in healthcare management and service delivery, managing human and financial resources and planning for change in different contexts.

CAREER OPPORTUNITIES
This course prepares graduates for contemporary management practice within the healthcare sector. On completion of this course, you may progress to the master’s qualification specific to your discipline, with advanced standing for completed studies.

ADMISSION REQUIREMENTS
Successful completion of a bachelor degree in health studies, management, business or equivalent international qualification. Applicants must provide evidence of employment or recent experience in a health setting in a management capacity in their SATAC application.

Consideration will also be given to applicants who have at least five years appropriate professional experience in middle to higher level management in a health service organisation.

Graduate Certificate of Maternal Critical Care

SATAC CODE – 1GC540
Online (Full Fee)

UAC CODE – 871122
Online (Full Fee)

DURATION – 6 months full-time, 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE
The Graduate Certificate of Maternal Critical Care is designed to extend your knowledge gained through maternity clinical practice and develop advanced theoretical skills in obstetrical and gynaecological critical care.

It is expected that you will already be employed in a clinical setting and will undertake assessments that have a direct application to your professional practice and context. This course provides a strong theoretical and practical grounding that enables health practitioners to develop an analytical approach to clinical decision-making and will facilitate your capacity to enhance your critical thinking capability, and to provide enhanced maternity care services.

CAREER OPPORTUNITIES
The Graduate Certificate of Maternal Critical Care prepares students for advanced clinical practice roles in this specialist area. This course is a recognised pathway to Master level study either by coursework or toward a Master of Nursing (Nurse Practitioner).

CAREER OPPORTUNITIES
Successful completion of a relevant bachelor degree or equivalent international qualification. Applicants must hold current registration as a registered nurse or midwife with the Australian Health Practitioner Regulation Agency (AHPRA).
