Studying towards your new world means respecting the past and looking forward to the future. As a university for your new world, we think differently. We innovate and embrace change. We challenge conventions and look for better ways. Whether studying on campus or online, you’ll be studying with an innovative multi-sector university that is a leader in research and flexible study delivery.
“I have learned from world class teachers who have encouraged, mentored and challenged me. CDU provided me with the learning platform and flexibility I needed.”

– Caitlin, CDU student

Charles Darwin University acknowledges and pays respect to the Elders both past and present of all Indigenous groups upon whose lands CDU campuses and centres are located.

All information contained in this guide is correct at the time of print, but is subject to change as information is reviewed and updated throughout the year. When considering a course, we recommend checking the CDU website for the most up to date information.
Study your way

Online
As one of the first universities in the country to offer its courses online, we have over 15 years’ experience in educating students externally – whether you’re living in a remote location, or juggling family and work commitments, studying online means you have total flexibility to study when and how it suits you.

An increasingly popular choice for students of all ages, we offer a supportive, responsive and highly personalised learning experience that promises to keep you motivated and engaged – while fitting around your schedule.

Over 100 undergraduate and postgraduate degrees to choose from

On campus
There’s more to uni than just lectures and assignments. Some of your most memorable experiences will happen outside the classroom – making friends, joining sports clubs and societies and exploring some of Australia’s most dramatic landscapes. From Kakadu, Litchfield, Nitmiluk and Uluru-Kata-Tjuta national parks in the Northern Territory to Sydney’s famed beaches.

Studying at CDU’s Darwin, Alice Springs, Katherine or Sydney campus means you’ll get to enjoy:

> cafés and dining venues
> student lounges
> libraries, including the state-of-the-art learning precinct on Casuarina campus
> modern, fully equipped, air-conditioned gym
> IT kiosk
> sports facilities and covered basketball courts
> art gallery
> book shop
> banking ATM services
> post office
> transport services.

Support

University can be challenging. Sometimes it’s academically challenging, while other times, challenges in your personal life need to take centre stage. No matter your circumstances, there’s support available. Student Central is your one-stop spot for support and guidance. Here, you can seek advice and assistance on admissions, timetabling, how to enrol, exams, course fees and payments, study plans and scholarships. Other support services at CDU include:

- counselling
- disability services
- Indigenous student services
- careers and employment services
- academic support programs, workshops, tutorials, and one-on-one consultations.

Accommodation

On campus

- International House Darwin - Located on the Casuarina campus. All CDU Higher Education and VET students are welcome. International House is set within tropical gardens and is a relaxed and vibrant community with students from over 40 countries calling it home.
- Alice Springs Student Accommodation
- Katherine Student Accommodation.

Off campus

- UniLodge – modern accommodation located just 800 metres from CDU’s Casuarina campus
- Student Engagement can help you find off campus accommodation options.

Travel

Explore the world while completing your degree for a truly life-changing experience. CDU’s vast range of short and long term international study experiences run across North America, Europe and Asia with over 40 partner universities. Generous funding is available to both online and on campus students who are eligible to participate.

“Being an external student who started university a few years later than all of my friends, I wanted to experience student and university life just like everyone else. I wanted to build my self-confidence, to step outside of my comfort zone and push myself to do something exciting and new! I am so glad that I did because living and studying in Worcester has been one of the best decisions I have ever made.”

– Tara Hamon, CDU exchange student at the University of Worcester, UK

Study exchange with universities in North America, Europe or Asia.

International study tours and intensives available for certain courses.

Generous funding support available to eligible candidates.
Flexible entry pathways

We understand that the pathway into uni isn’t always straightforward, and we’re here to help you navigate the road to study. That’s why we offer flexible entry options into our undergraduate degrees, including:

- An Australian Tertiary Entrance Rank (ATAR) of 60 or higher.
- A VET or TAFE award of certificate IV or higher.
- A Special Tertiary Admissions Test (STAT) score of 135.
- Successful completion of at least one semester of full-time study of a uni degree or diploma.
- Successful completion of a CDU enabling program or other recognised tertiary preparation course.
- Experience base entry.

We also recognise experience in the school of life. So if you don’t have any of the above, but do have plenty of experience working in a relevant industry, you can submit a personal competencies or employment experience statement which may enable you to meet the entry requirements of your degree.

Note: Some courses may have higher admission entry requirements, to find out more visit CDU’s website.

How to apply

Find out your course code

If you haven’t already, visit the CDU website to get information on your chosen course, such as course codes and study options.
W: cdu.edu.au

Register with SATAC

Most higher education applications for CDU go through the South Australian Tertiary Admission Centre (SATAC), so the next step to get your application underway is to visit the SATAC website, click on either ‘Undergraduate’ or ‘Postgraduate’, and then click on ‘Apply’ to register.

Once you have completed your registration, SATAC will send you an email with a link to access your online application.
W: satac.edu.au

Complete your application

Follow the link in the email from SATAC to complete your application, and remember to save your progress after each section. SATAC can access most of your study records, but if not they might request further information from you. To be considered in the main offer round there are key dates you should be aware of.

Accept and enrol

If your application is successful, you’ll receive your offer via email from CDU which will include instructions on how to enrol in your units.
Application FAQs

Q What is the difference between applying and enrolling?
Applying is the first step you need to take to gain a place in a Higher Education course. Once you have received an offer for admission into a course, you will receive information on enrolling in your course and units.

Q When do I need to apply?
The application closing dates change from year to year, depending on the start date of each semester. Generally you can apply right up to the week before classes start, but don’t leave it to the last minute! You should apply at least by the SATAC cut-off dates to give yourself the best chance and to allow time for your application to be processed and for you to enrol in your classes.

Q Do I have to pay an application fee when I apply for a course?
If you are applying to study with CDU through SATAC you will be required to pay an application fee.

Q Who can apply for a scholarship?
Scholarships are not just for high achievers. Anyone who is studying at CDU can apply for a scholarship as long as you meet the scholarship’s eligibility criteria.

Q How do I apply for credit transfer?
Applying for credit towards a CDU course can only be requested once you have applied for a course and accepted an offer to study with us. Once you accept an offer, complete the application for Credit Transfer and supply the required documentation.

Choosing a course

This guide details the undergraduate and postgraduate courses on offer at CDU in 2020. Courses are offered in the study areas of:

- Aboriginal and Australian Studies
- Architecture, Building, Design and Planning
- Art and Design
- Business and Economics
- Computing and Information Technology
- Education and Teaching
- Engineering
- Environmental Studies
- Humanities and Social Sciences
- Law and Legal Studies
- Medicine and Health
- Science and Mathematics
- Tertiary Enabling Programs.

The following course key on each subject will help you understand the course components.

ABOUT THE COURSE

The Master of Public Health will equip you with the tools to investigate, critique, manage and respond to health and social issues in Indigenous, local and global contexts.

This course builds advanced skills in interpreting health information, including epidemiology, statistical analysis, and quantitative and qualitative research methods. Learning alongside acclaimed research and public health experts, you will formulate strategies, evaluate and design public health interventions, and apply public health knowledge to health promotion, health systems, health policy and decision making.
### Tertiary Enabling Program (TEP)

**Course Code:** ZTEP01  
Alice Springs, Casuarina, Sydney, Online  

**Duration:** 0.5 years full time, 1 year part time  

**Domestic Intake:** Semester 1, Semester 2

**About the Course**

The Tertiary Enabling Program (TEP) is a free program that helps build your academic skills, knowledge and confidence for studying at university. You will develop the skills and strategies for managing university life and study. Key study areas include computing for tertiary study, academic language and learning, foundation maths, bioscience, and historical and contemporary issues.

TEP is for you if:
- it has been awhile since you last studied and you feel like you need to refresh your skills
- you did not achieve an adequate Australian Tertiary Admission Rank (ATAR) or equivalent
- you have not completed other eligible qualifications that meet the minimum entry requirements for an undergraduate course at CDU.

TEP is free for Australian and New Zealand citizens, permanent residents and Humanitarian Visa holders. You can study on campus or online, full time or part time, to fit in with work, family and other commitments.

**Entry Requirements**

The Tertiary Enabling Program (TEP) is designed specifically for mature age students. You must be over 18 years of age prior to the start of the semester to be eligible for the program. All applicants must complete an online written diagnostic task that will be used to determine their eligibility for entrance.

**How to Apply**

You need to apply directly through CDU. For more information, contact us by phone or email, or explore our website:

T: 1800 061 963  
E: student.centre@cdu.edu.au  
W: cdu.edu.au/tep

### Preparation for Tertiary Success 1

**Course Code:** ZPTS11  
Casuarina, Desert Peoples Centre in Alice Springs  

**Duration:** 1 year full time, 2 years part time  

**Domestic Intake:** Semester 1, Semester 2

**About the Course**

Preparation for Tertiary Success 1 is a tertiary enabling course providing Aboriginal and Torres Strait Islander students with a culturally supported pathway to university readiness. The course integrates Indigenous and Western knowledges and the development of lifelong learning skills such as: coping with change, making meaningful links, asking critical questions, expressing creativity, strengthening learning relationships, building resilience, and developing strategic learning awareness.

This program introduces you to the culture of higher education and builds the academic skills needed to achieve success in your studies.

This course is for you if:
- you identify as Aboriginal or Torres Strait Islander
- you have not completed year 12
- you have completed year 12 but did not receive the required ATAR score
- you have completed a certificate III or IV course or can demonstrate sufficient skills and knowledge to undertake studies
- if you have not studied for a long time and want to refresh your academic skills.

**Entry Requirements**

All applicants must complete the diagnostic task. To be eligible, you must be at least 18 years old and of Aboriginal or Torres Strait Islander descent. You will need year 10 or year 11 standard. If you are a mature person without year 10 or 11, you can apply based on your skills and experience. Please refer to the Preparation for Tertiary Success Program for more information on admission requirements.

**How to Apply**

Bachelor of Applied Social Science

SATAR CODE – 104311
Casuarina, Online
SATAC CODE – 144091
Bachelor (only available to Indigenous students)

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE
The Bachelor of Applied Social Science is a specialised course that explores the connection between Indigenous knowledge systems and western culture. This is done by focusing on both theory and practice. Concepts of Aboriginal and Torres Strait Islander responsibilities of leadership and community are researched and explored in detail. Through a process of transformative learning, you will develop and demonstrate knowledge of practices that promote advocacy and empowerment for Aboriginal and Torres Strait Islander people and communities.

You will learn about Indigenous social policy, resource management and community action. You will learn how to work within broader society as an active and culturally-capable agent of change, and apply what you learn in a culturally-informed and respectful manner.

CAREER OPPORTUNITIES
Graduating with a Bachelor of Applied Social Science may lead to career opportunities in government, non-government organisations (NGOs), private companies and community groups in roles such as administration, community advisor, mediator, project manager, consultant or researcher.

Bachelor of Indigenous Languages and Linguistics

SATAR CODE – 104321
Casuarina, Online
SATAC CODE – 144101
Bachelor (only available to Indigenous students)

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE
The Bachelor of Indigenous Languages and Linguistics is a unique course that informs and engages Indigenous and non-Indigenous people in language and culture. It builds your theoretical and practical knowledge and skills so you can engage in culturally-informed and accountable Indigenous language work.

You will have the opportunity to develop basic language skills in an Indigenous language (eg Yolngu or Arrernte) and learn how language (and language learning) exists within cultural and social understandings and practices. This course prepares you for Indigenous language related work, further study and research in the fields of language learning and teaching, linguistics, and Indigenous language planning and policy at local and national levels. It will give you skills to help enable effective and equitable engagement between Aboriginal and Torres Strait Islander cultures and languages and the broader Australian community.

CAREER OPPORTUNITIES
Graduating from this course may lead to opportunities to work in government, communities and non-government organisations (NGOs). You may pursue work in language centres, schools, training organisations, maintenance and revitalisation projects.
ABOUT THE COURSE

The Associate Degree of Applied Social Science explores the connection between Indigenous knowledge systems and western culture.

These specialised fields of study prepare you for professional and/or further study or research that can contribute to, and further develop, effective and equitable engagement between Aboriginal and Torres Strait Islander cultures and the broader Australian community.

You focus on the theoretical concepts and practices of Aboriginal and Torres Strait Islander traditions, emphasising accountable leadership, advocacy and empowerment for people and communities to help them reach their goals for effective participation in modern Australian social, cultural and economic life. Key areas you will focus on include: Indigenous social policy, Indigenous resource management and Indigenous community action.

You will demonstrate an ability to work within broader society as an active and cultural agent of change, applying what you learn in a culturally informed and respectful manner.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in government, non-government organisations (NGOs), private companies and community groups in roles such as administration, community advisor, mediator, project manager or engaging with Aboriginal and Torres Strait Islander people, communities and non-government organisations.

Graduating from this course may lead to opportunities to work in government, communities and non-government organisations (NGOs). You may pursue work in language centres, schools, training organisations, maintenance and revitalisation projects.

ABOUT THE COURSE

As a student, you will develop sound theoretical and practical knowledge and skills to engage in culturally informed and accountable Indigenous language work.

During the course, you will build on the linguistic skills and knowledge needed for appropriate and culturally sensitive language documentation, analysis, maintenance and revival.

You will also have the opportunity to develop skills in speaking an Indigenous language (eg Yolngu or Arrernte) and learn how language (and language learning) exists within cultural and social understandings and practices.

You will have the skills and confidence to move into professional roles and further study in the fields of language and linguistics, and in Indigenous language planning and policy at local and national levels. Your skills will also prepare you for effective and equitable engagement between Aboriginal and Torres Strait Islander cultures and languages and the broader Australian community.

CAREER OPPORTUNITIES

Graduating from this course may lead to opportunities to work in government, communities and non-government organisations (NGOs). You may pursue work in language centres, schools, training organisations, maintenance and revitalisation projects.

ABOUT THE COURSE

This diploma focuses on empowering Aboriginal and Torres Strait Islander people (and those who work with them) to act as advocates for people and communities to reach their goals for cultural maintenance and equitable participation in modern Australian social, cultural and economic life.

You will engage with concepts and professional practices based on Indigenous knowledge systems and explore the theory and knowledge from the rich cultural traditions and modern social experiences of Indigenous peoples in Australia.

The course focuses on ensuring you have the confidence to demonstrate what you learn in a culturally informed and respectful manner.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities to work with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies, or private enterprises that are involved in Indigenous affairs.

ABOUT THE COURSE

The Diploma of Creative and Indigenous Writing will strengthen your skills in using writing to express yourself creatively and is an opportunity to learn something new without committing to a full degree.

In this course, you will develop your writing style in a variety of genres, and strengthen your knowledge of Indigenous expressive culture through an understanding of Indigenous and non-Indigenous writing traditions.

The course introduces you to creative literature in key areas, such as short story writing, poetry, writing for stage and short film, and personal narratives.

You will focus on how Indigenous peoples in Australia and elsewhere use these genres as tools to share stories about their history, and how the modern world impacts culture in a dominant non-Indigenous society.

CAREER OPPORTUNITIES

Graduating with a Diploma of Creative and Indigenous Writing may lead to career opportunities in creative industries including arts, media, communication and performing arts, education and academia.
Indigenous affairs. Agencies or private agencies and businesses that are involved in organisations and communities, government departments and to work with Aboriginal and Torres Strait Islander people. Graduating from this course may lead to career opportunities in a culturally informed and respectful manner.

Your studies focus on ensuring you can demonstrate what you learn socio-economic status.addressed in ways that respect people’s cultures, worldviews and contexts of Indigenous peoples participation in employment are workplace support and development. Issues that surround the engagement in a public sector work environment, retention, You will develop specific skills relevant to Indigenous peoples (particularly in the public sector workforce).

ABOUT THE COURSE
This course explores the concepts and professional practices that support developing a better understanding of the factors surrounding Indigenous people’s engagement in employment (particularly in the public sector workforce).

You will develop specific skills relevant to Indigenous peoples engagement in a public sector work environment, retention, workplace support and development. Issues that surround the contexts of Indigenous peoples participation in employment are addressed in ways that respect people’s cultures, worldviews and socio-economic status.

Your studies focus on ensuring you can demonstrate what you learn in a culturally informed and respectful manner.

CAREER OPPORTUNITIES
Graduating from this course may lead to career opportunities to work with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies or private agencies and businesses that are involved in Indigenous affairs.

ABOUT THE COURSE
The Diploma of Indigenous Language Work will develop the necessary basic linguistics skills and knowledge for you to take part in appropriate and culturally sensitive documentation, analysis, maintenance and revival of Indigenous languages.

People who have previously worked on language in their community will benefit from engaging in the various topics included in this degree and further their linguistic competence to work confidently on their individual language projects.

This course may constitute the first level and a possible pathway into more linguistically comprehensive degrees, that is, the Associate Degree of Indigenous Languages and Linguistics (XINLL1) or the Batchelor of Indigenous Languages and Linguistics (WINLL1).

CAREER OPPORTUNITIES
Graduating from this course may lead to a career in roles where a qualification in Indigenous language work is relevant, eg language centres, schools, training organisations, maintenance and revitalisation projects.

ABOUT THE COURSE
Want to learn an Indigenous language distinct to northern Australia? This unique course introduces you to traditional knowledge practices of Yolngu people in northern Australia, and the sounds and grammar of their languages.

You will develop your skills in analysis and discussion of Yolngu narratives, both oral and written forms in Yolngu languages. You will develop your skills in analysis and discussion of Yolngu knowledge practices of Yolngu people in northern Australia, and the sounds and grammar of their languages.

ABOUT THE COURSE
The Diploma of Indigenous Research is an opportunity for you to ready to make a positive change for both Indigenous and non-Indigenous Australians through collaborative research.

The Diploma of Indigenous Research is an opportunity for you to build on the profound depth of research knowledge that already exists with the traditions of Indigenous people within Australia. Indigenous people have extensive experience in research, both as participants and leaders of research initiated within and by universities and other agencies, but also as leaders of research work based within the knowledge foundations of their own cultural and philosophical traditions.

This course focuses on promoting knowledge and cultural tradition research in Indigenous groups and its positive contributions to both Indigenous and non-Indigenous society. It also aims to open up the knowledge-making spaces between the western academy and Indigenous knowledge academies to explore new and generative research methodologies that can emerge from genuine and equal collaboration.

This course targets Indigenous students, however, non-Indigenous students with suitable experience may apply.

CAREER OPPORTUNITIES
You will graduate with the knowledge and skills that are useful for research with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies or private agencies and organizations that are involved in Indigenous research.

ABOUT THE COURSE
About the course

Want to learn an Indigenous language distinct to northern Australia? This unique course introduces you to traditional knowledge practices of Yolngu people in northern Australia, and the sounds and grammar of their languages.

You will develop your skills in analysis and discussion of Yolngu narratives, both oral and written forms in Yolngu languages as well as an understanding of the variety of ways in which ethical behaviour and protocols govern the interactions with people and how knowledge is used and shared.

CAREER OPPORTUNITIES:
Your qualification will complement professional positions and may lead to career opportunities in policy development, health and education, public servant roles, research and other roles not just in Yolngu communities.

ABOUT THE COURSE
The Diploma of Indigenous Language Work will develop the necessary basic linguistics skills and knowledge for you to take part in appropriate and culturally sensitive documentation, analysis, maintenance and revival of Indigenous languages.

People who have previously worked on language in their community will benefit from engaging in the various topics included in this degree and further their linguistic competence to work confidently on their individual language projects.

CAREER OPPORTUNITIES
Graduating from this course may lead to career opportunities to work with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies or private agencies and businesses that are involved in Indigenous affairs.
Bachelor of Design

ABOUT THE COURSE
The Bachelor of Design is a stepping stone to a career in building design or architecture. This versatile degree explores the concepts and theories of architecture, interior design and construction, with a particular focus on tropical environments. You will develop theoretical and practical skills in designing the built environment, buildings and their surrounds. You’ll also learn to use computer-aided design (CAD) programs to prepare designs and working drawings.

If you want to ultimately become an architect, this course can be a pathway to more specific qualifications in architecture. Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES
The skills you gain in the Bachelor of Design will prepare you to fulfill roles in architecture, interior design and the broader design and construction fields. You may also use this degree as a pathway to further study to qualify as a registered architect.

Bachelor of Creative Arts

ABOUT THE COURSE
Ready to turn your passion for art into your career? The Bachelor of Creative Arts will help you achieve your dream.

Music
You will develop skills and knowledge in musical areas such as piano, voice production and guitar in two specialised areas, classical music or contemporary music. A third study area also offers a combination of the two meaning you can experiment with both genres. You will have opportunities to participate in community projects with our partners, the Darwin Symphony Orchestra (DSO), the Darwin Festival and the Centre for Youth and Community Music (CYCM).

Music
Graduating from this course may lead to career opportunities such as piano, voice production and guitar in two specialised areas, classical music or contemporary music. A third study area also offers a combination of the two meaning you can experiment with both genres. You will have opportunities to participate in community projects with our partners, the Darwin Symphony Orchestra (DSO), the Darwin Festival and the Centre for Youth and Community Music (CYCM).

If you are interested in studying the Music major, we recommend you possess Grade 4 Australian Music Examinations Board (AMEB) Practical and Theory. Contact the College of Indigenous Futures, Arts and Society after applying to obtain further information regarding submission of a portfolio of creative works.

Honours
The Bachelor of Creative Arts and Industries (Honours) is available for entry to suitable candidates with a Bachelor of Creative Arts with at least a credit average (GPA of 5.00) with a view to postgraduate study.

CAREER OPPORTUNITIES
Music
Graduating from this course may lead to career opportunities as a musician, stage manager, producer, editor, singer, music researcher, film and community performance.

Screen and New Media
Graduating from this course may lead to career opportunities in independent organisations, government and private companies in areas such as film production, directing, stagehand, stage manager, editing, writing, consulting or designing.

Visual Arts
Graduating from this course may lead to career opportunities as independent practitioners, curators, writers or exhibition coordinators for ARIs, commercial, regional and national galleries and project managers for artistic events and festivals.

With access to digital media production hardware, facilities and the latest industry software, you are exposed to professional practices, processes and protocols. You will build a valuable portfolio of creative work and will also be encouraged to get practical industry practice while you study.

Visual Arts
In this course, you will develop practical skills and knowledge in studio and in key areas in painting, printmaking, digital media, sculpture and drawing, developing the critical tools and material skills necessary to build your art career.

You will learn alongside practising artists and leaders in the creative industry, plus you will be exposed to the local and national art community with opportunities to participate in projects with our partners including exhibitions and public programs with Nan Giese Gallery, the CDU Art Gallery and Collection.

Applicants interested in the Visual Arts major should contact the College of Indigenous Futures, Arts and Society by email IFASadmin@cdu.edu.au after applying to obtain further information regarding submission of a portfolio of creative works.

Honours
The Bachelor of Creative Arts and Industries (Honours) is available for entry to suitable candidates with a Bachelor of Creative Arts with at least a credit average (GPA of 5.00) with a view to postgraduate study.

ABOUT THE COURSE

The Bachelor of Accounting/Diploma of Laws is a unique course that prepares you to qualify as an accountant and teaches you about the legal issues affecting accounting practices. The course is an opportunity to gain two qualifications in three years (if you study full time) and expand your career prospects as a more sought-after accountant in the corporate world.

The Bachelor of Accounting will give you the employment and professional skills you need in a rapidly changing business environment. You’ll learn about financial accounting, management accounting, auditing, taxation, business law, corporate law, and finance. The course also develops your communication, presentation, and problem-solving skills.

The Diploma of Laws is designed to give you an understanding of the law, without committing to a full law degree. You’ll gain a broad understanding of how the legal system and legal processes impact corporate accounting. During the course, you’ll choose from a range of specialist units in law, so you can tailor your studies to suit your accounting interests and career goals. On completing the diploma, you can apply to study a Bachelor of Laws and transfer credits for the units you have completed, so you can finish your degree faster.

PROFESSIONAL RECOGNITION

On graduating, you’ll be eligible to apply for membership of CPA Australia, the Chartered Accountants Australia and New Zealand (CAANZ), and The Chartered Institute of Management Accountants in the U.K.

CAREER OPPORTUNITIES

Completing a Bachelor of Accounting/Diploma of Laws dual qualification can lead to a wide range of career opportunities in small, medium, and large organisations. An accountant with knowledge of the law is better equipped to handle legal issues relating to money.

As a dual qualification graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, financial/ business analyst, or work in a large multinational company or ‘Big Four’ accounting firm. Or, you could run your own businesses, work in a small local accounting firm, or work in other areas of business management. There can be other career opportunities due to the combination of knowledge of accounting and law putting you in a unique advantage which a single qualification otherwise cannot offer.
Bachelor of Computer Science/Master of Information Technology

ABOUT THE COURSE
The Bachelor of Computer Science/Master of Information Technology focuses on developing your skills and knowledge in a specialised area of your choice in information technology. As a computer science specialist, your role will be to continue to not only improve technologies vital to the modern world but also educate your community about their importance.

You will develop skills and knowledge in the principles and applications of computer science as well as strengthen your problem-solving, decision-making and communication skills making you a confident and competent candidate for a role in the IT industry.

PROFESSIONAL RECOGNITION
The Bachelor of Computer Science is accredited by the Australian Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES
Graduating from this course may lead to career opportunities as an information technology specialist in government, private companies and non-government organisations (NGO) as an analyst, technician, programmer, SEO specialist, database administrator or business analyst.

Bachelor of Computer Science

ABOUT THE COURSE
The Bachelor of Computer Science will prepare you to be part of a continually evolving and diverse field, developing new applications and systems to improve the modern world.

You will develop skills and knowledge in the technical principles and applications of computer science as well as strengthen your problem-solving, decision making and communication skills making you a confident and competent candidate for a role in the IT industry.

PROFESSIONAL RECOGNITION
The Bachelor of Computer Science is accredited by the Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES
Graduating from this course may lead to career opportunities as a computer scientist in government, private companies and non-government organisations in areas such as web design and development, networking, application development and systems.

Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

Associate Degree of Information and Communication Technology

ABOUT THE COURSE
The Associate Degree of Information and Communication Technology (ICT) will prepare you to be part of a rapidly evolving field and continually develop new applications to enhance the world we live in.

You will develop your knowledge of the principles and applications in the ICT field and strengthen your personal skills in areas such as problem-solving, decision making, effective communication and teamwork.

This course was developed in consultation with and is supported by ICT industry leaders and directly aligns with industry requirements.

CAREER OPPORTUNITIES
Graduating from this course may lead to career opportunities as an information technology specialist in government, private companies and non-government organisations (NGO) as an analyst, technician, web designer, developer or systems administrator.

Diploma of Network Engineering

SATAC CODE - 116121
Cassarina, Online
DURATION - 1 year full time, 2 years part time
DOMESTIC INTAKE - Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Associate Degree of Network Engineering will provide you with the skills, knowledge and confidence required to design, operate and maintain networks that play a crucial role in the infrastructure of industry and government organisations.
Study opportunities are also provided to assist students to undertake sought-after industry modules, including Cisco and Microsoft certification.
This course was designed in consultation with and is supported by network engineering industry leaders.

CAREER OPPORTUNITIES
Graduating from this course may lead to various career opportunities including roles as a technician, helpdesk support and network and systems administrator.

Bachelor of Education Early Childhood Teaching

SATAC CODE - 104191
Cassarina, Online
DURATION - 4 years full time, 8 years part time
DOMESTIC INTAKE - Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Education Early Childhood Teaching is an innovative course that prepares you to become an early childhood teacher and/or a primary school teacher. This gives you flexible and versatile employment options.
During the course, you explore issues, concepts and practices which are common and specific to both early childhood education (including before school settings) and primary school education.
You’ll learn about:
- play and learning sciences
- language and literacy
- preparation for teaching
- health and physical education
- science in education
- technology and design for education
- curriculum and programming
- maths
- leadership and advocacy in early childhood contexts
- humanities, social science and the environment.
This unique teacher education course offers two career options for graduates. It is an initial-teacher education qualification that encompasses working with children from birth to age 12 in both early childhood settings and primary schools. The course is designed to:
- prepare you for new and changing educational roles in early childhood and primary schools
- develop your skills as a reflective teacher
- explore the connection between theory and practice in early childhood and primary school education
- ensure continuing awareness of the environmental and cultural influences on teaching and learning in early childhood and primary schools
- better understand the needs of learners and communities with diverse linguistic and cultural orientations, including Indigenous learners.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION
This course has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia. This program is approved with the Australian Children’s Education and Care Quality Authority (ACECQA). On graduating, you will be recognised as an Early Childhood Teacher by ACECQA.
On graduating from this course, you will be eligible to register as a teacher and teach in schools across all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria, such as National Literacy and Numeracy test for Initial Teacher Education as per Teacher Registration Requirement, English proficiency and suitability to teach).

CAREER OPPORTUNITIES
Graduating from the Bachelor of Education Early Childhood Teaching prepares you to teach in a prior-to-school setting (such as a day care centre) or a primary school. It also prepares you to work in associated educational areas, such as curriculum development, educational planning, educational research, and policy development.

ESSENTIAL REQUIREMENTS
Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.

Graduating & Professional Development | Charles Darwin University | 27
ABOUT THE COURSE

The Bachelor of Education Primary prepares you to become a primary school teacher and teach Transition to year 6/7. As a primary school teacher, you’ll be vital to a student’s learning process. You’ll guide and develop their skills through the various key learning systems of education during their early years at school.

In this course, you’ll learn about:
- the school curriculum
- contemporary approaches to issues in education, such as inclusivity
- child and adolescent development
- promoting positive behaviour
- improving the teaching-learning relationship in the classroom
- Indigenous perspectives on teaching and learning
- raising awareness of issues surrounding Indigenous education
- developing an informed, evidence-based approach to learning
- teaching in primary settings.

During this course, you will gain a combination of academic and practical experience. When you graduate, your levels of personal literacy and numeracy will be broadly equivalent to the top 30% of the population.

You are encouraged to review the employer eligibility requirements as they can vary state to state.

PROFESSIONAL RECOGNITION

This Bachelor of Education Primary has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

CAREER OPPORTUNITIES

Graduating with a Bachelor of Education Primary prepares you to teach in primary schools. It also prepares you to work in associated educational areas, such as curriculum development, educational planning, educational research, and policy development.

ESSENTIAL REQUIREMENTS

Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.

Bachelor of Education Secondary

SATAC CODE - 104511
Casuarina, Online
DURATION - 4 years full time, 8 years part time
DOMESTIC INTAKE - Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Education Secondary prepares you to become a secondary school teacher and teach year 7 to year 12. As a secondary teacher, you will specialise in teaching certain subjects. As part of your degree, you’ll choose two specialisations: a major and a minor. You can choose from a range of options, including:
- digital technology
- health and physical education
- humanities
- Indigenous knowledges
- languages
- mathematics
- music
- science
- visual arts.

The course focuses on the skills and knowledge you’ll need to teach in high schools, as outlined by the Australian National Curriculum. It meets both the national and local need for teachers committed to improving educational outcomes for children in year 7 to year 12.

You’ll learn about:
- the school curriculum
- contemporary approaches to issues in education, such as inclusivity
- child and adolescent development
- promoting positive behaviour
- improving the teaching-learning relationship in the classroom
- Indigenous perspectives
- raising awareness of issues surrounding Indigenous education
- developing an informed, evidence-based approach to learning
- teaching in secondary school settings.

As a secondary teacher, you will specialise in teaching certain subjects. As part of your degree, you’ll choose two specialisations: a major and a minor. You can choose from a range of options, including:
- digital technology
- health and physical education
- humanities
- Indigenous knowledges
- languages
- mathematics
- music
- science
- visual arts.

When you graduate, you’ll be responsible for educating and guiding students as they prepare for the real world. If you are a good communicator, love having fun with children and are passionate about sharing a love of learning, then this may be the career for you!

At CDU, you can study a Bachelor of Education Secondary online or on campus, part time or full time (for a majority of specialisations). This makes it easier to fit study into your existing commitments. When you graduate, you’ll be qualified to register as a teacher anywhere in Australia.

The course is a mixture of discipline-specific curriculum and teaching in secondary school settings. It also prepares you to work in associated educational areas, such as curriculum development, educational planning, educational research, and policy development.

PROFESSIONAL RECOGNITION

This course has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

When you graduate, you’ll be eligible to register as a teacher in schools across all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria such as the National Literacy and Numeracy Test for Initial Teacher Registration Requirement, English proficiency and suitability to teach).

CAREER OPPORTUNITIES

Graduating with a Bachelor of Education Secondary prepares you to teach in high schools. It also prepares you to work in associated educational areas, such as curriculum development, educational planning, educational research, and policy development.

ESSENTIAL REQUIREMENTS

Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.
This course was developed in consultation with and is supported by industry leaders. You graduate with a sound foundation of engineering knowledge which directly aligns with international industry requirements.

PROFESSIONAL RECOGNITION

Eurace

The Bachelor of Engineering Science of this combined course is accredited internationally to European Eurace requirements. The Master of Engineering of this combined course is accredited internationally to European Eurace requirements.

Engineers Australia

The Bachelor of Engineering Science (Civil and Structural) of this combined course is accredited by Engineers Australia at the level of engineering technologist and therefore recognised internationally under the Sydney Accord. The Bachelor of Engineering Science (Chemical), Bachelor of Engineering Science (Electrical and Electronic), and Bachelor of Engineering Science (Mechanical) of this combined course are provisionally accredited by Engineers Australia at the level of engineering technologist.

Note: Engineers Australia initially gives provisional accreditation for new engineering courses – full accreditation can only be obtained after the first students have graduated.

The Master of Engineering of this combined course is accredited by Engineers Australia at the level of professional engineer and therefore recognised internationally under the Washington Accord. Icheme

The Bachelor of Engineering Science (Chemical) - Master of Engineering (Chemical) combined course is accredited by Icheme at bachelor’s and master’s level (M-Level).

CAREER OPPORTUNITIES

Graduating from the chemical engineering major of this course may lead to career opportunities in areas such as design, project management, manufacturing, process control, mining, oil and gas, consultation, and minerals processing.

Graduating from the civil and structural engineering major of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to professional opportunities in areas such as electronic design, power generation and distribution, manufacturing, research and development, consulting, and project management.

Graduating from the mechanical engineering major of this course may lead to professional opportunities in areas such as design, machinery and manufacturing, fabrication, mining, oil and gas, consultation, and project management.

As a professional electrical and electronics engineer, you will be able to fulfil major roles in the design, automation and control of devices which make modern life convenient. You will be involved in electronics, telecommunications, biomedical applications and power generation, storage and distribution, including renewable energy. You will develop skills in communication methods, electronic control systems and power engineering, together with a background of sustainable engineering principles.

As a professional mechanical engineer, you will be able to have a major role in the design and construction of equipment for improved transport, and to provide affordable manufacturing and production solutions for manufacturing industry. Key areas include biomechanical applications, aeroplanes, cars, pumps, pipelines and air conditioning systems.

PROFESSIONAL RECOGNITION

Graduates are eligible to apply for membership with Engineers Australia.

CAREER OPPORTUNITIES

Graduating from the chemical engineering major of this course may lead to career opportunities in areas such as design, project management, manufacturing, process control, mining, oil and gas, consultation, and minerals processing.

Graduating from the civil and structural engineering major of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to professional opportunities in areas such as electronics, renewable energy, power generation and distribution, manufacturing, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery and manufacturing, fabrication, mining, oil and gas, consultation, and project management.

**DURATION** – 3 years full time, 6 years part time

**DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

**ASSUMED KNOWLEDGE**

Stage 2 Mathematical Methods or equivalent.

**ABOUT THE COURSE**

The Bachelor of Engineering Science will provide you with the necessary scientific knowledge that underpins your engineering discipline, followed by specialist knowledge of the theory and practice of chemical, civil and structural, electrical and electronics, and mechanical engineering.

The course will help you to develop skills for the planning and execution of engineering projects. The course specifically offers extensive hands-on practical experience, which will help you in your future career as an engineering technologist. Essential engineering skills including innovation, creativity, management and teamwork are also features of the course.

This course was developed in consultation with and is supported by industry leaders. You graduate with a sound foundation of engineering knowledge which directly aligns with international industry requirements. You can combine this course with other engineers and technologists on the design, operation and management of processes to transform raw materials into high-value products in key areas such as oil and gas, minerals processing, plastics, food processing and pharmaceuticals manufacturing.

As a chemical engineering technologist, you will be able to collaborate with other engineers and technologists on the design, operation and management of processes to transform raw materials into high-value products in key areas such as oil and gas, minerals processing, plastics, food processing and pharmaceuticals manufacturing.

As a civil and structural engineering technologist, you will be able to work with other engineers and technologists on the design and maintenance of structures for the modern world. Key areas include water resources, roads and traffic, bridges and marine structures. Your studies will focus on developing sustainable and ethical civil and structural solutions in areas such as structural engineering, water and its uses and the principles of sustainability.

As an electrical and electronics engineering technologist, you will be able to work together with engineers and technologists on the design, automation and control of the devices which make modern life convenient. You are involved in electronics, telecommunications, biomedical applications and power generation and distribution, including renewable energy.

As a mechanical engineering technologist, you will be able to collaborate with other engineers and technologists in the design and build of large and small devices which improve transportation and provide affordable manufacturing and production solutions. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

**PROFESSIONAL RECOGNITION**

**EUR-ACE**

The Bachelor of Engineering Science is accredited internationally to European EUR-ACE requirements.

**ENGINEERS AUSTRALIA**

The Bachelor of Engineering Science (Civil and Structural) course is accredited by Engineers Australia at the level of engineering technologist and therefore recognised internationally under the Sydney Accord. The Bachelor of Engineering Science (Chemical), Bachelor of Engineering Science (Electrical and Electronic), and Bachelor of Engineering Science (Mechanical) are provisionally accredited by Engineers Australia at the level of engineering technologist. Note: Engineers Australia initially gives provisional accreditation for new engineering courses - full accreditation can only be obtained after the first students have graduated.

**CAREER OPPORTUNITIES**

Graduating from the chemical engineering major of this course may lead to career opportunities in areas such as design, project management, manufacturing, process control, mining, oil and gas, consultation, and minerals processing.

Graduating from the civil and structural engineering major of this course may lead to career opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to career opportunities in areas such as electronics, renewable energy, power generation, storage and distribution, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, mining, oil and gas, consultation, and project management.

**DURATION** – 2 years full time, 4 years part time

**DOMESTIC INTAKE** – Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**

The Associate Degree of Engineering will provide a sound basis of fundamental engineering concepts, followed by the application of chemical, civil and structural, electrical and electronics or mechanical engineering theory and practice.

The course will help you to develop skills for solving common engineering problems as well as prepare you for further study of more advanced engineering concepts in the Bachelor of Engineering Science and Bachelor of Engineering Honours.

As a chemical engineering associate, you will assist with the design, operation and management of processes that transform materials into everyday products. You are involved in key areas such as oil and gas refining, minerals processing, plastics, food processing and pharmaceuticals manufacturing.

As a civil and structural engineering associate, you will contribute to the design, operation and maintenance of structures and systems for the modern world. Key areas include water resources, roads and traffic, bridges and marine structures.

As an electrical and electronics engineering associate, you will assist with the design, automation and control of devices which make modern life convenient. You are involved in electronics, telecommunications, biomedical applications and power generation, storage and distribution, including renewable energy.

As a mechanical engineering associate, you contribute to the design and construction of devices which improve transportation and provide more affordable manufacturing and production solutions. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

In addition to specific engineering knowledge, essential engineering skills including innovation, creativity and teamwork are developed.

This course was developed in consultation with and is supported by industry leaders. It provides a sound foundation of engineering knowledge which can lead to further engineering study or to employment as an engineering associate.

Credit can be given for studies in the associate degree towards CDU’s Bachelor of Engineering Science or the Bachelor of Engineering Honours.
CAREER OPPORTUNITIES

Graduating from the chemical specialisation of this course may lead to paraprofessional engineering opportunities in areas such as design, construction, mining, oil and gas, and minerals processing.

Graduating from the civil and structural specialisation of this course may lead to paraprofessional engineering opportunities in areas such as design, construction, water supply and treatment, infrastructure development, and project management.

Graduating from the electrical and electronics specialisation of this course may lead to paraprofessional engineering opportunities in areas such as electronics, renewable energy, power generation, storage and distribution, process control, mining, oil and gas, and project management.

Graduating from the mechanical specialisation may lead to paraprofessional engineering career opportunities in areas such as design, manufacturing and fabrication, mining, oil and gas, and project management.

**Diploma of Engineering**

- **SATAC CODE** - 116211
- **Casuarina, Online**
- **DURATION** - 1 year full time, 2 years part time
- **DOMESTIC INTAKE** - Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**

The Diploma of Engineering is ideal if you are curious about studying engineering and would like to learn more, though are unsure about committing to a full undergraduate degree.

During your engineering studies, you will explore some of the general concepts, principles and practices of engineering, develop your technical skills and build upon your maths and science knowledge.

With the diploma, you qualify for entry-level engineering roles, or you can continue onto other engineering degree courses such as CDU’s Associate Degree of Engineering, Bachelor of Engineering Science or Bachelor of Engineering Honours.

**CAREER OPPORTUNITIES**

Graduating from the Diploma of Engineering may lead to entry-level engineering roles.

**Bachelor of Environmental Science**

- **SATAC CODE** - 104531
- **Casuarina, Online**
- **DURATION** - 3 years full time, 6 years part time
- **DOMESTIC INTAKE** - Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**

With the Bachelor of Environmental Science your academic studies will be combined with practical experience, allowing you to play an active role in the protection and conservation of the environment.

Foundation knowledge including biology, ecology and spatial analysis will be the base from which you learn to solve complex environmental problems. You will explore human-impact, social and cultural perspectives, identify solutions to environmental challenges, and learn how to effectively communicate information for positive environmental outcomes. Training in critical and systemic thinking will empower you to tackle the environmental challenges of our time.

**CAREER OPPORTUNITIES**

Graduating from this course prepares you with the skills and knowledge to work within government, private companies or community organisations, in areas including environment and heritage, biodiversity conservation, land and water resource management, mine site rehabilitation, nature-based tourism, Aboriginal land management, wildlife and reserve management, land-care, teaching, consultancy or environmental research.
ABOUT THE COURSE

The Bachelor of Arts is a creative course that develops your understanding of cultural and social perspectives. The program equips you with skills to shape institutions and contribute to policy debates through frameworks for understanding social value.

You will strengthen your written and oral communication skills, critical and creative thinking, problem-solving, preparing you to move into speciality fields and participate in a multidisciplinary and global workforce. A Bachelor of Arts degree from CDU will ensure a well-informed understanding of Northern Australia and South-East Asia that values citizenship and our place in the world.

During the course, you can choose to explore a range of interest areas, including:

- history
- philosophy
- political science
- literary studies
- communications
- languages (Chinese, Greek and Indonesian)
- Indigenous culture
- Indigenous knowledge systems
- Indigenous culture

The course is suited to students seeking progressive, innovative and interdisciplinary skills to solve complex or ‘wicked’ problems, as well as skills needed to improve social outcomes important in driving business success. A humanities education will equip you with the skills to shape institutions and contribute to policy debates through frameworks for understanding social value.

You will strengthen your written and oral communication skills, critical and creative thinking, problem-solving, preparing you to move into speciality fields and participate in a multidisciplinary and global workforce. A Bachelor of Arts degree from CDU will ensure a well-informed understanding of Northern Australia and South-East Asia that values citizenship and our place in the world.

CAREER OPPORTUNITIES

People with a Bachelor of Arts degree are as likely to be found leading companies in areas as diverse as aviation, tourism, finance, or entertainment, as they are amongst parliamentarians, administrative officers, the public service, or a trade union.

A Bachelor of Arts may also lead to career opportunities in areas such as research, training, diplomacy, membership of advisory boards, communications, media, museums, libraries, consultancy, land councils, or curating.

It is a degree that opens doors to positions in the domestic and global economy, particularly within the regions where those organisations engage with Central and northern Australia, Asia and other parts of the world. Moreover, those jobs yet to be created in the future will, of course, require a workforce with humanities research that can make holistic predictions about the future with a sense of cultural understanding that the humanities provide.

Bachelor of Arts

SATAC CODE: 104591
Casaunara, Online

DURATION: 3 years full time, 6 years part time

DOMESTIC INTAKE: Semester 1, Semester 2

Bachelor of Humanitarian and Community Studies

SATAC CODE: 114731
Casaunara, Online

DURATION: 3 years full time, 6 years part time

DOMESTIC INTAKE: Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Bachelor of Humanitarian and Community Studies develops your skills to understand, critically analyse and apply concepts of human service delivery, community development, and international humanitarian assistance.

This course particularly focuses on the knowledge and skills required to work remotely and resource-poor environments. The course combines theory and practice-based learning and is delivered by both academic and practitioners. Interdisciplinary course units provide students with knowledge on:

- sociology
- ethics
- human service delivery
- cultural studies
- Indigenous knowledge
- community engagement
- project management
- international humanitarian practice.

Experimental and work integrated learning are core components of this course. Students will participate in a 2-week intensive hands-on unit delivered on CDU’s Casuarina campus that equips them with essential skills relevant to working in the field of international humanitarian assistance.

In their final year, students complete a 40-hour professional practice placement with a community-based, humanitarian or development aid agency. Overseas placements are available in the Asia-Pacific.

Provision is made to re-accredit for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

As a social worker you will work with people to achieve the changes to improve their lives. You will guide and support the individual, client, family, or community to meet their goals.

You will do this through providing support, counselling, case management, and/or community development. You will be an advocate for social change to create a more socially just society. You will work alongside those who are vulnerable, identifying their strengths and capacity for making change.

With the Bachelor of Social Work, you will gain the knowledge and skills required to work with individuals, families, groups and communities. You will develop practical skills to work effectively and safely with those in crisis, vulnerable or impacted by poverty and social disadvantage.

Key areas of your coursework include multi-disciplinary practice, cross-cultural practice and working in virtual contexts and with practical skills based on the entry/application requirements of organisations.

PROFESSIONAL RECOGNITION

Graduates of the Bachelor of Social Work qualify for membership to the Australian Association of Social Workers (AASW).

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in child and family services, child protection, community health and welfare, drug and alcohol, disability and rehabilitation services, health service management, research and evaluation, policy and planning, human resources management and marketing.

Bachelor of Humanitarian and Community Studies

SATAC CODE: 114731
Casaunara, Online

Bachelor of Psychological Science

SATAC CODE: 104361
Casaunara, Online

DURATION: 3 years full time, 6 years part time

DOMESTIC INTAKE: Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

In the Bachelor of Psychological Science, you will develop an integrated understanding of human behaviour including social-cultural perspective, motivations, health and psychopathology as well as the fundamental premise of psychology as an empirically based science.

Key study areas include:
- research methods
- abnormal psychology
- social-cultural psychology
- learning and motivation
- cognitive psychology
- the biological bases of behaviour
- introduction to forensic psychology counselling.

The Bachelor of Psychological Science will also prepare you for the honours program, as well as postgraduate professional coursework or supervised training in psychology.

PROFESSIONAL RECOGNITION

This course is accredited by the Australian Psychology Accreditation Council (APAC) and prepares you for entry into an honours year in psychology. During your studies, you can also join the Australian Psychological Society.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in clinical and family services, child protection, community health and welfare, drug and alcohol, disability and rehabilitation services, health service management, research and evaluation, policy and planning, human resources management and marketing.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in child and family services, child protection, community health and welfare, drug and alcohol, disability and rehabilitation services, health service management, research and evaluation, policy and planning, human resources management and marketing.

Bachelor of Social Work

SATAC CODE: 104411
Casaunara, Online

DURATION: 4 years full time, 8 years part time

DOMESTIC INTAKE: Semester 1, Semester 2
Diploma of Alcohol and Other Drugs

SATAC CODE – 116141
Casuarina, Online

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

Whether you are looking to broaden your awareness or build on your professional skill set, the Diploma of Alcohol and Other Drugs will expand your knowledge in these areas.

You will be introduced to modern issues, research and interventions in the Australian alcohol and other drug fields, with particular reference to the Northern Territory.

You can choose to study this diploma either on campus at Casuarina (internally) or online (externally).

CAREER OPPORTUNITIES

This course complements your current qualifications and may prepare you for advanced career opportunities within education, nursing, social work, indigenous studies, health sciences and related areas.

Diploma of Counselling

SATAC CODE – 116131
Casuarina, Online

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

Do you seek a career that will make a positive impact on the health and well-being of those in your community? Or perhaps you are wanting to build on your knowledge in human services? The Diploma of Counselling may be the course you’re looking for.

During your course, you will explore key areas such as psychology, trauma assessment and intervention, alcohol and other drugs as well as build on your communication skills.

CAREER OPPORTUNITIES

This qualification will complement your existing professional career, or it may prepare you for career opportunities in counselling-related fields in government, private companies, non-government organisations (NGO) and community groups.

Diploma of Languages

SATAC CODE – 116051
Casuarina, Online

DURATION – 3 years part time

DOMESTIC INTAKE – Semester 1, Summer Semester

ABOUT THE COURSE

If you want to learn another language and embrace a different culture, the Diploma of Languages can help you achieve your goal.

You can choose to specialise in Indonesian, Chinese or Greek language and culture, and you’ll have an opportunity to join an in-country study program.

This course is ideal for teachers looking to upskill, as well as anyone who has a personal interest in Indonesia, China or Greece.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Graduating with a Diploma of Languages may lead to career opportunities as a translator, tutor, advisor, language or communication specialist.

Diploma of Psychology

SATAC CODE – 116161
Casuarina, Online

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

Want to study psychology without committing to a full undergraduate degree? The Diploma of Psychology is what you are looking for.

Psychology explores human behaviour and how humans make sense of the world, process, organise and store information. It looks at multiple factors that influence human development, human motivation and emotion such as: how biology influences things like learning, memory and behaviour, and vice versa common and unique aspects of personality behavioural dysfunctions social and cultural diversity.

This course introduces you to the foundations of psychology, explores mental health, and builds essential counselling and behaviour modification skills. You can choose to study this course either on campus at Casuarina (internally) or online (externally).

CAREER OPPORTUNITIES

This qualification will complement your existing professional career, or it may prepare you for career opportunities in various psychology-related fields in government, private companies, non-government organisations (NGO) and community groups.
Bachelor of Laws

SATAC CODE – 104621
Casuarina, Online

DURATION – 3 years full time, 6 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Laws provides you with the academic foundation to become a lawyer or work in a range of industries that require legal expertise, including politics, policy, government, business and private legal practice.

At CDU, you can complete a Bachelor of Laws in just three years, with options to study your law degree 100% online, on campus or a mix of both. On graduating, you will be eligible to apply for admission to the legal practice anywhere in Australia.

The Bachelor of Laws teaches you about legal systems and principles in Australia and abroad. You’ll gain skills in legal research, analysis and communication, and learn theoretical perspectives on the law. The course also has a unique focus on transnational law (which looks at how laws are applied in more than one jurisdiction) and comparative law (which examines different legal systems from around the world), so you’ll gain insight into the legal issues facing today’s globalised economies and societies.

If you choose to study law online, you’ll have 24/7 access to CDU’s online learning platform, recorded lectures and tutorial assistance. You can study where, when and how it suits you.

As the Bachelor of Laws is a competitive course, you’re also encouraged to apply for the Associate Degree of Legal Studies or the Diploma of Laws. These programs are an alternative pathway to the Bachelor of Laws.

PROFESSIONAL RECOGNITION

The Bachelor of Laws is accredited by the Legal Practitioners Admission Board of the Northern Territory and provides the academic foundation for admission to legal practice in the Northern Territory and elsewhere in Australia.

To be admitted to legal practice in Australia, you must also complete the Graduate Diploma in Legal Practice (GDLP). This can be taken through the College of Law in Sydney and completed online.

CAREER OPPORTUNITIES

A Bachelor of Laws prepares you for a wide range of jobs. You may choose to pursue a career as a solicitor or barrister, or work in fields that benefit from legal expertise, such as politics, public service, industrial relations, community advocacy or commerce in general.

Associate Degree of Legal Studies

SATAC CODE – 115141
Casuarina, Online

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Associate Degree of Legal Studies is for anyone who is interested in broadening their understanding of the legal system without committing to a full law degree.

This course will give you a broad understanding of the law, legal processes and legal principles and introduce you to practical areas of the law such as torts, contracts, criminal law and transnational law. It caters for two groups of students: those who have a general interest in legal issues without wishing to complete a full law degree and those who wish to gauge their interest in legal studies and perhaps later wish to undertake a full law degree program.

CAREER OPPORTUNITIES

Completing the Associate Degree of Legal Studies may lead to career opportunities in administrative, secretarial or paralegal roles in government, corporate and private legal environment.

Diploma of Laws

SATAC CODE – 116151
Casuarina, Online

DURATION – 1 year full time, 2 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

The Diploma of Laws offers you a general understanding of the law, legal processes and legal principles, as well as an opportunity to gain the specialist knowledge you may need for work or other reasons.

This program is also suitable for internationally qualified lawyers who need to complete some Australian subjects to qualify for admission to legal practice in Australia and is a recognised pathway to the Bachelor of Laws at Charles Darwin University.

CAREER OPPORTUNITIES

Completing the Diploma of Laws may lead to roles in politics, industrial relations and community advocacy in government, private companies and non-government organisations (NGO).
Bachelor of Clinical Sciences

SATAC CODE - 114831
Casuarina

DURATION - 3 years full time

DOMESTIC INTAKE - Semester 1

ABOUT THE COURSE

The Bachelor of Clinical Sciences course is a direct pathway for CDU students to study medicine, on campus in Darwin. This course is part of a double degree with the Northern Territory Medical Program (NTMP) offered by Flinders University. Australian citizen or permanent resident school leavers with year 12 qualifications, or higher education students who have studied for no more than one year are eligible for consideration for entry.

The Bachelor of Clinical Science is the first award of this double degree. Completion of the first two years of the course to a specified grade point average standard and within a specified time frame, guarantees entry into the NTMP, which you will begin in your third year of study.

In your studies at CDU you will develop a strong foundation in the fundamental health and medical-related sciences, building your knowledge, skills and confidence to move onto the NTMP. This course is accredited by the Australian Medical Council (AMC) as an entry pathway into medical studies.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course and admission information.

ESSENTIAL REQUIREMENTS

Ranking for offers of positions requires an entry score combining ATAR (99%), and University Clinical Aptitude Test (UCAT) - derived scores (10%). All applicants must register to sit the University Clinical Aptitude Test (UCAT) and provide this information in their SATAC application. Registration to sit UCAT closes early in May 2019 and testing is held during July. Only UCAT scores from 2019 will be considered. 12 offers across 3 sub-quotas will be available at the commencement of the academic year based on highest combined UCAT and ATAR ranking.

The Bachelor of Clinical Sciences is a highly competitive course with 12 places available each year. Offers to this course are made in the January offer round into the following sub-quotas:

NT Residency sub-quotas (5 places)
All applicants must provide a Statutory Declaration within 10 working days of submitting a SATAC application confirming you have lived in the Northern Territory with a permanent address for two years out of the last six years, or for a total of at least five years since commencing primary schooling. A Statutory Declaration form can be downloaded at www.satac.edu.au/documents/CDU/NTstatdec.pdf and must be submitted as part of the application to SATAC.

NT Indigenous sub-quotas (5 places)
All applicants must provide a Statutory Declaration within 10 working days of submitting a SATAC application confirming you have lived in the Northern Territory with a permanent address for two years out of the last six years, or for a total of at least five years since commencing primary schooling. A Statutory Declaration form can be downloaded at www.satac.edu.au/documents/CDU/NTstatdec.pdf and must be submitted as part of the application to SATAC. Applicants must also provide a Statutory Declaration within 10 working days confirming you are of Aboriginal or Torres Strait Island descent. This Statutory Declaration form can be downloaded at www.satac.edu.au/documents/atsistatdec.pdf. Applicants who receive an offer through the Indigenous sub-quotas will need to provide a certified copy of a community seal confirming their eligibility at enrolment.

National Indigenous sub-quotas (2 places)
All applicants must provide a Statutory Declaration within 10 working days of submitting a SATAC application confirming you are of Aboriginal or Torres Strait Island descent. A Statutory Declaration form can be downloaded at www.satac.edu.au/documents/atsistatdec.pdf. Applicants who receive an offer through the Indigenous sub-quotas will need to provide a certified copy of a community seal confirming their eligibility at enrolment.

HEALTH ADVISORY INFORMATION FOR MEDICAL STUDENTS

Medical students have an important responsibility to protect their own health and the health of their patients by observing the requirements described in the Health Advisory Information for Medical Students.

CRIMINAL HISTORY CHECK

Students entering this course will not be required to undergo National Police Checks. However, as it articulates with Flinders University MD, all medical students will be required to complete a National Police Check prior to undertaking any placement. This requirement will apply to students when they commence the MD component of the course in the third year of the BCSC.
### Bachelor of Medical Laboratory Science

**SATAC CODE** – 114861  
Casuarina  
**DURATION** – 4 years full time, 8 years part time  
**DOMESTIC INTAKE** – Semester 1, Semester 2  
**ASSUMED KNOWLEDGE**  
Stage 3 Chemistry or equivalent

#### ABOUT THE COURSE

Medical Laboratory Scientists work in a range of areas in pathology, including haematology, clinical chemistry, microbiology, histology and serology. They are skilled in performing tests on both human and veterinary specimens, such as blood, tissues and bodily fluids to assist in the diagnosis of disease and provide information about the treatment options. The results of these tests provide physicians with the essential information they need to treat and prevent disease.

This professionally oriented four-year full-time course (or part-time equivalent), combines theoretical and laboratory-based study along with industry placements in world-leading institutes. Graduates from the program will have a globally recognised, professionally accredited qualification that will provide them with many employment opportunities in the identification and diagnosis of disease and pathogens, medical research, forensic pathology, public health and the pharmaceutical industry.

This course is nationally recognised by the Australian Institute of Medical Scientists (AIMS), providing students with the ability to work within Australia and Internationally.

**Note:** This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

#### PROFESSIONAL RECOGNITION

This course is accredited by the Australian Institute of Medical Scientists (AIMS).

#### CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in roles including, midwifery group practice, midwife birth and working in public or private hospitals.

### Bachelor of Midwifery

**SATAC CODE** – 104481  
Casuarina, Online  
**DURATION** – 3 years full time, 6 years part time  
**DOMESTIC INTAKE** – Semester 1

#### ABOUT THE COURSE

Through a partnership approach, midwives provide woman-centred, evidence-based care for women and babies throughout the childbearing journey in a variety of settings.

Midwives play a vital role in promoting the health and wellbeing of women and their families by supporting the woman’s childbearing choices and providing expertise around pregnancy, birth, postnatal and the newborn period. Midwives collaborate with other health professionals to continue midwifery care in complex situations.

The Bachelor of Midwifery at CDU is aligned with the International Confederation of Midwives’ definition of the midwife. As a Midwifery student, you will need a high level of motivation, determination and organisation to successfully negotiate study and clinical experience requirements with work and family commitments.

The online nature of the course requires you to be disciplined and committed in your study habits. You should consider whether your family, work and time available for study. Placement may occur during and outside of the semester and you may be required to travel away from home to complete up to 6 weeks of placement at your own expense.

You must be aware that:
- Placement is arranged by CDU and dates are determined by the availability of places at the health service facility, therefore dates for placement may not be negotiable.
- You will be required to attend the arranged placement to progress in the course.
- Non-attendance at placement may only occur in extenuating circumstances. Childcare and work commitments are not extenuating circumstances for the purpose of placement.
- Placements may include morning, evening, night duty, on-call, and shifts on weekends and public holidays.

As a student of midwifery, you will be required to have an inherent set of qualities. Midwifery requires a degree of physical strength and mobility, endurance, communication and cognitive abilities for safe practice. For more detailed information see Inherent requirements for Midwifery on the CDU website.

Reporting obligations: Under the Health Practitioner Regulation National Law, CDU is required to register midwifery students with the Australian Health Practitioner Regulation Agency (AHPRA) and to notify AHPRA if a student has or develops a health impairment that may place the public at substantial risk of harm. Students have obligations under the National Law and are expected to understand their obligations prior to enrolling. More information available at NMBA Student Registration website.

This is a competitive course with more applicants than places available, eligible applicants will be ranked in order of academic merit.
PROFESSIONAL RECOGNITION
Graduates of this course are eligible to apply for registration with the Health Licensing Authority (Nursing and Midwifery Board of Australia).

CAREER OPPORTUNITIES
Graduating from this course may lead to career opportunities in public and private hospitals and medical clinics in areas such as mental health, community health, acute and chronic care.

PRE-CLINICAL REQUIREMENTS
Students must provide proof that they have met all university and State/Territory pre-clinical requirements before they can undertake those units that include clinical placements. These requirements include, but are not limited to, immunisation requirements, Senior First Aid qualification, annual criminal record checks and/or working with children clearances and/or fitness-to-practice requirements.

ABOUT THE COURSE
The Bachelor of Nursing is a professionally accredited degree that meets the Nursing and Midwifery Board of Australia (NMBA) qualification criteria for registration as a Division 1 nurse in Australia. As a graduate of the Bachelor of Nursing, you are prepared to be a safe, collaborative, articulate and ethical registered nurse who is responsive to local, national and regional health care needs and aware of emerging global health care trends. This course is offered externally (online) and internally (on campus). The internal mode is available only at the Casuarina Campus. Regardless of mode of enrolment, all students are required to complete a full-time on-campus simulation block at an approved CDU venue in each year level of the course, as preparation for clinical placement. Simulation blocks are offered at Casuarina, Alice Springs and Sydney campuses. CDU allocates places in simulation blocks and cannot guarantee a place at a specific venue. All costs associated with attendance at simulation blocks are your responsibility.

You will complete supervised clinical placements (880 hours in total) across the three years of the course in a variety of health care settings, including opportunities to participate in international study tours and exchanges that are in addition to the required 880 hours and at student’s own cost. All students, regardless of your study mode or pattern, are required to complete clinical placement on a full-time, rotating shift basis across a seven-day week roster, including night shifts, weekends and public holidays. CDU arranges all placements and cannot guarantee that placements will be arranged in the semester of enrolment or near your residential location. All costs associated with placement attendance are your responsibility. Non-acceptance of placement or placement arranged outside of semester of enrolment may impact completing the Bachelor of Nursing within 3 years.

As a nursing student, you will be required to have an inherent set of qualities. Nursing requires a degree of physical strength and mobility, endurance, communication and cognitive abilities for safe practice. If you think you may experience challenges in meeting the inherent requirements for nursing, you are encouraged to contact the Bachelor of Nursing Course Coordinator to discuss any concerns you may have before enrolling in the course.

Reporting obligations: Under the national Health Practitioner Regulation National Law, CDU is required to register nursing students with the Australian Health Practitioner Regulation Agency (AHPRA) and to notify AHPRA if a student has or develops a health impairment that may place the public at substantial risk of harm. More information available at NMBA Student Registration.

Bachelor of Pharmacy

SATAC CODE – 114371
Cassarina

DURATION – 4 years full time, 8 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

ASSUMED KNOWLEDGE
Stage 2 Mathematical Studies

ABOUT THE COURSE
Pharmacists are health care professionals with in-depth skills and knowledge in using medicine to ensure people achieve optimal health outcomes. As part of the healthcare team, pharmacists also provide information and recommendations to doctors, nurses and other healthcare professionals regarding the selection of the best medicines, dosages and how to manage side effects.

Bachelor of Pharmacy at CDU is a four-year degree that is accredited by the Australian Pharmacy Council. You will develop your knowledge and skills in the following areas:

- Problem-solving and personal and professional communication skills.
- Pharmacy practice including experiential learning in real pharmacies (application of knowledge and skills to help people get the best outcomes from medicines).
- The ability to develop an individual health-care plan for patients with complex conditions, focusing on self-management.
- Nationally recognised Mental Health First Aid Australia certificate.
- Ability to administer injections including vaccinations.

These skills are underpinned by an in-depth understanding of the following sciences:

- Chemistry and Medicinal Chemistry (structure of medicines)
- Anatomy and Physiology (how the body works)
- Biochemistry and Genomics (how the body grows)
- Pharmacology and Pharmacotherapeutics (how medicines work in the body)
- Pharmaceutics (designing and making medicines)
- Microbiology (how the bugs grow in the body).

PROFESSIONAL RECOGNITION
This course is fully accredited with the Australian Pharmacy Council and graduation allows you to apply for provisional registration as a pharmacist with the Pharmacy Board of Australia.

CAREER OPPORTUNITIES
Pharmacists are able to work in a wide variety of settings including primary care, community and hospital pharmacy, research and development of new medicines, teaching, medical communication and owning your own business.
about the course

Love sport so much that you want to make it your career? The Associate Degree in Exercise and Sports Science will help you reach your goal.

As an exercise and sports professional, you will help your clients improve their health and fitness, enhance physical performance and prevent and rehabilitate injury in athletes and the clinical population.

Professional recognition

You can apply as individual members to the Australian Council for Health Physical Education and Recreation (ACHPER).

Career opportunities

Graduating from this course may lead to career opportunities as an allied health professional in the Australian health and fitness, sports industry, or you may continue further studies to a Bachelor of Exercise and Sports Science.

about the course

Ready to take your passion for exercise to the next level but not prepared to commit to a full undergraduate degree? The Diploma of Exercise and Sport Science will allow you to explore the anatomy and physiology at a foundation level.

You’ll also learn about:
> the musculoskeletal system and the physiology of nerve and muscle function
> the cardiovascular system and the respiratory system as well as other cellular and genetic processes
> the control of movement and motor skill acquisition
> how the human body interacts with the environment
> the subsequent optimisation of physiological, biomechanical, and psychological responses and adaptations to acute and chronic exercises.

You have the choice to undertake this diploma either on campus at Casuarina (internal) or online from anywhere in Australia (externally).

Professional recognition

You can apply as individual members to the Australian Council for Health Physical Education and Recreation (ACHPER).

Career opportunities

Graduating from this course may lead you to career opportunities in the Australian health and fitness, sports industry, or you may continue to further studies into our bachelor course.

about the course

The Bachelor of Science will allow you to explore your curiosity and passion for knowledge within your chosen scientific field. Your study options are flexible and diverse with a focus on professional experience in various sciences including biologist, ecologist, spatial scientist, biomedical scientist, chemist, or in other science fields.

You will combine academic studies with practical learning in distinctive environments and communities of northern Australia and the region, and their associated challenges in environmental management and public health, including Indigenous health.

You will strengthen your problem solving, logical and critical thinking skills, apply an understanding of scientific and technological factors, and consider issues from various cultural, economic and other societal perspectives throughout your studies helping you to approach tasks informed and confident.

As you progress through your diploma, you will develop your knowledge in logical and critical thinking, and problem-solving from a scientific and technological perspective.

After completing your diploma, you have the option to move into our Bachelor of Science or Bachelor of Environmental Science courses.

Whether you are in the science field or looking to move into science, or perhaps you are a teacher or engineer wanting to gain knowledge about a specific science discipline, this flexible diploma will help you find what you are looking for.

Career opportunities

Graduating from this course may lead to a variety of science-related roles in government, private companies, non-government organisations (NGO) and the community sector as a biologist, ecologist, spatial scientist, biomedical scientist, chemist, consultant, laboratory assistant, project manager or advisor.
ABOUT THE COURSE

The Bachelor of Indigenous Knowledges Honours develops your understanding of and respect for Indigenous knowledges and the engagement of Indigenous people in the culture of academic research. You will study key issues surrounding, and protocols related to, research by and with Indigenous people.

Research projects are drawn from both the requests of Indigenous community leaders, the involvement of academics in current research projects and community-led projects and their subsequent related and independent interests. Studies focus on Indigenous peoples’ engagement in the economic use and management of land and water resources, exploration of the policy environment within which Indigenous people operate, issues of language and cultural maintenance and development.

You are encouraged to be self-reflective and interrogate your attitude and practices in the light of the social and cultural diversity during your research.

Successful completion of this honours program will prepare you for study in a relevant higher degree by research program. It will prepare you for engagement in respectful and collaborative research activities across a wide range of disciplines and with a focus upon Indigenous cultural, historical, environmental and social contexts.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities to work with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies, or private enterprises that are involved in Indigenous affairs.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent in an Indigenous Cultures, Indigenous Knowledges, Social Sciences or Natural Resource Management discipline or field with at least a credit average.

ADDITIONAL APPLICATION REQUIREMENTS

Applicants must contact the College of Indigenous Futures, Arts and Society either by email to IFASAdmin@cdu.edu.au or via phone on (08) 8946 4402 to discuss a potential project and supervision prior to submitting an application.
Bachelor of Creative Arts and Industries (Honours)

**SATAC CODE** – 1BH005

**CASUARINA**

**DURATION** – 1 year full time, 2 years full time

**DOMESTIC INTAKE** – Semester 1, Semester 2

**ABOUT THE COURSE**

If you’ve completed your undergraduate degree and want to specialise in a creative field, this course is for you.

The Bachelor of Creative Arts and Industries (Honours) is a pathway course into creative arts and industry specialisations in areas such as music, fine arts, new media design or communication.

During this course, you will develop your research thesis so you can focus on your passion. There are also opportunities to participate in gallery and museum research projects.

**Note:** This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

**CAREER OPPORTUNITIES**

Graduating with a Bachelor of Creative Arts and Industries (Honours) may lead to career opportunities in government, private companies and non-government organisations (NGO) in areas such as media and communications, IT, creative arts, design, film and production or music.

**ADMISSION REQUIREMENTS**

You must have successfully completed a recognised bachelor degree in the fields of architecture and design, communications, music, new media or visual arts. You will have attained at least a credit average and have completed undergraduate units (or equivalent) in your proposed research area at a credit level or above.

**ADDITIONAL ADMISSION REQUIREMENTS**

Applicants must contact the College of Indigenous Futures, Arts and Society either by email to IFASAdmin@cdu.edu.au or via phone on (08) 8946 6482 before submitting an application to discuss a potential project idea and supervision arrangements, including any portfolio or interview presentations.

---

Bachelor of Educational Studies

**NON-SATAC**

**CASUARINA, ONLINE**

**DURATION** – 3 year full time, 6 years part time

**DOMESTIC INTAKE** – Course transfer

**ABOUT THE COURSE**

The Bachelor of Educational Studies offers a flexible three-year undergraduate degree with a wide range of opportunities and choices available to graduates.

It offers flexibility in education career options, such as vacation care, homework centres, tutoring in private colleges and home tutoring. It also gives those candidates with an interest in education and the option of studying a broad range of education subjects relating to education as a discipline (non-teaching).

**CAREER OPPORTUNITIES**

Graduating from this course offers flexibility in education career options, such as vacation care, homework centres, tutoring in private colleges and home tutoring.

**ADMISSION REQUIREMENTS**

There is no direct entry into this course. This course is available only as an internal course transfer from the Bachelor of Education Primary or the Bachelor of Education Secondary. Students must complete a minimum of 40 credit points in the Bachelor of Education Primary or the Bachelor of Education Secondary to be eligible to apply for transfer.

**ESSENTIAL REQUIREMENTS**

Criminal history check: students may need to undertake a criminal history check depending on their unit selection.
About the Course

If you have completed your arts undergraduate degree and want to specialise in a field you are passionate about, an honours program is what you are after. The Bachelor of Arts (Honours) will prepare for your research project at the postgraduate level in key areas such as history, literary studies, political science, Indonesian, sociology and South-East Asian studies. With this course, you will build your understanding and critical evaluation of aspects of human society, its history, culture, political development, and diversity, with opportunities to study northern Australian, South-East Asian and other societies.

Admission Requirements

Applicants must contact the College of Indigenous Futures, Arts and Society either by email to IFASAdmin@cdu.edu.au or via phone on (08) 8946 6482 to discuss a potential project and supervision arrangements.

Bachelor of Arts (Honours)

SATAC CODE: 1BH001
Casuarina, Online

DURATION: 1 year full time, 2 years part time

Domestic Intake: Semester 1, Semester 2

About the Course

Are you a high achieving psychology student, wanting to distinguish yourself from other graduates and pursue a rewarding career as a clinical psychologist or in other professions? If yes, then the Bachelor of Psychological Science (Honours) could be the next step for you.

The honours program is the most common critical stepping stone towards becoming a registered clinical psychologist. However, this course also opens the doors to an exciting range of valuable specialised graduate and postgraduate studies as well as to higher research degrees such as a PhD.

The Bachelor of Psychological Science (Honours) is a one-year course that is accredited by the Australian Psychology Accreditation Council (APAC) and recognised by the Australian Psychological Society (APS). Upon successful completion, you will be eligible for provisional registration as a psychologist with the Psychology Board of Australia. You could then become eligible for general registration as a psychologist with at least two years of supervised practice.

This honours program gives you an opportunity to acquire expertise and skills that are highly valued by employers in human-centred professions. The honours will enable you to develop an in-depth understanding of psychological theories and practice. You will also have the opportunity to design, conduct, interpret and communicate research.

The expertise and skills that you can gain in the honours program will assist you to better understand yourself, grow and enhance your wellbeing, enable healthier and more empowering relationships, adapt to changes in your personal and professional environments, and empower other people. The knowledge and skills you can acquire in the honours program are designed to prepare you for careers in a wide range of areas in private and government organisations.

Professional Recognition

Upon successful completion, you will be eligible for provisional registration as a psychologist with the Psychology Board of Australia.

Career Opportunities

After graduating, you will have the knowledge and skills to work in areas relevant to human health and wellbeing such as health, counselling, education, sport, marketing, policy, forensic, youth work, justice systems, service delivery, human resource management and research. Depending on your chosen area, you could work in a wide variety of contexts including private practice as a provisional registered psychologist, state/territory and federal government agencies, community organisations, hospitals, businesses, schools and universities.

Completion of the honours program gives you access to exciting specialised graduate and postgraduate studies. If you complete your honours with at least a high 2A, you can also continue your studies by undertaking specialised postgraduate courses including the Masters of Psychology (Clinical) or choose a career in research by embarking on a PhD including the PhD/Psych (Clinical).

Admission Requirements

Successful completion within the last 10 years of an APAC accredited Bachelor of Psychological Science degree or equivalent. This is a competitive course with more applicants than places available.

Applicants must have a GPA of at least 5.50 and at least a credit in second year and third year research design and analysis or equivalent.

Bachelor of Psychological Science (Graduate Entry)

SATAC CODE: 1BH014
Casuarina, Online

DURATION: 1 year full time, 2 years full time

Domestic Intake: Semester 1, Semester 2

About the Course

Do you dream of working as a psychologist? The Bachelor of Psychological Science (Graduate Entry) is a foundation course, introducing you to the concepts, practices and science of psychology. You will develop your skills and knowledge in human behaviour which includes the fundamental premise of psychology as an empirically based science, social-cultural perspectives, and research methods.

This course acts as a pathway into the Bachelor of Psychological Science Honours program, which prepares you for specialist training and registration.

Professional Recognition

The degree will be submitted for accreditation by the Australian Psychology Accreditation Council.

Career Opportunities

This course will equip you with skills and knowledge in a range of psychology areas (e.g. abnormal psychology, personality, developmental). These skills could lead to career opportunities in human resources, preventative health education and training, community services, advertising and marketing, and sport and rehabilitation.

Admission Requirements

Successful completion of a recognised bachelor degree or equivalent together with successful completion of APAC accredited first year psychology units. Students who have completed an APAC accredited undergraduate degree are not eligible for entry.
Bachelor of Laws (Graduate Entry)

ABOUT THE COURSE

The Bachelor of Laws program (Graduate Entry) enables those who hold a degree level qualification (other than law) to complete a law degree in three years instead of four.

The program provides you with the academic foundation for admission to legal practice. In that context, the course provides you with knowledge of the law, legal processes and legal principles and cultivates a capacity for legal research, analysis and communication.

There is a focus on the analysis, interpretation, evaluation and application of various sources of authority to construct solutions to legal problems. The course also deals with theoretical perspectives on the law and encourages an appreciation of transnational law and of legal issues of special significance to the Northern Territory, including Aboriginal legal issues.

PROFESSIONAL RECOGNITION

The Bachelor of Laws (Graduate Entry) is accredited by the Legal Practitioners Admission Board of the Northern Territory and provides the academic foundation for admission to legal practice in the Northern Territory and elsewhere in Australia.

To be admitted to legal practice in Australia, you must also complete the Graduate Diploma in Legal Practice (GDLP). This can be taken through the College of Law, Sydney, and completed online.

CAREER OPPORTUNITIES

For a wide range of career opportunities. You may choose to become a solicitor or barrister, or you can work in industries that value an in-depth understanding of the law, for example politics, the public service, industrial relations or community advocacy.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor’s degree or equivalent.

Bachelor of Laws Honours

ABOUT THE COURSE

If you’re a Bachelor of Laws student at CDU, you may apply to transfer to the honours course in the final year of your degree program. If you choose to do so, your final year will include units in research methodologies and development and undertaking research projects.

Completing the honours course will improve your research and writing skills, which are important for all legal practitioners. It will also provide a pathway for post-graduate study. Note that honours units are taken in place of some of the elective units that you would otherwise study in the Bachelor of Laws degree.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

PROFESSIONAL RECOGNITION

The Bachelor of Laws Honours is accredited by the Legal Practitioners Admission Board of the Northern Territory and provides the academic foundation for admission to legal practice in the Northern Territory and elsewhere in Australia.

To be admitted to legal practice in Australia, you must also complete the Graduate Diploma in Legal Practice (GDLP). This can be taken through the College of Law, Sydney, and completed online.

CAREER OPPORTUNITIES

As a Bachelor of Laws (Graduate Entry) student, you may apply to transfer to the honours course in the final year of your degree program. If you choose to complete your honours, the final year will include units in research methodologies and development and the undertaking of research projects. These units are taken as substitutes for some elective units that would otherwise be taken in the Bachelor of Laws degree program. Completion of the honours course will enhance your research and writing skills, which are important for all legal practitioners. It will also provide a pathway for post-graduate study.

ADMISSION REQUIREMENTS

There is no direct entry into this course. This course is available only as an internal transfer from the Bachelor of Laws (Graduate Entry). Current students who have completed the first and second year units with a GPA of 5.00 or above may apply for transfer into the honours program provided they are concurrently enrolled in the remaining core units for their third year.
PROFESSIONAL RECOGNITION
This course satisfies the requirements of the Australian Pharmacy Council. Eligibility for registration in Australia will be granted by the Pharmacy Board of Australia. Pharmacists registered in Australia are able to work as pharmacists in all Australian states and territories and New Zealand.

CAREER OPPORTUNITIES
Graduating from this course will lead to career opportunities in community, retail, and hospital pharmacies, as well as roles in government, private, and non-government organisations (NGO).

ADMISSION REQUIREMENTS
There is no direct entry into this course. This course is available only as an internal transfer from the Bachelor of Pharmacy to current students who have completed the first three years of the Bachelor of Pharmacy with GPA >5.0. Offers may be limited and will be made on the basis of invitation and interview.

ADDITIONAL ADMISSION REQUIREMENTS
Students enrolled in the Bachelor of Pharmacy who have successfully completed 3rd year (all compulsory common and core units totaling 240 credit points) with a GPA of credit or above (5.00) are eligible to apply to transfer into this honours program.

Key areas you could base your research on include:
- biology
- ecology
- spatial science
- mobility
- nursing
- networking
- mobile
- software development
- information systems
- medical science
- clinical science
- sport and exercise science
- pharmacy

Honours qualifications prepare you for professional positions requiring higher level project management, problem-solving and research skills. Honours qualifications are also a pathway to further study in master or PhD programs.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.
Postgraduate courses

Graduate Diploma of Indigenous Policy Development

SATAC CODE: 1GD021
Cassowary, Online (Commonwealth Supported)

SATAC CODE: 1GD521
Cassowary, Online (Full Fee)

DURATION: 1 year full time, 2 years part time

DOMESTIC INTAKE: Semester 1, Semester 2

ABOUT THE COURSE

With the Graduate Diploma of Indigenous Policy Development you will build on your professional knowledge and experiences with a critical understanding of important aspects of Indigenous economic and policy development in modern Australia. You will examine key issues of Indigenous policy development and implementation, economic development and participation, traditional and modern governance structures, and intellectual and cultural property rights in current social and political contexts. This course is an essential foundation for respectful and accountable engagement with Indigenous people and the current social and political issues they face in Australia and internationally. This is an important course if you want to develop your knowledge and understanding of:
> the workings of government and policy
> the structures and functions of governance in relation to Indigenous people
> the practice of cultural engagement with and between Indigenous and non-Indigenous people
> the culture and language of Yolngu people.

CAREER OPPORTUNITIES

Potential employment opportunities include roles in government and non-government organisations that look after Indigenous affairs in areas such as research, policy development, or media and communications and academia.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent. Consideration will also be given to non-graduates who have at least 5 years of demonstrated relevant professional experience. Applicants may be asked to provide further documentation detailing their employment experience, roles and achievements in the form of a curriculum vitae.

Graduate Certificate of Indigenous Engagement

SATAC CODE: 1GC023
Online (Commonwealth Supported)

SATAC CODE: 1GC523
Online (Full Fee)

DURATION: 1 year part time

DOMESTIC INTAKE: Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Indigenous Engagement course will broaden your knowledge and skills in the effective and respectful engagement with people in Indigenous contexts. You will explore and critically analyse the historical and contemporary contexts of interactions between Indigenous and non-Indigenous people and develop communication skills to assist in establishing, maintaining and promoting respectful interactions and partnerships targeted at particular areas of professional expertise.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities to work with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies, or private enterprises that are involved in Indigenous affairs.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent. Consideration will also be given to non-graduates who have over five years of demonstrated relevant professional experience. Applicants may be asked to provide further documentation detailing their employment experience, roles and achievements in the form of a curriculum vitae.
Graduate Certificate of Indigenous Research Methodologies

- **SATAC CODE** - 1GC524
- **Online** (Full Fee)
- **DURATION** - 1 year part time
- **DOMESTIC INTAKE** - Semester 1, Semester 2

**ABOUT THE COURSE**

See first-hand how your research contributions can create positive change and support equitable and meaningful engagement with Indigenous Australians.

During your graduate certificate studies, you explore and analyse alternative epistemological paradigms that can inform your research practices and allow for engagement in research that provides outcomes consistent with Indigenous communities, vision and aims.

You will develop a deeper understanding of the epistemological foundations of Indigenous research methodologies and apply your skills working with Indigenous people to secure equitable outcomes that may inform community development and public policy outcomes.

Your studies ensure you can demonstrate an ability to apply the research practices learnt in a culturally informed and respectful manner.

**CAREER OPPORTUNITIES**

You have the opportunity to develop your knowledge and skills useful for roles with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies who are developing and implementing policy related to Indigenous Australians.

CAREER OPPORTUNITIES

- Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies involved in Indigenous affairs and are keen to have an impact upon Indigenous people.
- Private agencies and organisations who are developing and implementing policy related to Indigenous Australians.

You have the opportunity to develop your knowledge and skills useful for roles with Aboriginal and Torres Strait Islander people, organisations and communities, government departments and agencies who are developing and implementing policy related to Indigenous Australians.

**ADMISSION REQUIREMENTS**

- Successful completion of a recognised bachelor degree or equivalent.
- Demonstrated relevant professional experience equivalent to five years or more.
- Applicants may be asked to provide further documentation detailing their employment experience, roles and achievements in the form of a curriculum vitae.

Graduate Certificate in Yolngu Studies

- **SATAC CODE** - 1GC503
- **Casuarina, Online (Commonwealth Supported)**
- **SATAC CODE** - 1GC503
- **Casuarina, Online (Full Fee)**
- **DURATION** - 1 year part time
- **DOMESTIC INTAKE** - Semester 1, Semester 2

**ABOUT THE COURSE**

With the Graduate Certificate in Yolngu Studies, you will be introduced to the life and languages of the Yolngu people in east Arnhem Land gaining invaluable insight into the complexity of Indigenous worlds found elsewhere in Australia.

This course concentrates on Yolngu Rom (law, education), Yolngu Matha (Yolngu languages) forms of Gupapaɲguy Dhuwala; and you will learn the everyday conversation version of the language, building on grammar and basic vocabulary, which will help if you decide to continue learning other Yolngu languages.

Key areas you will also explore are Yolngu life, kinship practice, creation stories, songs, art and ceremonies and how they are related. This will help students to be able to comprehend the way in which Yolngu collectively make and enact traditional knowledge.

**Note:** This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

**CAREER OPPORTUNITIES**

Your qualification will complement professional positions and prepares you for career opportunities in policy development, health and education, public servant roles, research and other roles not just in Yolngu communities.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or equivalent. Native speakers of a Yolngu language who do not have an undergraduate degree, but who are recognised by the Yolngu advisors to the college as having advanced literacy skills or experience in research or education, will be eligible for admission. People in regular contact with Yolngu through their professions, and who can demonstrate significant knowledge of culture and language proficiency, will be considered for entry to the course.

Master of Business Administration

- **SATAC CODE** - 1CM569
- **Waterfront Darwin, Online (Full Fee)**
- **SATAC CODE** - 1CM570
- **Sydney (Full Fee)**
- **DURATION** - 1.5 years full time, 3 years part time
- **DOMESTIC INTAKE** - Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**

The Master of Business Administration (MBA) develops the key attributes and skills you need to move into senior and middle management positions in business, industry and the public sector. It compliments your existing qualifications and experience, giving you an opportunity to learn more about:

> accounting for managers
> business research
> decision making
> communication
> negotiation and conflict resolution
> economics for managers
> organisational behaviour
> organisational strategy and leadership
> fundamentals of management

At CDU, you can study an MBA online or on campus to suit your lifestyle. You can also tailor your studies to suit your goals, with options to design your coursework around your areas of interest.

**CAREER OPPORTUNITIES**

The Australian Government predicts strong industry demand for business degree graduates from a wide range of sectors. As a Master of Business Administration graduate you will be qualified to pursue a range of exciting domestic and international career opportunities, which include business planning and management, brand management, marketing, market research, business analysis, e-commerce, human resource management, and many others.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in a business or related field.

OR

Successful completion of a recognised non-business award (bachelor degree, graduate certificate or graduate diploma) aimed at providing the student with professional skills that include a systematic exposure to disciplines such as industrial relations, human resource management, project management, financial management, marketing, economics, e-commerce or strategic management plus a minimum of 6 months employment experience.

OR

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in an unrelated field plus a minimum of two years full-time employment experience in a managerial role.
Master of Business Administration (Professional Practice)

SATAC CODE – 1CM572
Waterfront Darwin, Online (Full Fee)

SATAC CODE – 1CM573
Sydney (Full Fee)

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer-Semester

ABOUT THE COURSE

The Master of Business Administration (Professional Practice) complements your current management role and further develops your knowledge and professional corporate skills in:

- accounting for managers
- business research
- decision making
- communication
- negotiation and conflict resolution
- economics for managers
- organisational strategy
- leadership fundamentals of management.

At CDU, you can study an MBA online or on campus to suit your goals.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in business or related field.

OR

Successful completion of a recognised non-business award (bachelor degree, graduate certificate or graduate diploma) aimed at providing the student with professional skills that include a systematic exposure to disciplines such as industrial relations, human resource management, project management, financial management, marketing, economics, e-commerce or strategic management plus a minimum of 6 months employment experience.

OR

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in an unrelated field plus a minimum of 2 years full-time employment experience in a managerial role.

You may be asked to provide further documentation detailing your employment experience and outlining managerial roles and achievements.

If you have no undergraduate or post-graduate qualifications, you should apply for entry into one of the following programs:

- Graduate Certificate of Global Marketing (1GC525)
- Graduate Certificate of Human Resource Management (1GC527)
- Graduate Certificate of Strategic Management (1GC531).

CAREER OPPORTUNITIES

The Master of Business Administration predicts strong industry demand for business degree graduates from a wide range of sectors. As a Master of Business Administration graduate you will be qualified to pursue a range of exciting domestic and international career opportunities, which include business planning and management, brand management, marketing, market research, business analysis, e-commerce, human resource management, and many others.

Completing an MBA (Professional Practice) may open the door to more opportunities with your current employer. It will prepare you to move into a middle to upper management-level position in a range of industries across the private and public sectors.

Master of Professional Accounting

SATAC CODE – 1CM504
Waterfront Darwin, Online (Commonwealth Supported)

SATAC CODE – 1CM505
Waterfront Darwin, Online (Full Fee)

SATAC CODE – 1CM506
Sydney (Commonwealth Supported)

SATAC CODE – 1CM507
Sydney (Full Fee)

DURATION – 1.5 years full time, 3 years part time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Master of Professional Accounting complements your non-accounting, partial accounting, or accounting but not equivalent to Australian accounting qualifications to meet the entry requirements for membership of CPA Australia and The Chartered Accountants of Australia and New Zealand (CAANZ).

The course focuses on the knowledge and skills required for practice as a certified public accountant or chartered accountant along with effective management, accountability and control, and effective decision-making for financial success.

You will develop technical and conceptual skills required to become a competent accountant as well as abilities to analyse, criticise and synthesise various accounting and related principles, methods and techniques.

Key study areas include: financial accounting, management accounting, accounting theory, information systems/technology, auditing, taxation, finance, company law, and corporate law.

PROFESSIONAL RECOGNITION

This conversion course enables graduates to meet the entry requirements for membership of CPA Australia, the Chartered Accountants Australia and New Zealand (CAANZ), and The Chartered Institute of Management Accountants in the U.K.

CAREER OPPORTUNITIES

Completing a Master of Professional Accounting with relevant work experience can lead to a wide range of career opportunities in small, medium and large organisations. As a graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, business (financial analyst), or work in a large multinational company or ‘Big Four’ accounting firm. Or, you could run your own businesses, work in a small local accounting firm, or work in other areas of business management.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor’s degree in any discipline, including a bachelor’s degree in accounting but not equivalent to an Australian bachelor’s degree in accounting is required for admission into this course.

Applicants who have fully satisfied the entry requirements of the accounting professional bodies in their first degree are not eligible for entry.
ABOUT THE COURSE
This course develops your knowledge, skills and understanding of strategic management.

CAREER OPPORTUNITIES
By completing this course, you may gain career opportunities in industries that offer middle to upper management level positions in private companies and government.

ADMISSION REQUIREMENTS
Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in a business or related field.

OR

Successful completion of a recognised non-business award (bachelor degree, graduate certificate or graduate diploma) aimed at providing the student with professional skills that include a systematic exposure to disciplines such as industrial relations, human resource management, project management, financial management, marketing, economics, commerce or strategic management plus a minimum of 6 months employment experience.

OR

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in an unrelated field plus a minimum of three years of appropriate professional experience in middle to high level management.

Applicants may be asked to provide further documentation detailing their employment experience and outlining managerial roles and achievements in the form of curriculum vitae, two referee reports and a statement of purpose. The statement of purpose should address why you would like to be admitted into the course, career goals and aspirations, and how you will benefit from the course.

ABOUT THE COURSE
This course develops your knowledge and skills applied to successful entrepreneurial ventures, business to business (B2B) marketing, business to customer (B2C) marketing and marketing in the service industry.

As a marketing specialist, you are responsible for generating key revenue in organisations. Marketing determines the products and services offered, prices, the communications (including advertising and promotion), as well as the channels of distribution and retail.

Your skill set is also valuable in multiple areas of business including accounting and finance, human resources and management, taxation and law.

The importance of marketing has grown over the past decade due to competition and a renewed focus on creating favourable customer experiences. The marketing manager’s role has also grown due to increasing internationalisation and rapidly evolving technologies and social media, not to mention growing recognition of the need for sustainability and corporate accountability. All these changes have occurred during an era of increasing accountability.

The Graduate Certificate in Global Marketing explores modern marketing in the increasingly dynamic and international business environment.

CAREER OPPORTUNITIES
You may have career opportunities in marketing management, brand management, customer relationship management, market research, communications or public relations.

The Graduate Certificate of Global Marketing also provides you with a pathway into the Masters of Business Administration, which offers further career progression opportunities.

ADMISSION REQUIREMENTS
Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in a business or related field.

OR

Successful completion of a recognised non-business award (bachelor degree, graduate certificate or graduate diploma) aimed at providing the student with professional skills that include a systematic exposure to disciplines such as industrial relations, human resource management, project management, financial management, marketing, economics, commerce or strategic management plus a minimum of 6 months employment experience.

OR

Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in an unrelated field plus a minimum of three years of appropriate professional experience in middle to high level management.

Applicants may be asked to provide further documentation detailing their employment experience and outlining managerial roles and achievements in the form of curriculum vitae, two referee reports and a statement of purpose. The statement of purpose should address why you would like to be admitted into the course, career goals and aspirations, and how you will benefit from the course.
Graduate Certificate of Strategic Management

- **SATAC CODE**: 1GC531
- **DURATION**: 1 year part time
- **DOMESTIC INTAKE**: Semester 1, Semester 2, Summer Semester

**ABOUT THE COURSE**
The Graduate Certificate of Strategic Management will help you get the qualifications and skills to be a confident candidate when applying for middle to upper-management positions. The course provides you with the knowledge and skills you need to be a successful manager. You’ll study areas such as decision making, organisational analysis, and understanding of strategic management. You’ll also have the opportunity to focus on what you’re passionate about.

**ADMISSION REQUIREMENTS**
Successful completion of a recognised bachelor degree, graduate certificate or graduate diploma in a business or related field.

- Successful completion of a recognised non-business award (bachelor degree, graduate certificate or graduate diploma) aimed at providing the student with professional skills that include a systematic exposure to disciplines such as industrial relations, human resource management, project management, financial management, marketing, economics, e-commerce or strategic management plus a minimum of 6 months employment experience.
- Consideration will also be given to non-graduates who have at least three years of appropriate professional experience in middle to high level management.

**CAREER OPPORTUNITIES**
Graduates may have the opportunity to move into a variety of industries that offer middle to upper-management positions in the private and public sectors.

The Graduate Certificate of Strategic Management also provides you with a pathway into the Master of Business Administration, which offers further career progression opportunities.

Master of Data Science

**SATAC CODE**: ICM590
- **DOMESTIC INTAKE**: Semester 1, Semester 2

**ABOUT THE COURSE**
The Master of Data Science will further develop your technical and analytical skills needed to manage and interpret useful insights from massive data sets. This qualification complements the following multi-disciplinary areas:

- computer science
- information technology
- information systems
- mathematics
- engineering or a program with substantial quantitative competencies.

The course focuses on cyber security in the modern world. You will apply your knowledge in practical activities giving you the opportunity to work alongside industry leaders.

**ADMISSION REQUIREMENTS**
Successful completion of a recognised bachelor’s degree with a major in computer science, information technology, information systems, statistics, mathematics, engineering, or a program with substantial quantitative competencies.

---

Master of Information Technology (Cyber Security)

**SATAC CODE**: ICM091
- **DOMESTIC INTAKE**: Semester 1, Semester 2

**ABOUT THE COURSE**
The Master of Information Technology (Cyber Security) complements your current information systems, information technology and computer science degree. The course focuses on cyber security in the modern world. You will apply your knowledge in practical activities giving you the opportunity to work alongside industry leaders.

**ADMISSION REQUIREMENTS**
Successful completion of a recognised Bachelor of Information Systems, Bachelor of Information Technology or Bachelor of Computer Science, Bachelor of Computer Engineering, or equivalent.

---

**COMPUTING AND INFORMATION TECHNOLOGY**

**Master of Data Science**

- **SATAC CODE**: ICM590

ABOUT THE COURSE
The Master of Education (Global Learning) focuses on globalised learning and prepares you for research in this area. This course aims to meet the professional development needs of education policymakers, practitioners, school teachers and principals and researchers working across Australia and in the Asia Pacific. You are encouraged to customise this course to meet personal, organisational, workplace and community interests. Key areas you could base your research on include: international education, education policy, higher education, vocational education, literacy and language, English language teaching in Asia, educational leadership and management, Indigenous education, digital learning futures, education for all, technical and vocational education and training, and adult education.

During this course, you will further strengthen your analytical thinking, collaborative learning, project management, and transformative practice skills in local and global settings. You are also encouraged to apply what you learn in practical contexts during your studies in order to build on your work experience.

CAREER OPPORTUNITIES
Graduating from this course may lead to career opportunities as education policymakers, practitioners, school teachers and principals and researchers working across Australia and the Asia Pacific.

ADMISSION REQUIREMENTS
Successful completion of one of the following:
- a recognised four-year degree in a field related to education
- a recognised three-year degree plus a graduate certificate, graduate diploma or honours degree of which at least one must be in a field related to education
- a qualification or qualifications and professional experience deemed equivalent to the above.

ABOUT THE COURSE
Advancements and innovations with digital technology are not stopping now! The Master of Digital Learning Futures can help you get ready for the next wave of global transformation. This innovative, industry-relevant program investigates the dynamics of the digital era. What new ‘smarts’ are on the horizon and what skills are needed to engage effectively within the digital paradigm? How might we learn next? How might we teach? The Master of Digital Learning Futures is an inter-disciplinary course that probes the possibilities of digital media and how it can optimise learning.

The course is suited to those working or aiming to work in educational settings, creative industries, software development, learning design, e-learning and related fields. Based on a solid foundation of core units, you’ll have opportunities for research and internships, as well as the flexibility to choose from electives in new media production skills, web development, programming and systems management.

CAREER OPPORTUNITIES
Graduating from this course may lead to a range of roles, including in teaching or as a teaching centre technology officer, instructional designer, education software developer, learning and development specialist or e-learning specialist.

ADMISSION REQUIREMENTS
Successful completion of a recognised bachelor’s degree or higher.
Master of Teaching

SATAC CODE – EARLY CHILDHOOD/PRIMARY – 1CM077
Cassarina, Online (Commonwealth Supported)

SATAC CODE – PRIMARY – 1CM081
Cassarina, Online (Commonwealth Supported)

SATAC CODE – SECONDARY – 1CM085
Cassarina, Online (Commonwealth Supported)

DURATION – 2 years full time, 4 years part time

DOMESTIC INTAKE – Semester 1, Semester 2, Summer Semester

ABOUT THE COURSE

If you already hold a bachelor’s degree in a field other than education, the Master of Teaching can help you to become a teacher in two years. At CDU, you can study your Master of Teaching online or on campus, part time or full time. This makes it easier to study where, when and how it suits you.

On graduating, you’ll be eligible to register as a teacher in all states and territories in Australia. The Master of Teaching qualifies you to teach early childhood (birth to year 7), primary (transition to year 7) or secondary (year 8 to 12). Before you start studying, you’ll need to choose the stream that suits your career goals and interests.

The course prepares you for new and changing roles as an educator. You will develop an awareness of the environmental and cultural influences on teaching and learning. You’ll also explore the needs of learners and communities with diverse linguistic and cultural orientations, including Indigenous learners. As a teacher, your levels of personal literacy and numeracy will be broadly equivalent to the top 30% of the Australian population.

PROFESSIONAL RECOGNITION

The Master of Teaching has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

The Early Childhood and Primary Teaching stream is approved with the Australian Children’s Education and Care Quality Authority (ACECQA).

Graduates of the course will be eligible to register as a teacher in all Australian State and Territory jurisdictions subject to meeting other eligibility criteria, such as the National Literacy and Numeracy test for Initial Teacher Education aligned with Teacher Registration Requirement, English proficiency and suitability to teach.

Before applying for admission, students intending to seek employment should have the relevant State/Territory employment authority (e.g. State or Territory Department of Education, or Catholic Education Office) confirm their eligibility and suitability for employment.

CAREER OPPORTUNITIES

Graduating with a Master of Teaching prepares you to teach in early childhood, primary or secondary school settings. It also prepares you to work in associated educational areas, such as curriculum development, educational planning, educational research, and policy development.

ADMISSION REQUIREMENTS

For the early childhood and primary teaching stream

Successful completion of a recognised bachelor degree or equivalent in either early childhood, primary or an area relevant to early childhood/primary curriculum, such as art, music, technologies, English, health and physical education, mathematics, science or humanities and social sciences (for example, history and geography).

For the primary teaching stream

Successful completion of a recognised bachelor degree or equivalent with at least one-year equivalent full time in an area relevant to primary curriculum, such as art, music, technologies, English, health and physical education, mathematics, science or humanities and social sciences (for example, history and geography).

For the secondary teaching stream

Successful completion of a recognised bachelor degree or equivalent comprising of a major sequence and a minor sequence in two of the following secondary teaching areas: English, legal studies, Indigenous studies, accounting, business studies, economics, geography, history, mathematics, languages other than English, music, technologies, visual arts, chemistry, biology/ecology, environmental science, physics and health and physical education.

A major sequence is defined as one quarter of a three-year degree and a minor sequence is defined as one sixth of a three-year degree.

Note: if you have completed a major sequence in a teaching area, but do not meet the minimum requirements of one sixth in a second teaching area, you are required to contact Student Central on 1800 061 963 or student.central@cdu.edu.au for advice before submitting your application to study.

ADDITIONAL ADMISSION REQUIREMENTS

It is also a government requirement that you complete a Teaching Capabilities Statement, which is used to demonstrate your suitability to study and work in the teaching profession.

Graduate Certificate of Education (Global Learning)

SATAC CODE – 1GC533
Cassarina, Online (Full Fee)

DURATION – 0.5 years full time, 1 year part time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Education (Global Learning) is a diverse and innovative course covering international education, education policy, higher education, vocational education, literacy and language, English language teaching in Asia, educational leadership, Indigenous education and digital technologies and learning.

This course aims to meet the professional development needs of education policymakers, practitioners, school teachers and principals, and researchers working across Australia and in the Asia Pacific, in areas such as (but not limited to): teacher education, higher education, community development, school improvement and digital leadership.

During this course, you will further strengthen your analytical thinking, collaborative learning, project management, and transformative practice skills in local and global settings. You are also encouraged to apply what you learn in practical contexts during your studies building real world experience.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as education policymakers, practitioners, school teachers and principals, and researchers working across Australia and in the Asia Pacific.

ADMISSION REQUIREMENTS

Successful completion of one of the following:

a) a recognised four-year degree in a field related to education
b) a recognised three-year degree plus a graduate certificate, graduate diploma or honours degree of which at least one must be in a field related to education
c) a qualification or qualifications and professional experience deemed equivalent to the above.
As a professional mechanical engineer, you will be able to make significant contributions to the design and development of machinery to improve transportation, and to provide affordable solutions for manufacturing and industrial production. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

PROFESSIONAL RECOGNITION
EUR-ACE
The Master of Engineering is accredited internationally to European EUR-ACE requirements.

ENGINEERS' AUSTRALIA
The Master of Engineering is accredited by Engineers Australia at the time of professional engineer and therefore recognised internationally under the Washington Accord.

IChemE
The Master of Engineering (Chemical) is accredited by IChemE at master’s level (P-Level).

CAREER OPPORTUNITIES
Graduating from the chemical engineering major of this course may lead to career opportunities in areas such as design, project management, manufacturing, process control, mining, oil and gas, consultation, and minerals processing.

Graduating from the civil and structural engineering major of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to professional opportunities in areas such as electronics, renewable energy, power generation, storage and distribution, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, mining, oil and gas, consultation, and project management.

ADMISSION REQUIREMENTS
Successful completion of a recognised Bachelor of Engineering, Bachelor of Engineering Science, Bachelor of Engineering Technology, Bachelor of Technology or equivalent in chemical, civil and structural, electrical and electronics, mechanical engineering or an approved equivalent discipline. Note: applicants may only study in the stream that matches the engineering area of their undergraduate degree.
### Master of Emergency and Disaster Management

**SATAC CODE** - 1CM537  
Casuarina, Online (Commonwealth Supported)  
**SATAC CODE** - 1CM537  
Casuarina, Online (Full Fee)  
**DURATION** - 2 years full time, 4 years to 7 years part time  
**DOMESTIC INTAKE** - Semester 1, Semester 2

**ABOUT THE COURSE**

The Master of Emergency and Disaster Management gives you the skills and knowledge to work as an emergency and disaster management professional. This in-depth, highly unique program is delivered both online and on campus from Darwin, which is Australia’s gateway to Indonesia and South-East Asia. The course draws on research, insights and learnings from a geographic region that is unarguably the most prone to, and affected by, various types of disasters. The course also carries a strong focus on informed practice and places a significant emphasis on the skills and knowledge to work as an emergency and disaster management professional.

Graduating from this course may lead to career opportunities that focus on emergency and disaster management, from prevention to recovery. Your qualifications could land you a role in health, environment, social wellbeing, humanitarian assistance and management.

**ADMISSION REQUIREMENTS**

Successful completion of a recognised bachelor degree or equivalent, or a graduate certificate or graduate diploma or equivalent in a relevant field.

---

### Master of Psychology (Clinical)

**SATAC CODE** - 1CM050  
Casuarina (Commonwealth Supported)  
**SATAC CODE** - 1CM050  
Casuarina (Full Fee)  
**DURATION** - 2 years full time  
**DOMESTIC INTAKE** - Semester 1

**ABOUT THE COURSE**

The Master of Psychology (Clinical) prepares you for your career as a psychologist. Your studies are a combination of coursework, placements, and a thesis to develop and strengthen your skills and knowledge so you are a confident and experienced practitioner ready to make a positive change in your community. Key areas of focus include interviewing and intervention strategies, psychological assessment and therapies, and research methods in professional practice, as well as advanced research methods. After you accept your offer into this course, you must register with AHPRA as a provisional psychologist before the study semester starts.

**ADDITIONAL ADMISSION REQUIREMENTS**

You must have successfully completed a recognised bachelor degree, graduate certificate, graduate diploma, master’s degree or equivalent. If you don’t meet the entry requirements, you’re advised to contact the course coordinator in the College of Indigeneous Futures, Arts and Society either by email to IFASAdmin@cdu.edu.au or via phone on (08) 8946 7404 6482.
ABOUT THE COURSE

Based in the capital of Australia’s Northern Territory, at the centre of the Top End and Australia’s gateway to Indonesia and South-East Asia, this highly unique postgraduate program focuses on a geographically-region that is arguably the most prone to, and affected by various types of disasters.

As an emergency and disaster management professional, you will have the skills and ability to apply your knowledge and experience appropriately, collaboratively and productively in this vulnerable region and other parts of the world.

You will have essential knowledge and skills to lead and manage all phases of the disaster management cycle.

You will also confidently apply your academic studies to practical situations, from small-scale routine emergencies to complex catastrophic events.

During the course, you will:

- develop your leadership skills through advanced analysis of case studies from Australian and abroad
- learn about proactive measures to deal with emergency risk reduction
- explore how to use your skills and knowledge in a way that is appropriate, collaborative and productive in local and global contexts
- learn about proactive measures at the national, regional and international level.

The course explores how public leaders manage crises, the secrets of successful crisis management, and how to anticipate and mitigate risk and future crises.

CAREER OPPORTUNITIES

Most students undertaking this course are from the police, fire and emergency services and are looking to develop their leadership and managerial skills to extend their career in the sector.

ADMISSION REQUIREMENTS

You must have successfully completed a recognised bachelor degree or equivalent, or a graduate certificate or graduate diploma or equivalent in a relevant field.

If you don't hold one of these qualifications, CDU will consider your application if you have a diploma or above and at least five years' relevant professional experience. You will be asked to provide further documentation detailing your employment experience, a curriculum vitae outlining your roles and achievements in, and a statement of purpose addressing why you would like to be admitted into the course, your career goals and aspirations, and the benefits the course will provide you.

Graduate Diploma of Leadership (Police, Fire and Emergency Services)

- SATAC CODE: 1GCS36
- Casuarina, Online (Full Fee)
- DURATION: 1 year to 2 years part time
- DOMESTIC INTAKE: Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Leadership (Police, Fire and Emergency Services) prepares you with the necessary knowledge and skills to provide effective and efficient leadership for managing all types of situations, from small-scale routine emergencies to complex catastrophic events.

The course explores how public leaders manage crises, the secrets of successful crisis management, and how to anticipate and mitigate risk and future crises.

During the course, you will:

- develop your leadership skills through advanced analysis of case studies from Australian and abroad
- learn about proactive measures to deal with emergency risk reduction
- explore how to use your skills and knowledge in a way that is appropriate, collaborative and productive in local and global contexts
- learn about proactive measures at the national, regional and international level.

The course creates a solid foundation for translating your academic development into practical responses, and to apply lessons learned from your professional experience to academic thinking. You will develop your leadership and managerial skills to extend your career opportunities.

CAREER OPPORTUNITIES

Most students undertaking this course are from the police, fire and emergency services sector to acquire skills and knowledge that will further their career in the sector.

ADMISSION REQUIREMENTS

You must have successfully completed a recognised bachelor degree or equivalent, or a graduate certificate or graduate diploma or equivalent in a relevant field.

If you don’t hold one of these qualifications, we will consider your application if you hold advanced level vocational education and training qualifications (such as diploma or above) and at least five years’ appropriate professional experience.
During the Master of Laws, you will study:

- transnational law and legal issues.
- international criminal law
- transnational family law
- transnational intellectual property law
- finance and securities law
- comparative legal systems

It can harmonisation in the region, including the network of trade and emerging Asia-Pacific region. The program explores growing international and transnational legal issues, particularly in the Asia Pacific region.

ABOUT THE COURSE

The Master of Laws is a 100% online course that focuses on international and transnational legal issues, particularly in the emerging Asia-Pacific region. The program explores growing harmonisation in the region, including the network of trade and emerging Asia-Pacific region. It can help you to better understand the Asia Pacific’s comparative and transnational law and legal issues. During the Master of Laws, you will study:

- transnational law
- comparative legal systems
- ASEAN overview and context
- finance and securities law
- transnational intellectual property law
- transnational family law
- international criminal law
- human rights law

The course is designed for practising lawyers who hold an undergraduate law degree or a Juris Doctor degree who wish to complete further education in one or more of the above areas of law to advance their knowledge of legal issues facing the Asia Pacific region. The course is offered online only. You will need access to an internet service with appropriate bandwidth to view or download course content and to engage online with staff and other students.

CAREER OPPORTUNITIES

Studying a Master of Laws typically improves your career opportunities in the competitive legal profession, as well as in law-related fields. It may also provide a pathway to further postgraduate study.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor’s degree in law or a related discipline. Graduates who hold a recognised bachelor’s degree in another discipline and have significant relevant professional experience may be considered. Applicants may be asked to provide a curriculum vitae (CV).

ABOUT THE COURSE

The Master of Public Health will equip you with the tools to investigate, critique, manage and respond to health and social issues in Indigenous, local and global contexts. This course builds advanced skills in interpreting health information, including epidemiology, statistical analysis, and quantitative and qualitative research methods. Learning alongside acclaimed research and public health experts, you will formulate strategies, evaluate and design public health interventions, and apply public health knowledge to health promotion, health systems, health policy and decision making.

CAREER OPPORTUNITIES

Career opportunities for our graduates include the non-government and government sectors in areas of health research, professional health practice, health planning and policy, epidemiology, communicable and chronic disease control, community development and aid work nationally and internationally.

ADMISSION REQUIREMENTS

Successful completion of a bachelor degree or graduate diploma in a relevant area, such as public health, health science, primary health care, medicine or health promotion. Applicants who have successfully completed a bachelor degree in a non-related area who have also successfully completed an honours degree or graduate diploma are also eligible to apply.
Graduate Diploma in Public Health

SATAC CODE: 1GD004
Online (Commonwealth Supported)
SATAC CODE: 1GD504
Online (Full Fee)
DURATION: 1 year full time, 2 years part time
DOMESTIC INTAKE: Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma of Public Health will equip you with the tools to investigate, critique, manage and respond to complex health and social issues in both local and global contexts.

This course builds advanced skills in interpreting health information, including epidemiology, statistical analysis, quantitative and qualitative research methods. Learning alongside acclaimed research and public health experts, you will evaluate and design public health interventions aimed at prevention, protection and promotion of health in the community.

On completion, you can articulate to the Master of Public Health.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Career opportunities for our graduates include a broad range of public health roles in government and non-government organisations.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent. Registered nurses who are graduates of a hospital-based program are also eligible for entry.

Graduate Certificate in Clinical Nursing

SATAC CODE: 1GC007
Online (Commonwealth Supported)
SATAC CODE: 1GC507
Online (Full Fee)
DURATION: 0.5 years full time, 1 year part time
DOMESTIC INTAKE: Semester 1, Semester 2

ABOUT THE COURSE

As a Registered Nurse, you need the skills and knowledge to provide specialised care to individuals, families and communities from diverse ethnic, cultural and socioeconomic backgrounds. During the Graduate Certificate in Clinical Nursing, you will focus on a clinical nursing speciality, which can also be your research focus if you choose this path.

Key clinical nursing specialities you can choose to study include:
- acute care
- cancer
- chronic conditions
- emergency
- intensive care
- mental health
- orthopaedics
- paediatrics
- perioperative
- renal.

In the increasingly complex and challenging world of health care, this course provides an opportunity to enhance your existing clinical knowledge and build capacity to move into further study and research. The course focuses on development of knowledge and skills in clinical practice and intellectual engagement through critical analysis and reflection relevant to nursing practice and education. You will be an informed leader on health care issues emphasising cross cultural practice while building on your research, ethical, political and reflective skills. All applicants must select a preferred clinical speciality from the list of options available.

Note: This course is due to be re-accredited for 2020 and you should check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

Graduating from this course prepares you for senior roles in the nursing and health care field or further studies.

ENTRY REQUIREMENTS

Applicants must hold current registration as a registered nurse or registered midwife with the Australian Health Practitioner Regulation Agency (AHPRA). All applicants must have minimum 0.6 full time current employment in the stream for which they are applying and provide details of their professional responsibilities in the form of a curriculum vitae as part of the online application through SATAC.

Subject to accreditation the following courses are being considered for introduction in 2020. Always refer to the CDU website for the latest information on course availability.

- Master of Midwifery
- Master of Nursing (Nurse Practitioner)
- Graduate Diploma of Mental Health
- Graduate Certificate of Clinical Midwifery
- Graduate Certificate of Nursing
- Graduate Diploma of Nursing
- Graduate Certificate of Clinical Facilitation
- Graduate Certificate of Health Services Management
- Graduate Certificate of Maternal Critical Care
- Bachelor of Midwifery Honours
- Bachelor of Nursing Honours.

**Note Type:**

1. Available externally through distance education with some on-campus attendance requirements
2. Available internally through a combination of internal and external units of study (e.g. not all units of the course are available on-campus)
3. Available to Indigenous students by mixed mode delivery through the Batchelor Institute of Indigenous Tertiary Education (BIITE) in Batchelor
4. Available to Indigenous students by mixed mode delivery through the Desert Peoples’ Centre in Alice Springs
5. This course is being reviewed and may be amended for 2019
6. There is no direct entry into this course through SATAC – entry is through internal transfer only.
