Document Certification

All your supporting documents must be certified. How?

To have a document certified, you should make a photocopy of the original document and take the original and the copy to an authorised person. The person must make the following written statement on the front of every page of the photocopied document:

*I have sighted the original document and certify this to be a true copy of the original*

The person must then sign and date the statement, provide their full name and their designation e.g. pharmacist.

Who can certify documents?

The most common authorised persons are police officers, school principals and pharmacists. For a full list click here.

What else do I need to know?

- The Institute will only accept correctly certified copies with original signatures (faxes, emails and scanned documents will not be accepted).
- Documents with multiple pages must have certification on each page.
- Do not send original documents as they will remain the property of the Institute.
- Post Office employees and registered nurses are not authorised by the Institute to certify documents.

Translations

If any of your documents are in a language other than English, you will need to provide the documents in the original language, plus translations. These translations must be prepared and certified as correct by a translator accredited by the National Accreditation Authority for Translators and Interpreters Ltd. (NAATI) e.g. overseas birth or marriage certificate, qualification documents, overseas criminal record checks.
